DCT CG6

DCT CG6 Wireless Outdoor Security Camera User Manual

1. Product Overview

1.1. Welcome

Thank you for choosing the DCT CG6 Wireless Outdoor Security Camera. This manual provides detailed instructions for setting up, operating, and maintaining your security camera to ensure optimal performance and reliable surveillance.

1.2. Key Features

- **100% Wire-Free Design:** Battery-powered for flexible placement.
- **2K HD Video:** Clear resolution for day and night monitoring.
- **Full Color Night Vision:** Enhanced visibility in low-light conditions.
- **PIR Motion Detection:** Advanced sensor for accurate human, pet, vehicle, and package detection.
- **Two-Way Audio:** Communicate with visitors or deter intruders.
- **Siren and Spotlight Alarm:** Automated or manual deterrence.
- **IP65 Weatherproof:** Designed for outdoor use in various weather conditions.
- **Local & Cloud Storage:** Flexible options for video recording.
- **Multi-User Sharing:** Share access with family members.

1.3. What's in the Box

- Security Camera (CG6)
- Bracket
- Screws Set
- Type-C Cable
- Quick User Guide

2. Setup Guide

2.1. Charging the Camera

Before initial use, fully charge the camera using the provided Type-C cable. A full charge typically takes approximately 8 hours and can last 1-3 months depending on usage.

Image: Exploded view of the DCT CG6 camera, illustrating the internal rechargeable battery and circuit board components.

2.2. App Installation and Account Registration

Download the "Vicohome" app from your smartphone's app store (Google Play Store for Android or Apple App Store for iOS). Follow the on-screen instructions to register a new account.

Image: Visual guide for setting up the camera, including scanning a QR code to download the Vicohome app and connecting to a 2.4GHz WiFi network.

2.3. Network Configuration

Ensure your camera is within range of a 2.4GHz WiFi network. The camera is only compatible with 2.4GHz WiFi. Open the Vicohome app and follow the prompts to add your camera and connect it to your home network.

2.4. Camera Installation

Select a suitable location for your camera, considering the desired viewing angle and WiFi signal strength. The camera can be mounted on a wall or ceiling using the provided bracket and screws. Adjust the angle for optimal coverage.

