HOST Insta-Chill Slim Can Cooler Instruction Manual

Model: 9920

PRODUCT OVERVIEW

The HOST Insta-Chill Slim Can Cooler is designed to rapidly chill and maintain the temperature of 12 oz slim cans. Utilizing active cooling gel technology, it transforms room temperature beverages into chilled drinks within minutes and keeps them cold for an extended period. Its flexible neoprene construction also allows it to function as a versatile cold pack.

KEY FEATURES

- **Fits 12 oz Slim Cans:** Specifically designed for standard 12 oz slim beverage cans.
- **Active Cooling Gel:** Contains proprietary freezable gel that actively chills beverages.
- **Rapid Chilling:** Capable of chilling room temperature drinks in approximately 10 minutes.
- **Extended Cold Retention:** Keeps drinks cold for at least one hour after initial chilling.
- **Flexible Neoprene Construction:** Provides a comfortable grip and insulates hands from the cold.
- **2-in-1 Functionality:** Unfolds into a flat cold pack for use in coolers or travel bags.
- **Secure Velcro Closure:** Ensures a snug fit around the can.

SETUP AND PREPARATION

Before first use, and for optimal performance, the Insta-Chill Slim Can Cooler must be properly prepared.

- 1. Unfold the Cooler:** Lay the can cooler flat.
- 2. Freeze:** Place the unfolded cooler in a freezer for a minimum of 1 hour. Ensure the cooling gel is evenly distributed within the pockets for best results.
- 3. Verify Freezing:** The gel should be completely frozen and firm to the touch before use.

2-IN-1 ICE PACK

WITH ACTIVE CHILLING GEL

Simply unfold the can cooler into a flat, flexible cold pack to use in coolers or travel bags.

FREEZE
AT LEAST
ONE HOUR
BEFORE USE

Image: The Insta-Chill Slim Can Cooler displayed in its unfolded, flat configuration, revealing the internal active chilling gel compartments. A clear instruction to freeze for at least one hour is visible.

OPERATING INSTRUCTIONS

Once the Insta-Chill Slim Can Cooler is frozen, it is ready for use.

- 1. Insert Can:** Place a 12 oz slim can into the cooler.
- 2. Wrap and Secure:** Wrap the cooler around the can, ensuring the cooling gel side is in contact with the can. Secure it firmly using the velcro strip. Adjust for a snug fit to maximize cooling efficiency.
- 3. Enjoy:** Your beverage will begin to chill rapidly. For best results, allow approximately 10 minutes for a room temperature drink to become cold.
- 4. As a Cold Pack:** To use as a flat cold pack, simply keep the cooler unfolded and place it in a cooler or lunch bag to help keep other items cold.

MAINTENANCE AND CARE

Proper care will ensure the longevity and effectiveness of your Insta-Chill Slim Can Cooler.

- **Cleaning:** Wipe the exterior with a damp cloth as needed. Do not submerge the cooler in water or wash in a dishwasher, as this may damage the internal cooling gel.
- **Drying:** Allow the cooler to air dry completely before refreezing or storing.
- **Storage:** Store the cooler flat in the freezer for continuous readiness, or in a cool, dry place when not in use.
- **Avoid Punctures:** Do not use sharp objects near the cooler, as puncturing the material can cause the cooling gel to leak.

TROUBLESHOOTING

If you encounter issues with your Insta-Chill Slim Can Cooler, consider the following common solutions:

Problem	Possible Cause	Solution
Beverage does not chill sufficiently or quickly.	Cooler not frozen long enough; gel not fully frozen.	Ensure the cooler is frozen for at least 1 hour, or until the gel is completely solid.
Cooler does not stay cold for long.	Incomplete freezing; external temperature too high.	Verify full freezing. In very hot environments, cold retention time may be reduced.
Cooler feels loose around the can.	Velcro not securely fastened; can size mismatch.	Ensure the velcro is pulled tight and fully engaged. This cooler is designed for 12 oz slim cans.
Unpleasant odor develops.	Moisture trapped; improper cleaning.	Wipe clean with a damp cloth and ensure it is completely dry before storage or refreezing. Do not submerge.
Gel leakage.	Product damage (e.g., puncture, tear).	Discontinue use if gel is leaking. Contact customer support for assistance.

SPECIFICATIONS

Model Number	9920
Brand	Host
Size	Slim (fits 12 oz slim cans)
Color	Green
Material	Neoprene
Item Volume	12 Fluid Ounces (can capacity)
Product Dimensions (unfolded)	0.3 x 4 x 2.1 inches (approximate)
Item Weight	4.2 ounces
UPC	842094199204
