SETUP AND ASSEMBLY

1. **Unboxing:** Carefully remove the figure and all accessories from the packaging. Retain packaging for future storage or reference.
2. **Attaching Accessories:**
 - **Hands:** Gently pull off the default hands and push on the desired interchangeable hands. Ensure a snug fit.
 - **Weapons:** Insert the Power Sword or Battle Axe into the figure's grip. The Power Sword can also be sheathed

on the figure's back.

- **Head:** To change the head, carefully pull off the current head and align the neck peg with the alternate head's socket. Press firmly until it clicks into place.
- **Armor:** The shoulder pads, bracers, and helmet are removable. To attach the helmet, place it over the figure's head, ensuring the horns are correctly oriented.

3. **Posing:** The figure features over 30 points of articulation. Gently manipulate joints to achieve desired poses. Avoid excessive force to prevent damage.

OPERATING THE ACTION FIGURE (POSING AND DISPLAY)

This action figure is designed for display and imaginative play. Its extensive articulation allows for a wide range of poses, enhancing its collectible value and play experience.

- **Articulation:** The figure has articulation points at the neck, shoulders, elbows, wrists, torso, waist, hips, knees, and ankles. Move these joints carefully to position the figure.
- **Stability:** For standing poses, ensure the feet are flat on a stable surface. Adjust leg and ankle joints for balance. Display stands (not included) can provide additional stability for more complex poses.
- **Accessory Use:** Weapons and other accessories are designed to be held by the figure's hands or attached to specific points (e.g., sword sheath on back).

MAINTENANCE AND CARE

- **Cleaning:** Wipe the figure and accessories with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation. Keep accessories in a secure place to avoid loss.
- **Handling:** Handle the figure by its main body parts. Avoid pulling on small, delicate parts or joints with excessive force.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Joints are stiff.	New figure, cold temperature.	Gently warm the joint with warm water or a hairdryer on low heat (from a safe distance) to loosen it before articulation.
Accessories do not fit securely.	Incorrect orientation or minor manufacturing variance.	Ensure correct alignment. If still loose, a small amount of clear adhesive putty can temporarily secure them for display.
Figure falls over easily.	Unbalanced pose or unstable surface.	Adjust the figure's stance for better balance. Use a flat, stable surface. Consider a display stand for dynamic poses.