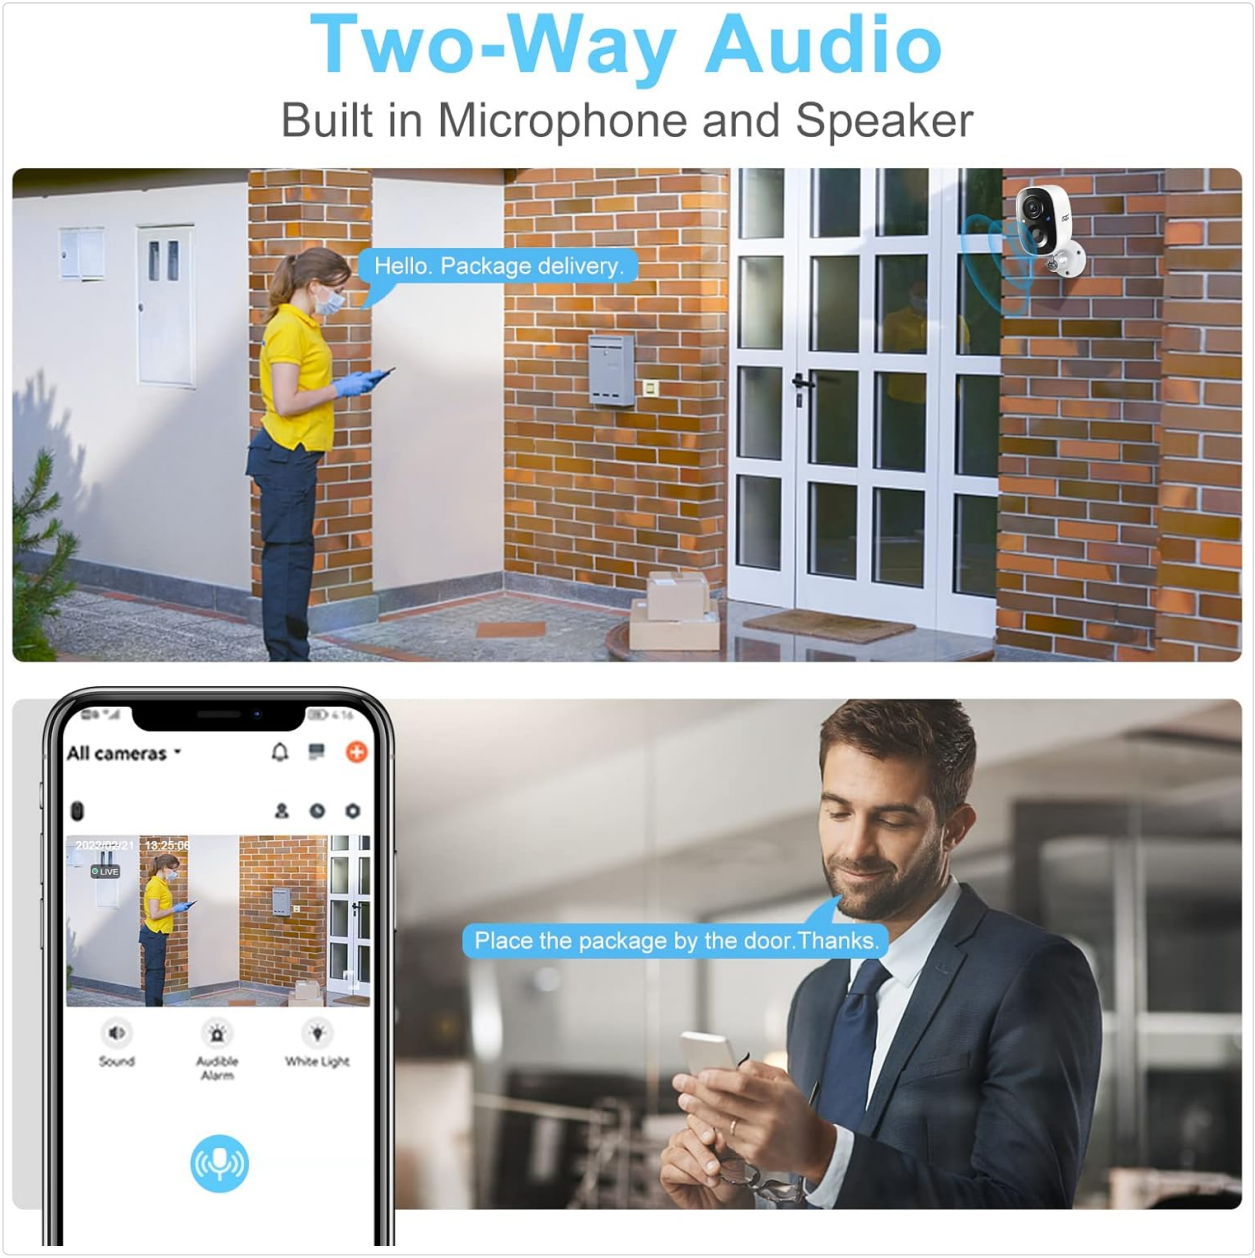

Image: A DCT CG6 security camera securely mounted on an exterior brick wall, demonstrating a typical outdoor installation.

