Cradlepoint E3000

Cradlepoint E3000 Router User Manual

Model: E3000 | Brand: Cradlepoint

1. Introduction

The Cradlepoint E3000 Router is a high-performance 5G and Cat20 LTE modem designed for enterprise branch connectivity. This robust router provides reliable and secure network access, leveraging both 5G and LTE technologies to ensure continuous operation. It comes bundled with a 1-year NetCloud Enterprise Branch Essentials Plan, offering comprehensive cloud management and support for advanced networking features.

2. Product Overview

The E3000 router is engineered for demanding enterprise environments, offering a range of ports and indicators for easy deployment and monitoring.

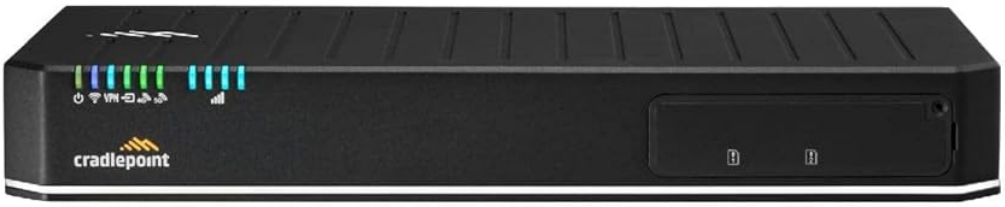
Figure 2.1: Front View of the Cradlepoint E3000 Router. This image displays the front panel of the E3000 router, featuring status indicator lights on the left and two SIM card slots on the right, protected by a cover. The Cradlepoint logo is visible below the indicators.

cradlepoint

PRODUCT BRIEF ▪ E3000 SERIES

E3000 Series Enterprise Router

5G embedded or optimized routers deliver scalable performance and services for all-wireless and hybrid-wired WAN networks



Firewall Throughput: 2 Gbps

WAN Connectivity: 5G Low/Mid- Band, Cat 18 LTE, 2.5 GbE

LAN Connectivity: Wi-Fi 6, GbE, SFP+

Management: NetCloud

Cradlepoint NetCloud for Branch with E3000 Series Enterprise Router makes it easy to accelerate connecting to the Internet and critical applications from anywhere. Designed for traditional medium branches or locations requiring flexible connectivity, reliable performance, and simplified management, this all-in-one, compact endpoint includes full-featured routing, security, and Wi-Fi without needing extra hardware or complicated configurations.

Rapidly deploy and dynamically manage Wireless WAN networks at geographically distributed locations with NetCloud. Use NetCloud's visibility and control capabilities to define and distribute global policies for advanced routing, traffic control, and security. Benefit from intuitive insights by leveraging business intelligence as well as health and status alerts on security posture, network conditions and carrier usage.

The E3000 Series Router provides industry-leading 5G and Gigabit-Class LTE connectivity as a primary or failover connection combined with a wired link. With VPN support, Wi-Fi 6, optional Bluetooth, and integrated PoE-enabled switching, the 5G optimized E3000 combines services, performance and advanced features for enterprise-class branches, high availability WANs, Private LTE (CBRS), and higher performance portable command center scenarios.

Key Benefits:

- Power medium branches where security and analytics performance are needed.
- Gain fast day-1 connectivity with embedded 5G and Cat 20 or Cat 18 LTE modem.
- Add 5G combined with Cradlepoint 5G Wideband Adapters as Captive Modem.
- Add a second cellular modem for dual 5G or LTE connectivity to failsafe all wireless connectivity.
- Integrate into your existing network with standards-based dynamic routing and VPN tunnel support.

Figure 2.2: Rear View of the Cradlepoint E3000 Router. This image shows the rear panel of the E3000 router, highlighting various ports and connectors. From left to right, it includes a reset button, expansion port, USB ports, multiple Ethernet ports (some with PoE capability), a 2.5G WAN port, a console port, and power input. Several antenna connectors are also visible across the top edge.

Key Features:

- **5G Branch Router:** Designed for high-speed 5G connectivity in branch offices.

