## Laptop Pro V1

# Laptop Pro Smart Dog Bark Collar V1 Instruction Manual

Model: V1

## 1. INTRODUCTION

---

The Laptop Pro Smart Dog Bark Collar V1 is designed to provide a humane and effective solution for managing excessive dog barking. Utilizing advanced bark recognition technology, this collar employs dual vibration modes and adjustable sensitivity levels to correct barking behavior without the use of harmful static shock. It is suitable for small, medium, and large dogs and features a durable, waterproof design for versatile use.

## 2. PRODUCT FEATURES

---

- **No Shock Dual Vibration Mode:** Offers two humane training modes (Vibration Mode & Strong Vibration Mode) to effectively deter barking without causing pain or harm.
- **Advanced Smart Bark Recognition Chip:** Equipped with a third-generation chip and anti-false triggering technology, ensuring accurate detection of your dog's bark while filtering out environmental noises.
- **USB Rechargeable & High Efficiency Battery:** Features a 480mAh lithium battery providing 10-15 days of use on a 2-3 hour charge. Includes overload protection and a low battery alarm.
- **Pet-Friendly Design:** Lightweight unit with three soft, durable nylon straps (adjustable for neck sizes 8"-21" / 20cm-53cm) and reflective stripes for visibility. Includes three pairs of soft silicone sleeves for comfort and skin protection.
- **Adjustable Sensitivity Levels:** Five sensitivity levels (1-5) allow customization based on your dog's barking intensity and environment.

### **Harmonious Neighbor Relationship**

No bark at neighbors, keep peace with them

### **Quiet Environment for Rest**

No constant noisy barking at night

### **Enjoy Outdoor Activities**

Keep calmer, not bark at dogs or people uncontrollably

## **2020 [UPGRADED] BARK COLLAR**

# **NO SHOCK & HUMANE**

No shock bark collar is a humane and pet-friendly training tool, it will not hurt your pet without harmful shock. Give your pets safer & effective training, enjoy peace and love!

## 4. SETUP

### 4.1 Charging the Collar

1. Locate the charging port on the collar unit, usually covered by a rubber flap for waterproofing.
2. Connect the provided USB charging cable to the collar unit and a compatible USB power source (e.g., computer, wall adapter).
3. The collar's digital display will indicate charging status. A full charge typically takes 2-3 hours.
4. Once fully charged, disconnect the cable and ensure the rubber flap is securely closed to maintain IPX7 waterproof integrity.

### 4.2 Attaching the Strap and Silicone Sleeves

1. Thread the nylon strap through the loops on the collar unit.
2. Select the appropriate length silicone sleeves for the contact points based on your dog's fur length. Gently push the sleeves onto the contact points until secure.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off

- To turn on: Press and hold the Power button ( ) until the indicator light illuminates.
- To turn off: Press and hold the Power button ( ) until the indicator light turns off.

### 5.2 Mode Selection

The collar offers two humane training modes:

- **Beep + Vibration Mode:** Indicated by a green light. The collar will emit a beep followed by vibration upon bark detection.
- **Beep + Strong Vibration Mode:** Indicated by a red light. The collar will emit a beep followed by a stronger vibration upon bark detection.

To switch between modes, press the Mode button (M).

## 5.3 Adjusting Sensitivity Levels

The collar has 5 adjustable sensitivity levels. A higher level means the collar is more sensitive to barking and will activate faster.

- To adjust sensitivity: While the collar is on, press the Power button ( ) to cycle through levels 1-5. The digital display will show the current sensitivity level.

## 6. WEARING THE COLLAR

Proper fit is crucial for the collar's effectiveness and your dog's comfort.

1. Position the collar unit centrally on your dog's throat, ensuring the contact points are touching the skin.
2. Adjust the nylon strap to ensure a snug fit. You should be able to fit one finger comfortably between the collar and your dog's neck. The collar should not be too loose, as this may prevent proper contact, or too tight, which could cause discomfort.
3. The collar is adjustable for neck sizes ranging from 8 inches (20cm) to 21 inches (53cm).
4. Use the provided silicone sleeves over the contact points to enhance comfort and protect your dog's skin, especially for dogs with shorter fur.

## ADJUSTABLE COLLAR, FITS FOR MOST SIZE DOGS

Easy to Put on, Useful&Resultful for Your Dogs! Suitable for Neck Size 8"-21"[20cm-53cm]

## 7. MAINTENANCE

---

### 7.1 Cleaning

- Regularly inspect the collar and contact points for dirt or debris.
- Clean the collar unit and strap with a damp cloth. Avoid using harsh chemicals.
- Ensure the charging port cover is always sealed when not charging to prevent water ingress.

### 7.2 Battery Care

- Charge the collar when the low battery alarm (blinking green indicator) is active.
- Avoid overcharging. Disconnect the charger once the battery is full.

### 7.3 Waterproofing

The Laptom Pro Smart Dog Bark Collar is IPX7 waterproof, meaning it can withstand splashes, rain, and snow. However, it is not recommended for prolonged submersion.

## 8. TROUBLESHOOTING

---

- **Collar not activating:** Ensure the collar is turned on and fully charged. Check that the contact points are making proper contact with your dog's skin. Adjust the sensitivity level to a higher setting if needed.
- **False triggering:** If the collar activates without your dog barking, try lowering the sensitivity level. Ensure the collar is not too loose, allowing it to rub against other surfaces.
- **Dog not responding:** Verify the collar is fitted correctly and the contact points are making good contact. Increase the sensitivity level or switch to the Strong Vibration Mode. Consistent training is key.
- **Battery not charging:** Check the USB cable and power source connections. Ensure the charging port is clean and free of debris.

## 9. SPECIFICATIONS

---

Feature	Specification
Model Name	V1
Brand	Laptom Pro
Item Weight	10.5 ounces
Battery Type	1 Lithium Ion battery required
Waterproof Rating	IPX7
Neck Girth (Adjustable)	8" - 21" (20cm - 53cm)
Material	Silicone (for contact sleeves)
Training Modes	Beep + Vibration, Beep + Strong Vibration
Sensitivity Levels	5

## 10. SAFETY INFORMATION

---

- Do not leave the collar on your dog for more than 12 consecutive hours to prevent skin irritation.
- Regularly check your dog's neck for any signs of irritation, redness, or sores. If irritation occurs, discontinue use and consult a veterinarian.
- Ensure the collar is fitted correctly; it should be snug enough for the contact points to work but not restrict breathing or movement.
- This device is intended for bark control and training purposes only. Do not use it for aggressive dogs or for any other purpose.
- Keep out of reach of children.
