

Govee H5080

Govee Smart Plug 15A User Manual

Model: H5080

Brand: Govee

1. INTRODUCTION

This user manual provides comprehensive instructions for the Govee Smart Plug 15A (Model: H5080). It covers everything from initial setup and operation to maintenance and troubleshooting, ensuring you can effectively utilize all features of your smart plug. The Govee Smart Plug is designed to offer convenient control over your electronic appliances, integrating seamlessly with your smart home ecosystem.

2. PRODUCT OVERVIEW

The Govee Smart Plug 15A is a compact and efficient device that allows you to control your appliances remotely. It features a standard 3-prong outlet and a manual power button. A blue indicator light provides status feedback.

Image: Front view of the Govee Smart Plug 15A, showing the outlet and indicator light.

The smart plug is designed to be practical, occupying only one outlet space while leaving the other free. It supports a maximum current of 15A, making it suitable for a wide range of household appliances.

WiFi & Bluetooth Connectivity

More powerful, more stable

3. SETUP GUIDE

Follow these steps to set up your Govee Smart Plug:

1. **Download the Govee Home App:** Search for "Govee Home" in your smartphone's app store (iOS or Android) and download the application. Create an account or log in if you already have one.
2. **Plug In the Smart Plug:** Insert the Govee Smart Plug into a standard wall outlet. Ensure the indicator light on the plug begins to flash, indicating it is ready for pairing.

3. **Connect to Wi-Fi:** Open the Govee Home App. The app will automatically detect nearby Govee devices. Follow the on-screen instructions to connect the smart plug to your 2.4GHz Wi-Fi network. *Note: The Govee Smart Plug does not support 5GHz Wi-Fi networks.*

4. OPERATING INSTRUCTIONS

4.1. Govee Home App Control

Once connected, you can control your smart plug from anywhere using the Govee Home App. The app allows you to:

- Turn devices on/off remotely.

- Set schedules and timers for automatic operation.
- Group multiple smart plugs for simultaneous control.

Anywhere Anytime Control

Control your appliances remotely with App

4.2. Voice Control

The Govee Smart Plug is compatible with Alexa and Google Assistant, enabling hands-free control. To enable voice control:

1. Ensure your Govee account is linked to your Alexa or Google Home account through their respective apps.
2. Use voice commands such as "Alexa, turn on the living room light" or "Hey Google, turn off the kettle."

4.3. Scheduling and Timers

Automate your devices by setting custom schedules and timers within the Govee Home App. This feature helps in energy saving and convenience.

- Set daily or weekly schedules for appliances to turn on or off.
- Use the countdown timer for temporary operations.

5. MAINTENANCE

To ensure optimal performance and longevity of your Govee Smart Plug, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the smart plug from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Storage:** If not in use for an extended period, store the smart plug in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Overloading:** Do not connect devices that exceed the smart plug's maximum load capacity (15A). Refer to the specifications section for details.

6. TROUBLESHOOTING

If you encounter issues with your Govee Smart Plug, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Smart Plug cannot connect to Wi-Fi.	Incorrect Wi-Fi band (5GHz), weak signal, incorrect password.	Ensure your router is broadcasting a 2.4GHz network. Move the plug closer to the router. Double-check your Wi-Fi password.
Device connected to plug does not turn on/off.	Plug is offline, device is unplugged, device is faulty.	Check app to see if plug is online. Ensure device is properly plugged into the smart plug. Test the device directly in a wall outlet.
Voice control not working.	Govee account not linked, incorrect device name, internet issue.	Verify Govee skill is enabled and accounts are linked in Alexa/Google Home app. Use the exact device name. Check internet connection.
Plug is unresponsive.	Temporary glitch, power outage.	Unplug the smart plug from the wall outlet for 10 seconds, then plug it back in. This performs a soft reset.

7. SPECIFICATIONS
