SteelSeries Aerox 3 Wireless

SteelSeries Aerox 3 Wireless Gaming Mouse Instruction Manual

1. INTRODUCTION

The SteelSeries Aerox 3 Wireless Gaming Mouse is engineered for performance and durability. Featuring a stunning 3-zone RGB illumination and an ultra-lightweight design, it is optimized for effortless movement. The mouse incorporates AquaBarrier™ technology for protection against spills and dirt, boasts a 200-hour battery life, and offers lag-free 2.4GHz or Bluetooth 5.0 connectivity. Its 1-to-1 TrueMove Air sensor, co-developed with PixArt, ensures pixel-perfect accuracy.

- **Radiant 3-zone PrismSync RGB:** Customizable lighting with 16.8 million colors.
- **Ultra-Lightweight Design:** Weighs 68g for swift and effortless gameplay.
- **AquaBarrier™ Protection:** IP54 rated for water splash, dust, and dirt resistance.
- **Extended Battery Life:** Up to 200 hours of usage on a single charge.
- **Dual Wireless Connectivity:** Choose between lag-free 2.4GHz for gaming or Bluetooth 5.0 for other devices.
- **TrueMove Air Sensor:** 18K DPI optical gaming sensor for precise tracking.

2. SETUP

2.1 Unboxing Contents

Upon unboxing, ensure you have the following components:

- SteelSeries Aerox 3 Wireless Gaming Mouse
- USB-C Wireless Dongle (2.4GHz)
- USB-C to USB-A Adapter
- USB-C Charging Cable

2.2 Connectivity Options

The Aerox 3 Wireless offers versatile connectivity:

1. **2.4GHz Wireless (Gaming Mode):**
   - Locate the USB-C wireless dongle.

- Insert the USB-C dongle directly into a compatible USB-C port on your PC or laptop.
- Alternatively, use the provided USB-C to USB-A adapter to connect the dongle to a standard USB-A port.
- Ensure the switch on the bottom of the mouse is set to the '2.4G' position.

2. **Bluetooth 5.0 (General Use):**
   - Ensure the switch on the bottom of the mouse is set to the 'Bluetooth' position.
   - On your device, navigate to Bluetooth settings and search for 'Aerox 3 Wireless'.
   - Select the mouse to pair.

3. **Wired Mode:**
   - Connect the USB-C charging cable to the front port of the mouse.
   - Connect the other end of the cable to a USB port on your computer.
   - The mouse will function in wired mode and charge simultaneously.

3. OPERATING THE MOUSE

3.1 Programmable Buttons

The Aerox 3 Wireless features 6 programmable buttons:

- Left Click (Button 1)
- Right Click (Button 2)
- Scroll Wheel Click (Button 3)

- Two Side Buttons (Buttons 4 & 5)
- CPI Button (Button 6)

These buttons can be customized using the SteelSeries GG software to assign macros, keyboard functions, media controls, and more.

3.2 CPI (Counts Per Inch) Adjustment

The mouse is equipped with an 18,000 DPI TrueMove Air Optical Sensor. The dedicated CPI button (Button 6) allows you to cycle through multiple sensitivity levels, which can be configured in the SteelSeries GG software to match your preferences.

3.3 RGB Illumination

The Aerox 3 Wireless features 3-zone PrismSync RGB lighting. The illumination can be customized extensively through the SteelSeries GG software, allowing you to choose from 16.8 million colors and various effects to personalize your mouse.

4. Maintenance

4.1 AquaBarrier™ Protection

The Aerox 3 Wireless is designed with AquaBarrier™ technology, providing IP54 water and dust resistance. This protects the mouse's internal circuitry from splashes, dust, dirt, and oil, ensuring long-term durability.

Figure 5: AquaBarrier™ technology protects the mouse from environmental elements.

4.2 Cleaning

To maintain optimal performance and appearance, regularly clean your mouse. Use a soft, dry cloth to wipe down the exterior. For dust accumulation in the honeycomb shell, a can of compressed air can be used. Avoid using harsh chemicals or abrasive materials.

5. Troubleshooting

5.1 Connectivity Issues

- **2.4GHz Wireless:** Ensure the USB-C dongle is securely plugged into your device and the mouse switch is in the '2.4G' position. Try a different USB port or restart your computer.
- **Bluetooth:** Verify Bluetooth is enabled on your device and the mouse switch is in the 'Bluetooth' position. Remove the mouse from your device's paired list and attempt to re-pair.
- **Interference:** Wireless interference can affect performance. Try moving the dongle closer to the mouse using the USB-C extension adapter, or move away from other wireless devices.

5.2 Battery Life Concerns

- **Low Battery Indication:** The RGB lighting on the mouse will change color to indicate low battery levels, prompting you to charge.
- **Charging:** Connect the mouse via the USB-C cable to charge. A quick 15-minute charge provides significant playtime.
- **Power Saving:** Utilize the SteelSeries GG software to enable 'High-Efficiency Mode' or adjust sleep timers and illumination dim timers to extend battery life.

6. SPECIFICATIONS

Feature	Detail
Brand	SteelSeries
Model Number	62612
Connectivity Technology	Bluetooth, USB (2.4GHz Wireless)
Movement Detection Technology	Optical (TrueMove Air Sensor)
DPI/CPI	Up to 18,000
Item Weight	2.39 ounces (approx. 68g)
Average Battery Life	200 Hours
Power Source	Battery Powered (1 Lithium Ion battery included)
Hardware Platform	PC
Operating System Compatibility	Windows, Mac, Xbox, and Linux (USB port required)
Special Feature	Gaming, IP54 Water Resistant, RGB Illumination
