Product Overview

The VGR V-228 Professional Hair Trimmer features a precision T-blade for sharp, clean cuts and an LED display for battery status. It offers both corded and cordless operation for convenience.

- **Precision T-Blade:** Stainless steel T-blade for sharp, clean cuts.
- **LED Display:** Shows real-time battery status.
- **Long Battery Life:** 1500mAh lithium battery provides up to 180 minutes of runtime.
- **Corded & Cordless Use:** Offers flexibility for various grooming needs.

Setup

- Initial Charge:** Fully charge the trimmer before its first use. Connect the USB charging cable to the trimmer and a suitable power source (e.g., power bank, laptop, or standard adapter). The LED display will indicate charging status. A full charge typically takes about 2 hours.
- Attach Guide Comb:** Select the desired guide comb (1mm, 2mm, or 3mm) and securely attach it to the trimmer head.

Operating Instructions

- Power On:** Press the power switch to turn on the trimmer. The LED display will illuminate.
- Trimming:** For best results, trim against the direction of hair growth. Use the guide combs for desired hair lengths (1mm, 2mm, 3mm). The precision T-blade allows for detailed work on beards, moustaches, sideburns, and necklines.
- Adjusting Length:** The trimmer offers 3 adjustable settings for precise trimming.
- Power Off:** Press the power switch again to turn off the trimmer. Always turn off the device before changing accessories.

Maintenance

1. **Cleaning:** After each use, turn off and unplug the trimmer. Use the provided cleaning brush to remove any hair clippings from the blades and the trimmer body. The stainless steel blades are water-resistant for convenient cleaning; however, avoid submerging the entire unit.
2. **Oiling:** Apply a small drop of lubricating oil (provided) to the blades regularly to ensure smooth operation and prolong blade life. Turn on the trimmer for a few seconds after oiling to distribute the oil evenly.
3. **Storage:** Store the trimmer in a dry place, away from direct sunlight and moisture.

Troubleshooting

- **Trimmer not turning on:** Ensure the trimmer is fully charged. Check the USB charging cable and adapter for proper connection.
- **Reduced cutting performance:** Clean the blades thoroughly to remove any accumulated hair. Apply lubricating oil to the blades. Ensure the guide comb is correctly attached.
- **Trimmer not turning off:** If the trimmer continues to run after pressing the power button, ensure it is not connected to a power source. If the issue persists, contact customer support.
- **Battery not holding charge:** Ensure the charging cable and adapter are functioning correctly. If the battery life significantly degrades over time, it may indicate a need for service or replacement.

Specifications
