JOJOY LUX J-RBag15

JOJOY LUX Car Roof Cargo Bag J-RBag15 User Manual

Model: J-RBag15

1. INTRODUCTION

Thank you for choosing the JOJOY LUX Car Roof Cargo Bag. This manual provides essential information for the safe and effective use of your new cargo bag. Designed for families, adventurers, and anyone needing extra storage, this waterproof and heavy-duty 720D PVC cargo bag is suitable for all vehicles, with or without roof racks. Please read these instructions carefully before installation and use.

3. SETUP AND INSTALLATION

The JOJOY LUX Car Roof Cargo Bag is designed for easy installation on all vehicle types, including those without roof racks. Follow these steps for secure attachment:

1. **Prepare the Roof:** Ensure your vehicle's roof is clean and dry. Place the anti-slip mat on the roof where the cargo bag will sit. This mat helps prevent the bag from shifting and protects your car's paint from scratches.

2. **Position the Cargo Bag:** Place the empty cargo bag on top of the anti-slip mat. For better protection from rain, it is recommended to position the non-zipper side of the bag facing the front of the vehicle.
3. **Load Contents:** Open the waterproof zipper and load your items into the bag. Distribute the weight evenly to maintain vehicle balance. The bag can accommodate items such as suitcases, sleeping bags, and tents.
4. **Secure the Bag (Vehicles with Roof Racks):** If your vehicle has existing roof racks or side rails, use the reinforced straps to secure the cargo bag directly to these racks. Ensure the straps are tightened firmly to prevent movement during transit.
5. **Secure the Bag (Vehicles without Roof Racks):** For vehicles without roof racks, use the provided door hooks.
 - Open your car doors.
 - Attach the door hooks to the door frame, ensuring they are securely seated and will not interfere with door closure or window operation.
 - Pass the reinforced straps through the door hooks and over the cargo bag.
 - Close the car doors, ensuring the straps are not pinched or damaged.
 - Tighten all straps firmly to secure the bag to the vehicle.
6. **Final Check:** Before driving, double-check all straps and hooks to ensure they are securely fastened and the bag is stable. Gently tug on the bag to confirm it does not shift.

4. OPERATING INSTRUCTIONS

Proper operation ensures the safety of your cargo and vehicle.

- **Loading Capacity:** The cargo bag offers a capacity of 15 cubic feet (approximately 4.7 cubic meters). It can hold items such as 4 suitcases (20-24 inches), 6 sleeping bags, and 2 four-person tents. Do not overload the bag beyond its capacity or the vehicle's roof weight limit.
- **Weight Distribution:** Always distribute the weight of your cargo evenly within the bag. Place heavier items at the bottom and center to maintain vehicle stability.
- **Waterproof Features:** The bag is constructed from 720D abrasion-resistant PVC fabric with a leak-proof zipper and an extra-wide 11.9 cm double flap. All seams are heat-welded for maximum waterproofing. To enhance rain protection, ensure the non-zipper side faces forward.
- **Driving with the Cargo Bag:**
 - Drive at appropriate speeds. While the bag is designed to withstand highway speeds, excessive speed can affect

vehicle handling and fuel efficiency.

- Be mindful of increased vehicle height, especially when entering garages, car washes, or areas with low clearances.
- Periodically check the straps during long journeys to ensure they remain tight and secure.

AIR-TIGHT SEALING

5. MAINTENANCE

Proper care will extend the life of your JOJOY LUX Car Roof Cargo Bag.

- **Cleaning:** Clean the cargo bag with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners, as these can damage the PVC material. Rinse thoroughly and allow to air dry completely before storing.
- **Storage:** When not in use, empty the bag and ensure it is clean and dry. The soft material allows it to be easily folded flat and stored in the provided storage bag, taking up minimal space in your garage or closet.
- **Inspection:** Periodically inspect the bag, straps, and zippers for any signs of wear, tears, or damage. Address any issues promptly to maintain the bag's integrity and waterproofing.

6. TROUBLESHOOTING

Here are some common issues and their solutions:

- **Bag is Shifting on Roof:**

- Ensure the anti-slip mat is correctly positioned underneath the bag.
- Verify all straps are tightened securely. Re-tighten if necessary.
- Check that the weight inside the bag is evenly distributed.

- **Water Leakage:**

- Confirm the zipper is fully closed and the extra-wide flap is properly covering it.
- Ensure the non-zipper side of the bag is facing the front of the vehicle to minimize direct water impact on the zipper.
- Inspect the bag for any tears or punctures.

- **Difficulty Closing Car Doors with Hooks:**

- Ensure the door hooks are positioned correctly within the door frame and not obstructing the door's latch mechanism.
- Adjust the strap tension. The straps should be snug but not so tight that they prevent door closure.

7. SPECIFICATIONS

Feature	Detail
Model Number	J-RBag15
Brand	JOJOY LUX
Material	720D PVC (Polyvinyl Chloride)
Dimensions (L x W x H)	112 x 86 x 43 cm (approximately 44 x 34 x 17 inches)