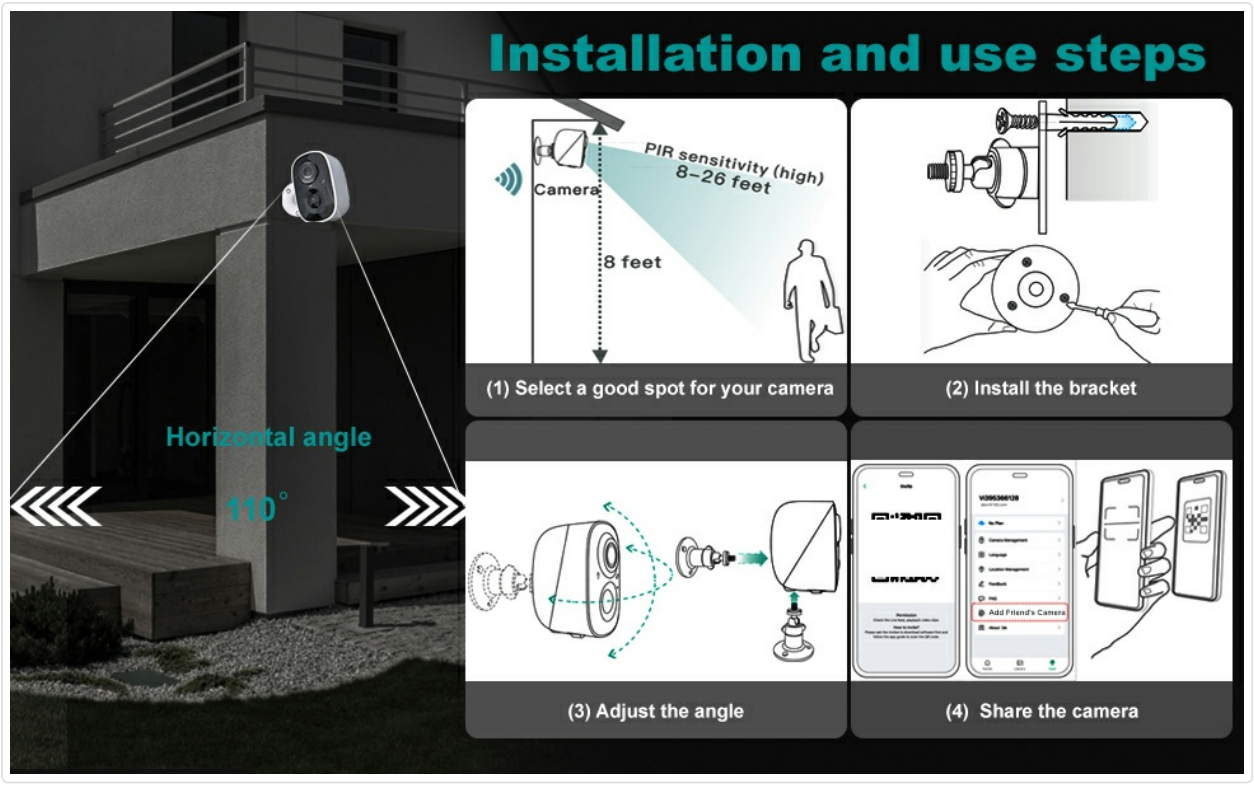

Image: Step-by-step diagram illustrating the installation process, from selecting a mounting spot and installing the bracket to adjusting the camera angle and sharing access via the app.

3. Operating Instructions

3.1. Live View and Recording

Access the Vicohome app to view live 2K HD video from your camera anytime, anywhere. The app also allows for recording and playback of events.

Image: A smartphone screen displaying a live video feed from the DCT CG6 camera, showcasing remote monitoring capabilities of a home exterior.

3.2. Night Vision Modes

The camera offers two night vision modes:

- **Full-Color Night Vision:** Utilizes a spotlight to capture color images and videos in low light.
- **Infrared Night Vision:** Provides clear black and white video up to 33 feet in complete darkness.

You can switch between these modes within the Vicohome app settings.

