Operating (Gameplay)

The Pokémon Trading Card Game is a strategic card game played between two players. The objective is to defeat your opponent's Pokémon by reducing their Hit Points (HP) to zero, or by taking all of your Prize cards.

Basic Gameplay Overview:

- **Starting the Game:** Each player shuffles their 60-card deck and draws 7 cards. Place a Basic Pokémon face down as your Active Pokémon and up to 5 Basic Pokémon on your Bench. Set aside 6 Prize cards face down.
- **Player's Turn:** Each turn consists of drawing a card, playing Basic Pokémon to the Bench, evolving Pokémon, attaching Energy, playing Trainer cards, and using Abilities.
- **Attacking:** Your Active Pokémon can attack once per turn if it has the necessary Energy attached.
- **Winning:** Win by knocking out all of your opponent's Active and Benched Pokémon, or by taking all 6 of your Prize cards.

For detailed rules and advanced strategies, refer to the included Pokémon TCG rulebook and player's guide.

Maintenance

Proper care of your Pokémon TCG cards and accessories will ensure their longevity and maintain their value.

- **Card Protection:** Always store cards in the provided card sleeves, especially valuable or frequently used cards.
- **Storage:** Keep cards and accessories in the collector's box to protect them from dust, moisture, and physical damage. Avoid direct sunlight and extreme temperatures.
- **Handling:** Handle cards by their edges to prevent bending, creasing, or smudging.
- **Cleaning:** Gently wipe down accessories like dice and condition markers with a soft, dry cloth if they become dirty.
