- **Cleaning the Casing:** Wipe with a soft, dry cloth. Do not use abrasive cleaners.
- **Storage:** When not in use, store the monitor in a cool, dry place, preferably in its original packaging or with the smart cover attached to protect the screen.
- **Avoid Extreme Conditions:** Do not expose the monitor to extreme temperatures, humidity, or direct sunlight.

TROUBLESHOOTING

If you encounter issues with your monitor, refer to the following common solutions:

- **No Signal:**
 - Ensure all cables (HDMI, Type-C) are securely connected.
 - Verify the correct input source is selected in the OSD menu.
 - Check if the connected device (laptop, phone, console) is powered on and outputting a signal.
 - Ensure the monitor is receiving adequate power.
- **No Power:**
 - Confirm the power adapter is correctly plugged into the monitor and a working power outlet.
 - If using Type-C for power, ensure the source device can provide sufficient power or use the dedicated DC IN port.
- **Flickering Screen/Poor Image Quality:**
 - Check cable connections for looseness or damage.
 - Adjust brightness, contrast, and sharpness settings in the OSD menu.
 - Try a different cable or port.
- **No Sound:**
 - Increase the volume in the OSD menu and on the connected device.
 - Ensure the monitor is not muted.
 - If using external speakers or headphones, ensure they are properly connected to the 3.5mm audio jack.