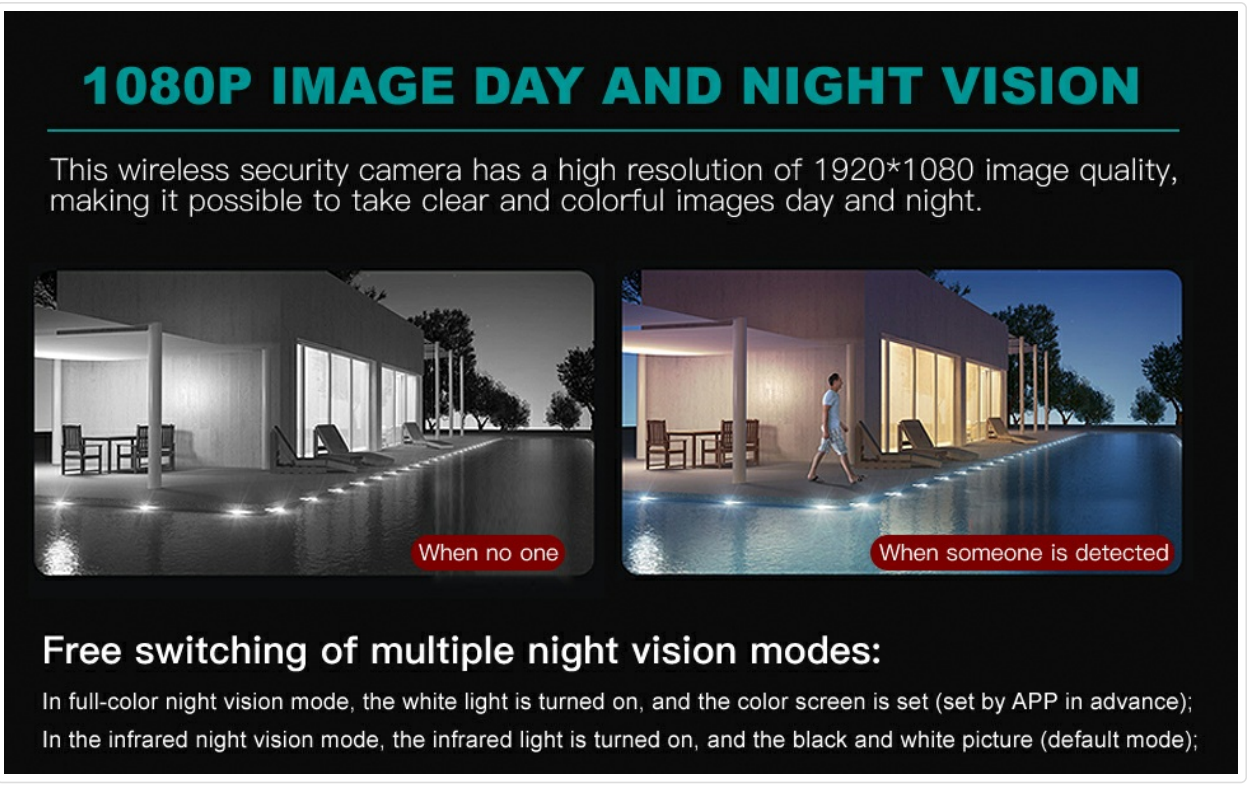

Image: A split image demonstrating the camera's ability to capture clear visuals during the day and in low-light conditions at night.

3.3. Motion Detection and Alerts

The advanced PIR sensor detects motion and can differentiate between people, pets, vehicles, and packages using smart AI technology. When motion is detected, the camera sends instant alarm notifications to your phone.

You can customize activity zones within the app to focus on specific areas and reduce unnecessary alerts.

Image: Illustration of the camera's PIR motion detection feature, showing an intruder being deterred by a siren and spotlight, with an alert on a smartphone.

Image: A diagram illustrating how to set up custom activity zones for motion detection, allowing users to define specific areas for alerts.

3.4. Two-Way Audio and Siren/Spotlight

The built-in microphone and speaker enable two-way communication through the app. You can speak to visitors or activate the siren and spotlight manually or automatically to deter unwanted guests.

Image: A scene depicting the two-way audio functionality of the DCT CG6 camera, where a user communicates with a delivery person via their smartphone.

3.5. Storage Options

Recorded videos can be stored in two ways:

- **Local Storage:** Supports a Micro SD card up to 128GB (not included).
- **Cloud Storage:** Offers military-grade encrypted cloud service with a 3-day free trial. Subscription options are available for extended storage.

Image: An illustration detailing the secure storage options for the DCT CG6 camera, including cloud storage and local SD card support, alongside the app's playback interface.

3.6. Device Sharing

You can share access to your camera with up to 8 other users through the Vicohome app, allowing family and friends to view the live feed and receive alerts simultaneously.

