## UDesire 16A Brazilian Body Wave Human Hair Bundle 22 Inch Instruction Manual

Model: bodybundle22

### 1. INTRODUCTION

This manual provides instructions for the proper use and care of your UDesire 16A 100% Unprocessed Brazilian Body Wave Human Hair Bundle. This product is made from high-quality virgin human hair, designed for weaving, and can be styled to your preference. Adhering to these guidelines will help maintain the hair's quality and extend its lifespan.

### 2. PRODUCT FEATURES

- **Material:** 16A Grade 100% Unprocessed Brazilian Virgin Human Hair from a single donor. Full cuticle aligned.
- **Quality:** Machine double hair weft, tangle-free, minimal shedding, full, thick, soft, bouncy, and shiny with high elasticity.
- **Versatility:** Can be dyed, permed, bleached, highlighted, curled, or styled as your own hair.
- **Weight & Length:** 95-100g per bundle. Available in various lengths from 8 to 26 inches. For accurate length measurement, stretch the hair straight before measuring.
- **Color:** Natural Black.

### 3. INSTALLATION GUIDELINES

For optimal fullness and a natural look, consider the following bundle recommendations based on the desired hair length:

- For 8-14 inch hair: Order 3 bundles.
- For 16-22 inch hair: Order 4 bundles.
- For 24-28 inch hair: Order 4-5 bundles.

It is highly recommended to consult a professional stylist for the installation of your hair bundles to ensure proper application, secure attachment, and longevity of the style.

## Why False?

- 1. Unstretched Status
- 2. Didn't Choose Longest Hair

## Correct Method:

- 1. Choose the Longest Hair
- 2. Stretched to totally straight

Image: Diagram illustrating the correct method to measure hair length by stretching the wave hair straight.

## 4. STYLING YOUR HAIR BUNDLES

Your UDesire human hair bundles are versatile and can be styled in various ways to achieve your desired look.

### Heat Styling

The hair can be straightened or curled using heat tools such as flat irons or curling wands. Always apply a heat protectant spray before using any heat styling tools to minimize potential damage. Maintain moderate heat settings to preserve the hair's quality.

### Coloring and Bleaching

The hair is 100% unprocessed virgin human hair and can be dyed, bleached, or highlighted. For optimal results and to ensure the hair's integrity is maintained, it is strongly recommended to have all coloring services performed by a professional stylist.

### Other Styles

Feel free to explore different looks such as half ponytails, braids, or other creative styles. The hair's natural body wave pattern provides a beautiful foundation for many hairstyles.

## 5. HAIR CARE AND MAINTENANCE

---

Proper care is essential to maintain the quality, softness, and longevity of your UDesire human hair bundles. Follow these steps for best results:

### Washing and Conditioning

- 1. Detangle:** Gently detangle the hair with a wide-tooth comb or your fingers before washing. Start from the ends and work your way up to the wefts.
- 2. Shampoo:** Wet hair with warm water. Apply a small amount of mild, sulfate-free shampoo, distributing it evenly. Do not rub or twist the hair.
- 3. Rinse:** Rinse thoroughly with clear, warm water until all shampoo is removed.
- 4. Condition:** Apply a moisturizing conditioner. Leave it on for 5-10 minutes to allow for deep conditioning.
- 5. Final Rinse:** Rinse again with clear water until all product is removed.

6. **Excess Water:** Gently squeeze out excess water with a towel. Do not rub the hair vigorously.

### Drying

Air drying is the preferred method. Lay the bundles flat on a clean towel or hang them to dry naturally. Avoid excessive heat from blow dryers, as this can cause damage and dryness. If using a blow dryer, use a low heat setting and a heat protectant.

### Detangling

Regularly detangle your hair bundles to prevent matting and tangling. Always start from the ends and work your way up to the roots using a wide-tooth comb or your fingers. Be gentle to prevent excessive shedding.

### Product Use

Use lightweight, non-greasy hair products. Avoid heavy oils, gels, or products that can cause buildup, which may lead to tangling and dullness. A light hair serum or oil can be applied to the ends to maintain moisture and shine.

Image: Step-by-step guide on how to wash and detangle UDesire hair bundles, emphasizing gentle care.

## 6. TROUBLESHOOTING COMMON ISSUES

### Shedding

Minimal shedding is normal for any hair product. Excessive shedding can be caused by harsh brushing, over-processing (e.g., bleaching or dyeing), or improper installation where wefts are cut too frequently. To minimize shedding, always brush gently, avoid excessive chemical treatments, and seal wefts if they are cut during installation.

### Tangling

Tangling can occur due to product buildup, dryness, or friction. Regularly wash and condition the hair, use a leave-in conditioner, and detangle gently from ends to roots. Avoid sleeping on wet hair or with loose hair; consider braiding or wrapping your hair before bed.

### Dryness

Human hair extensions do not receive natural oils from the scalp, which can lead to dryness. Use moisturizing shampoos and conditioners specifically designed for human hair extensions. Apply a light hair serum or natural oil (like argan or coconut oil) to the ends to maintain moisture and prevent split ends.