- **5G Modem:** Integrated 5G modem for primary or failover connectivity.
- **LTE Fallback:** Automatically utilizes LTE (Cat20) when 5G is not available, ensuring continuous network access.
- **NetCloud Enterprise Branch Essentials Plan:** Includes a 1-year subscription for cloud management, security, and support.
- **Dual-Band Wi-Fi:** Supports 5 GHz Radio Frequency for wireless communication.
- **Multiple Ethernet Ports:** Equipped with various LAN/WAN switchable ports, including PoE.

3. Setup Guide

Follow these steps to set up your Cradlepoint E3000 Router:

1. **Unpack the Router:** Carefully remove the E3000 router and all accessories from its packaging. Verify that all components listed in the packing list are present.
2. **Insert SIM Cards (Optional):** If using cellular connectivity, open the SIM card slot cover on the front of the router. Insert your activated 5G/LTE SIM cards into the designated slots until they click into place. Ensure correct orientation.
3. **Connect Antennas:** Attach the provided cellular and Wi-Fi antennas to their respective connectors on the rear of the router. Ensure they are securely tightened.
4. **Connect Power:** Connect the power adapter to the router's power input port on the rear panel, then plug the adapter into a power outlet. The router will begin to power on.
5. **Connect to Network (Optional):**
    - **Wired Connection:** Connect an Ethernet cable from your computer to any of the LAN ports (e.g., ports 1-6) on the router.
    - **Wireless Connection:** Locate the default Wi-Fi SSID and password on the router's label and connect your device to it.
6. **Connect to WAN (Internet):**
    - **Ethernet WAN:** If using a wired internet connection, connect an Ethernet cable from your modem or existing network to the 2.5G WAN port (port 9) on the router.
    - **Cellular WAN:** If relying solely on cellular, ensure SIM cards are inserted and activated.
7. **Initial Configuration:** Access the router's web administration interface by opening a web browser and navigating to the default IP address (usually 192.168.0.1 or 192.168.1.1). Follow the on-screen prompts to complete the initial setup, including setting up your NetCloud account.

4. Operating the Router

Once set up, the E3000 router operates largely autonomously, providing continuous network connectivity. Monitoring its status is crucial for optimal performance.

Indicator Lights:

The front panel features several LED indicators that provide real-time status information:

- **Power LED:** Indicates power status.
- **WAN/Internet LED:** Shows the status of the internet connection (wired or cellular).
- **LAN/Ethernet LEDs:** Indicate activity on the wired LAN ports.

- **Wi-Fi LED:** Shows Wi-Fi network status.
- **Cellular Signal Strength LEDs:** Multiple LEDs indicate the strength of the cellular signal (e.g., 5G or LTE). More lit LEDs mean stronger signal.

Refer to the router's detailed LED guide in the NetCloud documentation for specific light patterns and their meanings.

NetCloud Management:

The E3000 router is managed through the Cradlepoint NetCloud platform. This cloud-based service allows for remote configuration, monitoring, and troubleshooting of your device and network. Log in to your NetCloud account to access features such as:

- Device status and health monitoring.
- Configuration updates and firmware management.
- Network analytics and reporting.
- Security policy management.
- VPN and routing configurations.

5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your E3000 router.

- **Cleaning:** Regularly clean the exterior of the router with a soft, dry cloth. Avoid using liquid cleaners or aerosols. Ensure ventilation openings are free from dust and obstructions.
- **Firmware Updates:** Keep the router's firmware updated through the NetCloud platform. Firmware updates often include performance improvements, security patches, and new features.
- **Placement:** Place the router in a well-ventilated area, away from direct sunlight, heat sources, and excessive moisture. Avoid placing it in enclosed spaces that can restrict airflow. For optimal Wi-Fi and cellular signal, position it centrally and away from large metal objects.
- **Cable Management:** Ensure all cables are neatly organized and not kinked or strained. This prevents accidental disconnections and potential damage.

6. Troubleshooting

This section provides solutions to common issues you might encounter with your E3000 router.

- **No Internet Connection:**
  - Check all cable connections (power, WAN, LAN).
  - Verify that the WAN/Internet LED is active.
  - If using cellular, ensure SIM cards are properly inserted and activated, and check cellular signal strength LEDs.
  - Restart the router by unplugging the power adapter for 10 seconds and plugging it back in.
  - Log into NetCloud to check device status and connectivity logs.
- **Slow Network Speeds:**
  - Check cellular signal strength if using cellular WAN.
  - Ensure the router is placed optimally for Wi-Fi coverage.

