

BRIGHT Personal

BRIGHT BEACON40® Light Therapy Gamma Lamp User Manual

Model: Personal

INTRODUCTION

The BRIGHT BEACON40® Light Therapy Gamma Lamp is designed to support cognitive wellness through 40Hz gamma wave light stimulation. This device aims to encourage brainwave activity associated with improved sleep, mental clarity, and cognitive sharpness. Its modern design and effortless setup make it a suitable addition to various environments.

SETUP

The BEACON40® lamp is designed for plug-and-go simplicity. Follow these steps for initial setup:

1. **Unpack:** Carefully remove the BEACON40® lamp and its components from the packaging. Ensure all included components, such as the remote control, are present.
2. **Placement:** Place the lamp on a stable, flat surface in your desired location. The lamp is designed for indoor use, suitable for rooms like an office or living area.
3. **Power Connection:** Connect the provided power cord to the lamp's USB port and then plug it into a standard electrical outlet.
4. **Initial Power On:** The lamp is ready for use once connected to power. You can power it on using the power button on the base or the remote control.

Anytime. Anywhere.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your BEACON40® lamp.

- **Cleaning:** Gently wipe the lamp's surface with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as they may damage the finish. The lamp is dust resistant.
- **Storage:** When not in use for extended periods, store the lamp in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the lamp with care to prevent damage. Avoid dropping or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter issues with your BEACON40® lamp, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lamp does not turn on.	No power connection or faulty outlet.	Ensure the power cord is securely plugged into both the lamp and a working electrical outlet. Test the outlet with another device.
Light flickers or is inconsistent.	Loose connection or power fluctuation.	Check all connections. If the issue persists, try plugging into a different outlet. The lamp is designed to be flicker-free.
Remote control not responding.	Dead batteries or obstruction.	Replace the remote control batteries. Ensure there are no obstructions between the remote and the lamp.

If these steps do not resolve the issue, please contact customer support for further assistance.
