Setup

Before first use, ensure all packaging materials are removed and the machine is placed on a stable, level surface. Follow these steps for initial setup:

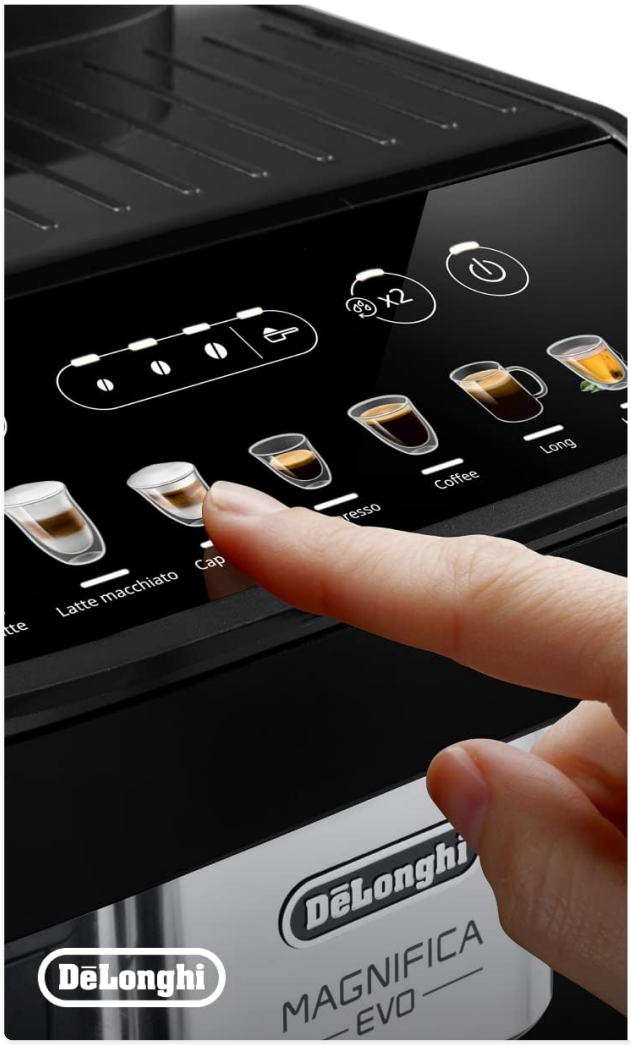

1. **Unpacking and Positioning:** Carefully remove the machine from its packaging. Place it on a flat, stable surface away from heat sources and water.
2. **Water Tank:** Remove the water tank, rinse it, and fill it with fresh tap water up to the MAX level. Insert it back into the machine.
3. **Bean Hopper:** Open the lid of the bean hopper and fill it with fresh coffee beans. Do not use ground coffee, instant coffee, or caramelized beans.
4. **Initial Circuit Priming:** Plug the machine into a power outlet. The machine will guide you through an initial priming process, which involves rinsing the internal circuits. Follow the on-screen instructions.

Operating the Coffee Machine

Your Magnifica Evo is designed for ease of use, offering a variety of coffee and milk-based beverages at the touch of a button.

Control Panel Overview

Découvrez l'interface intuitive

Accès direct aux boissons

Interface intuitive avec icones en couleur

The intuitive touch display features colored icons for direct access to your favorite drinks, including Espresso, Coffee, Cappuccino, and Latte Macchiato.

Making Coffee and Espresso

1. Ensure the water tank is filled and the bean hopper contains fresh beans.
2. Place a cup under the coffee spouts.
3. Select your desired beverage (e.g., Espresso, Coffee) from the control panel. The machine will automatically grind the beans and brew your drink.
4. To adjust the grind setting, use the dial inside the bean hopper. Adjust only when the grinder is operating. There are 13 grind settings available.

Preparing Milk-Based Beverages (LatteCrema Hot Technology)

The patented LatteCrema Hot Technology ensures a perfect, creamy, and long-lasting milk foam for your cappuccinos and latte macchiatos.

1. Fill the milk carafe with fresh cold milk (dairy or plant-based alternatives).
2. Attach the milk carafe to the machine's milk spout.
3. Place a suitable cup under the coffee and milk spouts.
4. Select your desired milk-based beverage (e.g., Cappuccino, Latte Macchiato) from the control panel. The machine will automatically dispense milk foam and then coffee.

Maintenance and Cleaning

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your coffee machine.

Daily Cleaning

- **Drip Tray and Grounds Container:** Empty and rinse the drip tray and coffee grounds container daily. The machine will prompt you when the grounds container needs emptying.
- **Milk Carafe:** After each use, perform the automatic cleaning cycle for the milk carafe. The carafe components are also dishwasher safe for thorough cleaning.

Brew Group Cleaning

The brew group is removable for easy cleaning. Rinse it under running water at least once a month. Ensure it is completely dry before reinserting.

Descaling

The machine will indicate when descaling is required. Use only De'Longhi descaling solution. Follow the on-screen instructions for the automatic descaling cycle. Regular descaling prevents limescale buildup and ensures consistent coffee quality.

Troubleshooting

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
No coffee dispensed	Water tank empty; brew group clogged; no beans.	Fill water tank; clean brew group; fill bean hopper.
Weak coffee	Grind setting too coarse; insufficient coffee dose.	Adjust grind to finer setting; increase coffee strength setting.
No milk foam or poor quality foam	Milk carafe dirty; milk not cold enough; milk type unsuitable.	Clean milk carafe thoroughly; use fresh, cold milk; try different milk types.
Machine displays 'Descaling required'	Limescale buildup.	Perform the descaling cycle as per instructions.

Specifications

Key technical specifications for the De'Longhi Magnifica Evo ECAM292.81.B:

- **Brand:** De'Longhi
- **Model Number:** ECAM292.81.B
- **Color:** Black
- **Dimensions (L x W x H):** 44 x 24 x 36 cm (17.3 x 9.4 x 14.2 inches)
- **Weight:** 9.6 kg (21.2 lbs)
- **Capacity:** 1.8 Liters (water tank)
- **Power:** 1450 Watts
- **Voltage:** 240V
- **Material:** Plastic
- **Special Features:** Removable water carafe, easy cleaning, 7 recipes, automatic milk system with milk carafe, color display.
- **Country of Origin:** Romania