- Check for excessive network traffic or connected devices.
- Perform a speed test and compare with your internet plan.
- Update router firmware via NetCloud.

- **Wi-Fi Connectivity Issues:**
  - Ensure the Wi-Fi LED is on.
  - Verify Wi-Fi settings (SSID, password) on your devices.
  - Try restarting the router.
  - Check for Wi-Fi interference from other devices.
- **Router Unresponsive / Cannot Access Web Interface:**
  - Ensure your device is connected to the router (wired or wireless).
  - Verify your computer's IP settings (should be set to obtain IP automatically).
  - Try a different web browser.
  - Perform a factory reset (**Warning:** This will erase all configurations. Only do this as a last resort and after backing up settings if possible. Use a paperclip to press and hold the reset button on the rear panel for 10-15 seconds while the router is powered on).

7. Specifications

Detailed technical specifications for the Cradlepoint E3000 Router:

Feature	Description
Model Name	E3000
Brand	Cradlepoint
Connectivity Technology	Wi-Fi, 5G, LTE
Wireless Communication Standard	5 GHz Radio Frequency
Frequency Band Class	Dual-Band
Frequency	5 GHz
Compatible Devices	Personal Computer
Recommended Uses For Product	Security
Included Components	1-yr NetCloud Enterprise Branch Essentials Plan
Package Dimensions	16.26 x 12.64 x 3.86 inches
Item Weight	8.14 pounds
Manufacturer	Cradlepoint
Country of Origin	Taiwan
Special Feature	WPS
Firewall Throughput	2 Gbps

VPN Tunnel Count	20
Operating Temperature	0 °C to 45 °C (32 °F to 113 °F)
Rack Mountable	Yes

8. Warranty and Support

Your Cradlepoint E3000 Router includes a 1-year NetCloud Enterprise Branch Essentials Plan, which provides comprehensive support and services.

- **NetCloud Enterprise Branch Essentials Plan:** This plan includes 24x7 enterprise support and a limited lifetime warranty for the hardware, ensuring peace of mind and continuous operational efficiency.
- **Technical Support:** For technical assistance, troubleshooting, or warranty claims, please refer to the support resources available through your NetCloud account or visit the official Cradlepoint support website.
- **Online Resources:** Additional documentation, FAQs, and community forums can be found on the Cradlepoint website: cradlepoint.com/support.

Declaration of Conformity

Cradlepoint, Inc.
1111 W. Jefferson St, Suite 400
Boise , ID 83702

EU Authorized Representative:
Jason Wells, Vice President of Global Channels and EMEA, Cradlepoint UK Ltd.
Cedar House, Apex Court, Camphill Road, West Byfleet, Surrey, KT14 6SQ United Kingdom

Declare that this DoC is issued under our own responsibility and that the following product:

Model: S5A950A
Description: E3000-1200M-B Enterprise LTE Router with 4x4 Dual-band Concurrent AP
Trademark: Cradlepoint

The object of the declaration described above is in conformity with the with the relevant Union harmonization legislation: Radio Equipment Directive 2014/53/EU, Eco-Design Directive 2009/125/EC, and RoHS2 Directive 2011/65/EU.

Relevant Harmonized Standards:
EN 300 328 V2.1.1
EN 301 908-1 V11.1.1
EN 301 908-13 V11.1.1
EN 62368-1:2014
EN 301 893 V2.1.1
EN 301 908-2 V11.1.1
EN 303 413 V 1.1.1

Other Standards Used:
EN 55032:2015 + AC:2016
EN 301 489-1 V2.2.0 (2017-03)
EN 301 489-19 V2.1.1 (2017-04)
EN 62311:2008
EN 62368-1:2014/A11: 2017
EN 55024: 2010 + A1:2015
EN 301 489-17 V3.2.0 (2017-03)
EN 301 489-52 V 1.1.0 (2016-11)
EN 50385:2017

The equipment was tested with UMEC directly attached Cradlepoint Universal 3G/4G/LTE Modem Antennas (part# 170780-000) with peak gain of 1.42dBi in 698-960MHz, 0.86dBi in 1445-1518MHz, 2.69dBi in 1710-2700MHz, 4.13dBi in 3400-3700MHz, and 4.29dBi in 5150-5925MHz.

Signed for, and on behalf of Cradlepoint, Inc.
