

LORDEM HL-0006

LORDEM Grow Light User Manual

Model: HL-0006

Brand: LORDEM

INTRODUCTION

The LORDEM Grow Light is designed to provide optimal lighting conditions for your indoor plants, promoting healthy growth and vibrant foliage. Featuring a full spectrum LED, adjustable height, and intelligent timer functions, this lamp is an ideal solution for various plant types and growth stages. Its unique halo design also serves as a stylish addition to your home decor.

PRODUCT FEATURES

- **Unique Artistic Design:** Designed like a halo, this grow light is both functional for plant growth and a stylish decoration for any home space. The warm natural light is comfortable and blends with decor.
- **Full Spectrum Grow Light:** Emits wavelengths from 380nm to 800nm, mimicking natural sunlight. High-efficiency LED diodes and PAR output accelerate photosynthesis, suitable for all growth stages and various plants like herbs, succulents, orchids, and tomatoes. Expected lifetime of 50,000 hours.
- **Auto On/Off Timer:** Features 3 cycle timing settings (4/8/12 hours). The light will stay on for the set duration, then turn off for the remainder of a 24-hour cycle, automatically repeating daily. No manual unplugging/re-plugging required.
- **4 Dimmable Brightness Levels:** Equipped with advanced LED diodes for brighter and more efficient lighting. Adjust brightness to 25%, 50%, 75%, or 100% to meet specific lighting requirements for different plant stages without causing damage.
- **Easy to Use & Height Adjustable:** Simple installation by inserting into potted plants. The lighting part's height can be adjusted from 7.8 inches to 26 inches (20cm-66cm) to accommodate various plant sizes and provide optimal light intensity. A larger area or more plants can be covered when the telescope is extended.

Height Adjustable

Adjust the height according to the plant's growth need

Image: The height-adjustable feature allows the light to be positioned optimally for plants of varying sizes.

LORDEM halo plant light is full spectrum, suitable for various kinds of indoor plants, the simple and artistic design also makes it a beautiful home decor.

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Assemble Grow Light:** If the light panel is separate from the pole, gently screw it onto the top of the adjustable pole. Ensure it is secure.
3. **Insert into Pot:** Gently insert the pointed end of the grow light pole into the soil of your potted plant. Ensure the pot has a stable base to prevent tipping.
4. **Adjust Height:** Extend the telescopic pole to adjust the height of the light panel above your plant. The ideal distance varies

by plant type and growth stage, but generally, position it a few inches above the plant canopy. The height is adjustable from 7.8 inches to 26 inches (20cm-66cm).

5. **Connect Power:** Plug the USB cable from the grow light into the provided USB power adapter, then plug the adapter into a standard electrical outlet.

OPERATING INSTRUCTIONS

The LORDEM Grow Light features an inline controller for easy operation.

TIMER INDICATOR

Green: 4 hours
Blue: 8 hours
Red: 12 hours

TIMER SETTING

• After setting the timer, the light will automatically turn on and off at the same time the next day.

• BRIGHTNESS ADJUSTABLE

• SWITCH ON/OFF

4 Dimming Levels

Image: The inline controller with its various functions.

Power On/Off:

Press the **Power Button** (🔌) to turn the light on or off.

Adjust Brightness:

Press the **Brightness Adjustment Button** (💡) to cycle through 4 dimmable levels: 25%, 50%, 75%, and 100%. Select the intensity suitable for your plant's current needs.

Set Timer:

Press the **Timer Button** (🕒) to activate the automatic on/off cycle. Each press cycles through the available timer settings:

- **4H:** Light stays on for 4 hours, then off for 20 hours.
- **8H:** Light stays on for 8 hours, then off for 16 hours.
- **12H:** Light stays on for 12 hours, then off for 12 hours.

The timer will automatically repeat the cycle every 24 hours from the time it was set. The indicator light on the controller will

change color to show the active timer setting (Green for 4H, Blue for 8H, Red for 12H).

MAINTENANCE

- **Cleaning:** Ensure the light is unplugged before cleaning. Gently wipe the LED panel and pole with a soft, dry cloth to remove dust and debris. Do not use abrasive cleaners or immerse any part of the light in water.
- **Placement:** Periodically check the stability of the grow light in the pot. Ensure it is not leaning or at risk of falling, especially as plants grow larger.
- **Cable Management:** Keep the power cable tidy and away from water or heat sources to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Not plugged in correctly; Power outlet issue; Damaged cable/adaptor.	Ensure the USB cable is fully inserted into the adapter and the adapter is securely plugged into a working outlet. Try a different outlet. Inspect the cable for visible damage.
Timer function not working as expected.	Timer not set correctly; Power interruption.	Re-set the timer by pressing the timer button until the desired cycle is indicated. Ensure continuous power supply; power interruptions will reset the timer.
Light is too dim or too bright.	Brightness level not adjusted.	Press the brightness adjustment button to cycle through the 4 dimmable levels until the desired brightness is achieved.
Light flickers.	Unstable power supply; Loose connection.	Ensure the power connection is stable. Try plugging into a different outlet or power strip. If flickering persists, contact customer support.
