

Aivituvin AIR37

Aivituvin AIR37 Outdoor Cat Enclosure User Manual

Model: AIR37 | Brand: Aivituvin

INTRODUCTION

Thank you for choosing the Aivituvin AIR37 Outdoor Cat Enclosure. This multi-level catio provides a safe and stimulating environment for your feline companions to enjoy the outdoors. Designed with durability and pet comfort in mind, this manual will guide you through the assembly, usage, and maintenance of your new cat enclosure.

SAFETY INFORMATION

- Always ensure all parts are securely fastened during assembly and regularly check for loose connections.
- Place the catio on a flat, stable surface to prevent tipping.
- The reinforced wire mesh is designed to protect cats from predators; however, regular inspection for damage is recommended.
- Ensure all doors are securely locked when cats are inside to prevent escape.
- Supervise pets, especially during initial use, to ensure they adapt safely to the enclosure.
- This enclosure is suitable for cats, birds, iguanas, squirrels, and other small pets.

PACKAGE CONTENTS

The Aivituvin AIR37 Cat Enclosure is shipped in multiple boxes. Ensure all components from all boxes are present before beginning assembly.

- Wooden frame panels
- Wire mesh panels
- 7 Platforms (6 large, 1 central)
- 2 Resting Boxes
- Weatherproof asphalt roof panels
- Assembly hardware (screws, hinges, latches)

- Instruction manual

ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 45 minutes with clear instructions and pre-drilled parts. Two people are recommended for easier assembly.

1. **Unpack and Organize:** Carefully unpack all components and lay them out. Verify all parts are present against the parts list in the included manual.
2. **Assemble Base Frame:** Connect the base wooden frame pieces using the provided hardware. Ensure the frame is square and stable.
3. **Attach Side Panels:** Secure the side panels, which include the wire mesh, to the base frame.
4. **Install Platforms and Resting Boxes:** Mount the 6 large platforms and 2 resting boxes at desired heights using the pre-drilled holes. The central platform connects the left and right sides.
5. **Attach Doors:** Install the full-height front door and any smaller side doors. Ensure all latches are functional for secure closure.
6. **Install Roof:** Secure the weatherproof asphalt roof panels to the top frame. The upgraded sloping roof can be assembled either front or back.
7. **Final Checks:** Double-check all screws and connections for tightness. Ensure all doors open and close smoothly and latch securely.

USAGE GUIDELINES

The Aivituvn AIR37 Cat Enclosure offers a versatile space for your pets.

- Spacious Multi-Level Design:** The enclosure comfortably fits up to 6-8 cats, featuring 6 spacious platforms, a central platform, and cozy hideouts. This design is perfect for jumping, climbing, scratching, birdwatching, sunbathing, and lounging.
- Easy Window Access:** A removable back door and multiple removable side panels allow for easy connection to your home via windows or pet flaps. The 4 ground-floor side doors are ideal for senior cats and kittens, providing easy passage and the ability to expand the play area with compatible cat tunnels (e.g., AIR7007).
- Walk-In Design:** The full-height 67" front door allows for easy entry without bending down, simplifying playtime, grooming, and maintenance.
- Elevated Shelf:** The elevated shelf design accommodates taller litter boxes, feeders, and other essentials, keeping them organized and accessible.

MAINTENANCE

- **Cleaning:** Regularly clean the platforms and interior surfaces with pet-safe cleaners. The walk-in design simplifies access for cleaning.
- **Roof Care:** The weatherproof asphalt roof protects from sun and rain. Periodically check the roof for any damage or wear and tear.
- **Wood Maintenance:** The wooden structure is treated, but for prolonged outdoor life, consider applying a pet-safe wood sealant annually.
- **Mesh Inspection:** Inspect the wire mesh regularly for any signs of damage or weakening to maintain predator protection.

Figure 5: Weatherproof asphalt roof for protection.

TROUBLESHOOTING

- **Unstable Structure:** Ensure all screws are tightened. Verify the catio is placed on a level surface.
- **Doors Not Latching:** Check hinges and latches for proper alignment. Adjust if necessary.
- **Cats Not Using Catio:** Introduce cats gradually. Place familiar items like blankets or toys inside. Use treats to encourage exploration.
