

## HUBBLE CONNECTED NURSERYPAL

# Hubble Connected 5-inch Video Baby Monitor (Nursery Pal Connect) Instruction Manual

## INTRODUCTION

---

This manual provides essential information for the safe and effective use of your Hubble Connected 5-inch Video Baby Monitor, model Nursery Pal Connect. Please read these instructions thoroughly before operating the device and retain them for future reference. This monitor is designed to provide visual and auditory monitoring of your baby, offering peace of mind through advanced features and connectivity options.

## WHAT'S IN THE BOX

---

Verify that all components are present upon unboxing:

- 5-inch Parent Unit (Monitor)
- Remote Pan, Tilt, and Zoom Camera (Baby Unit)
- Power Adapters (x2)
- Quick Start Guide

# What's in the box?

5" Parent Unit

Remote Pan, Tilt and Zoom Camera

HubbleClub App

## SETUP

- 1. Powering On:** Connect the power adapters to the Parent Unit and the Baby Unit camera, then plug them into a power outlet. The units will automatically power on.
- 2. Camera Placement:** Position the Baby Unit camera in a location that provides a clear view of your baby. Ensure it is out of reach of children and away from cords. The camera is compatible with the Hubble Grip (sold separately) for versatile mounting options.
- 3. Parent Unit Pairing:** The Parent Unit and Baby Unit are pre-paired at the factory. If they do not connect automatically, refer to the troubleshooting section.
- 4. Wi-Fi Connection (Optional):** For smartphone access and additional features, download the HubbleClub app from your device's app store. Follow the in-app instructions to connect your Baby Unit to your home Wi-Fi network.

## OPERATING INSTRUCTIONS

### Parent Unit Controls

The 5-inch diagonal color screen on the Parent Unit provides a clear view of your baby. It features touch screen controls for easy navigation and adjustments.

## Multiple Ways to View

**5" Diagonal  
Color Screen**

**Wi-Fi Viewing  
with your  
Smart Device**

**Secure and Simple  
Local Connection  
to Camera**

Image: The parent unit in use, demonstrating multiple viewing options.

### **Camera Control (Pan, Tilt, Zoom)**

Use the navigation buttons on the Parent Unit or the HubbleClub app to remotely pan, tilt, and zoom the Baby Unit camera, allowing you to adjust the viewing angle without disturbing your baby.

### **Two-Way Talk**

Press and hold the microphone button on the Parent Unit to speak to your baby through the camera. Release the button to hear your baby's response.

### **Night Vision**

The camera automatically activates infrared night vision in low-light conditions, providing a clear black-and-white image of your baby.

### **Room Temperature Display**

The Parent Unit displays the room temperature detected by the Baby Unit camera, helping you ensure a comfortable environment for your baby.

### **Lullabies and Soothing Sounds**

Access preloaded lullabies, audiobooks, and soothing sounds through the Parent Unit's menu or the HubbleClub app to help calm your baby.

## Privacy Mode

The Baby Unit camera features a manual privacy shield that can be pulled down to physically cover the camera lens when monitoring is not desired.

## HubbleClub App Features

The HubbleClub app extends the monitor's functionality, allowing you to:

- View live streaming from anywhere via Wi-Fi.
- Receive activity alerts (motion and sound detection).
- Track baby's growth and development.
- Log feeding, pumping, and diaper changes.
- Customize waking and resting patterns.
- Access nursery rhymes and bedtime stories.

## MAINTENANCE

To ensure optimal performance and longevity of your baby monitor:

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and monitor screen. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the units in a cool, dry place.
- **Battery Care:** For the Parent Unit, avoid fully discharging the battery frequently to prolong its lifespan. Charge regularly.

## TROUBLESHOOTING

Problem	Possible Solution
No image/sound on Parent Unit	Ensure both units are powered on and within range. Re-pair the units if necessary (refer to the Quick Start Guide for pairing instructions). Check power connections.

Problem	Possible Solution
Poor video quality	Check for obstructions between the camera and Parent Unit. Ensure adequate lighting for non-night vision mode. Verify Wi-Fi signal strength if using the app.
App connectivity issues	Ensure your Baby Unit is connected to a stable 2.4GHz Wi-Fi network. Restart the app and your smartphone. Check for app updates.
Parent Unit battery drains quickly	Reduce screen brightness. Enable power-saving modes if available. Keep the Parent Unit plugged in when possible.
Camera not responding to pan/tilt/zoom	Ensure the camera is powered on and connected. Restart both the Parent Unit and the Baby Unit.