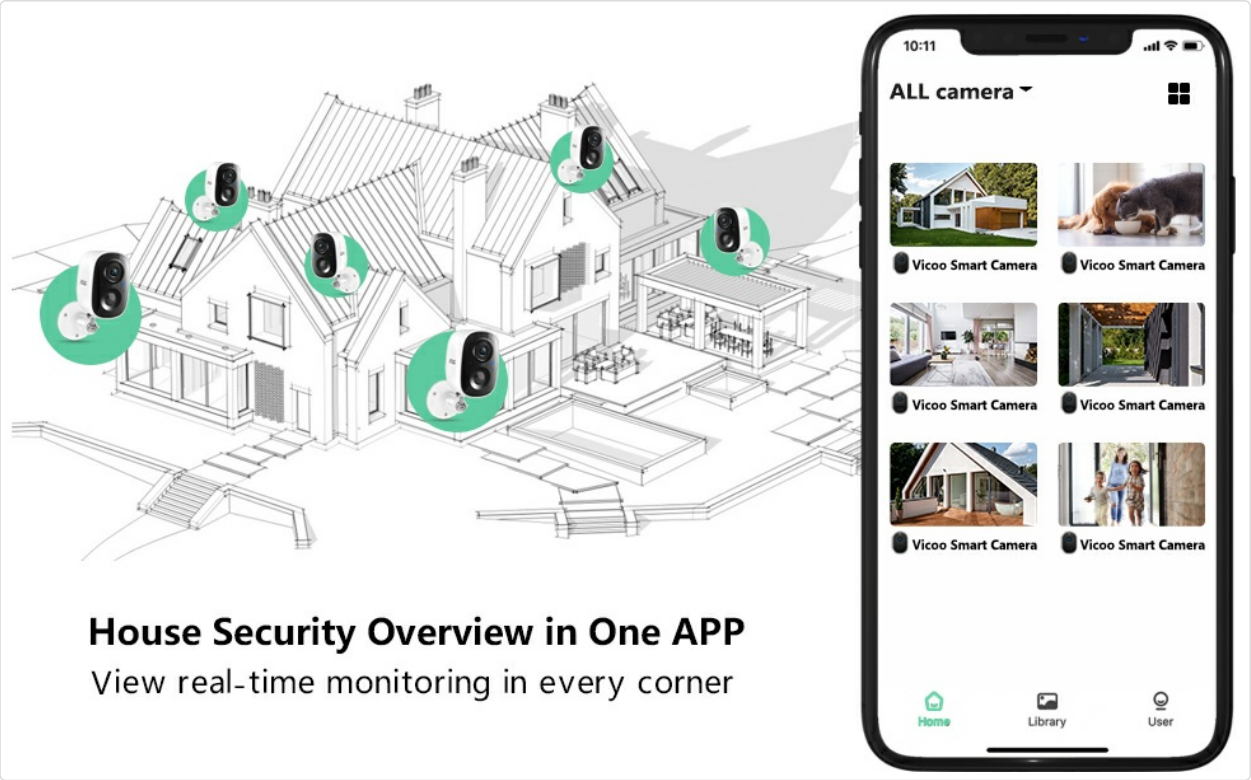

Image: A visual representation of the device sharing feature, showing how multiple users can access the camera's feed from different devices.

4. Maintenance

4.1. Battery Charging

The camera is powered by a built-in 5200 mAh rechargeable battery. When the battery level is low, remove the camera from its mount and charge it using the provided Type-C cable. A full charge can last 1-3 months depending on motion detection frequency and live view usage.

4.2. Weather Resistance

The DCT CG6 camera is IP65 weatherproof, designed to withstand various outdoor conditions, including rain and dust. Ensure the Type-C charging port cover is securely closed when not charging to maintain its weather resistance.

Image: The DCT CG6 camera with water droplets on its surface, highlighting its IP65 waterproof rating and suitability for outdoor environments.

5. Troubleshooting

5.1. Camera Not Connecting to WiFi

- Ensure your WiFi network is 2.4GHz. The camera does not support 5GHz WiFi.
- Check the WiFi signal strength at the camera's location. Move the camera closer to the router if necessary.
- Verify that the WiFi password entered in the Vicohome app is correct.
- Restart your router and the camera, then attempt to reconnect.

5.2. Frequent Offline Status

- This can indicate a weak WiFi signal. Try repositioning the camera or installing a WiFi extender.
- Ensure there are no physical obstructions (thick walls, metal objects) between the camera and the router.
- Check for firmware updates in the Vicohome app, as updates can improve connectivity stability.

5.3. Motion Detection Not Working or Too Sensitive

- Verify that motion detection is enabled in the Vicohome app settings.
- Adjust the PIR sensitivity level in the app. High sensitivity may trigger alerts from minor movements like leaves or small animals.
- Define or refine custom activity zones to focus detection on critical areas.
- Ensure the camera lens is clean and free from obstructions.

5.4. Short Battery Life

- Frequent motion detection events, live view access, and siren/spotlight activation consume more battery power.
- Reduce PIR sensitivity or frequency of alerts if possible.
- Consider purchasing a compatible solar panel charger for continuous power, especially for high-traffic areas.

5.5. Unable to View Recorded Videos

- If using an SD card, ensure it is properly inserted, formatted, and not full.
- If using cloud storage, verify your subscription status and internet connection.
- Check the app's playback section for recorded events.

6. Specifications

Feature	Detail
Model Name	CG6
Brand	DCT
Indoor/Outdoor Usage	Indoor, Outdoor
Connectivity Protocol	Wi-Fi (2.4GHz only)
Power Source	Battery Powered (5200 mAh)
Video Capture Resolution	1080p (Effective 2K HD)
Night Vision Range	33 Feet
Viewing Angle	130 Degrees
International Protection Rating	IP65 (Waterproof)
Storage	Micro SD (up to 128GB), Cloud Storage
Control Method	App (Vicohome)
Item Dimensions (L x W x H)	3 x 2 x 2 inches

Item Weight	1.01 pounds

7. Warranty and Support

DCT provides lifelong technical support for the CG6 outdoor security camera. If you have any questions or require assistance, please contact DCT's 24-hour customer service team.

For further information, please refer to the official DCT website or the Vicohome app's support section.
