

Euro BMB0679

Euro Home Electric Plus Water Gallon Pump

Model: BMB0679

INTRODUCTION

Thank you for choosing the Euro Home Electric Plus Water Gallon Pump. This innovative device is designed to simplify water dispensing from large water gallons, eliminating the need for heavy lifting and pouring. Its practical, easy-to-use design, combined with USB rechargeability, makes it an ideal solution for homes, offices, and outdoor activities.

Please read this manual carefully before using the product to ensure proper operation and to maximize its lifespan. Keep this manual for future reference.

SAFETY INSTRUCTIONS

- Ensure the product's voltage (DC-5V) matches your charging source before connecting.
- Do not immerse the main pump unit in water or any other liquid. This product is not waterproof.
- Keep the device out of reach of children and pets.
- Use only clean, potable water with this pump.
- Do not attempt to disassemble, repair, or modify the pump yourself. Contact qualified service personnel if needed.
- Avoid exposing the pump to extreme temperatures, direct sunlight, or high humidity.
- Unplug the USB charging cable when the pump is fully charged or not in use for extended periods.
- Ensure the silicone hose and stainless steel pipe are clean before each use to maintain hygiene.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x Euro Home Electric Plus Water Gallon Pump (Main Unit)
- 1 x USB Charging Cable
- 1 x Food-Grade Silicone Hose (approx. 51 cm)
- 1 x Stainless Steel Outlet Pipe

The main unit of the Euro Home Electric Water Gallon Pump, featuring a white body, black base, and a curved stainless steel dispensing spout. A power button is visible on top.

The flexible, transparent silicone hose that connects to the bottom of the pump and extends into the water gallon, drawing water up for

dispensing.

The included USB charging cable, with a standard USB-A connector on one end and a Micro-USB connector on the other, used for recharging the pump's internal battery.

SETUP

1. **Charge the Pump:** Before first use, fully charge the pump for 3-5 hours using the provided USB cable. Connect the Micro-USB end to the pump's charging port (located at the back) and the USB-A end to a compatible USB power adapter (not included) or computer USB port. The pump can be used while charging.

The rear view of the pump, highlighting the Micro-USB charging port and a small indicator light, where the charging cable connects.

2. **Attach Silicone Hose:** Insert one end of the silicone hose firmly into the inlet port at the bottom of the pump unit.
3. **Attach Stainless Steel Pipe:** Insert the curved stainless steel pipe into the outlet port on the front of the pump unit. Ensure it is securely fitted.
4. **Install on Gallon:** Place the assembled pump unit onto the mouth of your water gallon (compatible with 5L, 10L, and 20L gallons). The silicone seal at the base of the pump ensures a precise and secure fit. Ensure the silicone hose reaches the bottom of the gallon.

OPERATING INSTRUCTIONS

1. **Dispensing Water:** Press the touch button on the top of the pump. Water will begin to flow from the stainless steel spout.

An illustration of the pump in use, showing a hand pressing the power button on top of the pump, which is securely fitted onto a blue water gallon. Water is being dispensed from the spout.

2. **Stopping Water Flow:** Press the touch button again to stop the water flow.
3. **Recharging:** When the battery is low (indicated by a change in the LED light or reduced flow), connect the USB charging cable as described in the Setup section. A full charge can last for dispensing up to 4 x 20-liter gallons.

MAINTENANCE

- **Cleaning the Hoses and Pipes:** Regularly detach and clean the silicone hose and stainless steel pipe with warm, soapy water. Rinse thoroughly and allow to air dry completely before reattaching.
- **Cleaning the Main Unit:** Wipe the exterior of the pump unit with a soft, damp cloth. Do not use abrasive cleaners, solvents, or immerse the unit in water.
- **Storage:** When not in use for an extended period, ensure the pump is clean and dry. Store it in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No water dispensed / Pump not turning on	Battery is depleted.	Charge the pump for 3-5 hours.
	Silicone hose is kinked or blocked.	Straighten the hose or check for obstructions.
Slow water flow	Low battery.	Recharge the pump.
	Hose or pipe is dirty/clogged.	Clean the silicone hose and stainless steel pipe.
Pump does not fit gallon opening securely	Gallon mouth size is incompatible.	Ensure you are using a standard 5L, 10L, or 20L water gallon.

SPECIFICATIONS

Feature	Detail
Brand	Euro Home
Model	BMB0679
Color	White
Power	4 Watts
Voltage	DC-5V
Battery Capacity	1200mA
Charging Time	3-5 hours
Usage per Charge	Up to 4 x 20-liter gallons
Materials	ABS Plastic, Food-Grade Silicone, Stainless Steel
Product Dimensions (L x W x H)	10 cm x 6.5 cm x 12 cm
Silicone Hose Length	51 cm
USB Cable Length	50 cm
