Napoleon NEF-DRAK50

Napoleon NEF-DRAK50 Driftwood Log Kit with Rocks for Entice 50 Electric Fireplace - Instruction Manual

Model: **NEF-DRAK50** | Brand: **Napoleon**

INTRODUCTION

This document provides comprehensive instructions for the installation, care, and maintenance of your Napoleon NEF-DRAK50 Driftwood Log Kit with Rocks. This kit is designed to enhance the aesthetic appeal of your Napoleon Entice 50 Electric Fireplace by providing a realistic and traditional log and rock bed. Please read this manual thoroughly before proceeding with installation to ensure proper setup and to maximize the lifespan of your product.

PACKAGE CONTENTS

Upon opening your Napoleon NEF-DRAK50 Driftwood Log Kit, please verify that all components are present and undamaged. The kit includes:

- Realistic Driftwood Logs (various sizes)
- Assorted Decorative Rocks

IMPORTANT SAFETY INFORMATION

While this log kit is decorative and does not generate heat or flames independently, it is crucial to observe the following safety guidelines:

- Always ensure the electric fireplace is turned off and unplugged before installing or rearranging the log kit components.
- This log kit is designed for use with electric fireplaces only. Do not use in wood-burning or gas fireplaces.
- Keep all components out of reach of children and pets to prevent choking hazards or damage.
- Do not obstruct any vents or openings of the electric fireplace with the log kit components.

SETUP AND INSTALLATION

The Napoleon NEF-DRAK50 Driftwood Log Kit is specifically designed for easy placement within the Napoleon Entice 50 Electric Fireplace. Follow these steps for installation:

1. Ensure your Napoleon Entice 50 Electric Fireplace is powered off and unplugged from the electrical outlet.
2. Carefully open the front glass panel of your electric fireplace, if applicable, or access the log bed area as per your fireplace's instruction manual.
3. Arrange the driftwood logs within the designated log bed area of the fireplace. Experiment with different orientations to achieve a natural and aesthetically pleasing look.
4. Distribute the decorative rocks around the base of the logs and across the log bed. The rocks can be used to fill gaps and enhance the realistic appearance.
5. Once satisfied with the arrangement, carefully close and secure the front glass panel of your electric fireplace.
6. Plug in and power on your electric fireplace to enjoy the enhanced visual effect.

OPERATING INSTRUCTIONS

The Napoleon NEF-DRAK50 Driftwood Log Kit with Rocks is a decorative accessory. It does not require separate operation. Once installed, its visual effect integrates with the existing flame and ember bed features of your Napoleon Entice 50 Electric Fireplace. Control of the flame effects and heat output remains solely with the fireplace's built-in controls.

MAINTENANCE AND CARE

To maintain the appearance of your driftwood log kit and rocks, follow these simple care instructions:

- **Cleaning:** Periodically dust the logs and rocks with a soft, dry cloth. For more stubborn dirt, a slightly damp cloth can be used, but ensure the components are completely dry before re-installing them in the fireplace.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or polishing agents, as these can damage the finish of the logs and rocks.

- **Handling:** Handle the logs and rocks carefully to prevent chipping or breakage.

TROUBLESHOOTING

Most issues related to the log kit are minor and can be resolved with simple adjustments.

- **Logs Not Sitting Evenly:** If a log appears unstable or uneven, gently adjust its position or the surrounding rocks until it sits securely.
- **Appearance Not Satisfactory:** The arrangement of logs and rocks is customizable. Feel free to rearrange them until you achieve your desired aesthetic.
- **Damage to Components:** If any component arrives damaged, please contact Napoleon customer support for assistance.

PRODUCT SPECIFICATIONS

Feature	Detail
