SAFETY INFORMATION

To ensure safe operation and prevent damage, please adhere to the following safety guidelines:

- Do not immerse the trimmer in water or any other liquids.
- Avoid using harsh cleaners or abrasive materials on the device.
- Keep the trimmer out of reach of children.
- Never attempt to self-repair the device. Refer to authorized service personnel for any repairs to prevent damage or injury.

WHAT'S IN THE BOX

Your VGR V-290 Professional Hair Trimmer package includes:

- 1x Hair trimmer
- 1x Cleaning Brush
- 1x Oil bottle
- 1x USB Type-C Charging Cable
- 3x Guide combs (1mm, 2mm, 3mm)
- 1x User Manual

SETUP

Initial Charging

Before the first use, fully charge the trimmer. Connect the provided USB Type-C charging cable to the trimmer and a compatible power source (power bank, adapter, or computer USB port). The LED display will indicate the charging status. A full charge takes approximately 1.5 hours and provides up to 120 minutes of runtime.

OPERATING INSTRUCTIONS

Powering On/Off and Mode Selection

Press the power button once to turn on the trimmer in Normal Mode (5500 RPM). The LED display will show the battery status and indicate Normal Mode. Double-click the power button to activate Turbo Mode (6500 RPM) for enhanced cutting power, ideal for thicker hair. The LED display will change to indicate Turbo Mode. Press the power button again to turn off the trimmer.

Trimming Techniques

For best results, trim against the direction of hair growth. Gently glide the trimmer along the skin. For longer hair, it is recommended to use a higher guard setting first, then switch to lower settings for detailing. The precision T-blade ensures smooth, accurate, and safe trimming without pulling or irritation.

TROUBLESHOOTING

If you encounter any issues with your VGR V-290 trimmer, please refer to the following common troubleshooting tips:

- **Trimmer not turning on:** Ensure the battery is fully charged. Connect the trimmer to the charger and wait for the LED display to indicate sufficient charge.
- **Reduced cutting performance:** Clean the blades thoroughly to remove any trapped hair. Apply a drop of lubricating oil to the blades. If the issue persists, ensure the guide comb is correctly attached.
- **Unusual noise:** Clean and oil the blades. If the noise continues, discontinue use and contact customer support.
- **Charging issues:** Ensure the USB Type-C cable is securely connected to both the trimmer and the power source. Try a different USB port or adapter. Note that the trimmer works best with the supplied cable.
