## HBTower step ladder

# HBTower 3 Step Ladder with Handrails Instruction Manual

## 1. PRODUCT OVERVIEW

---

The HBTower 3 Step Ladder with Handrails is designed for stability and safety, offering a reliable solution for reaching elevated areas in your home or office. Constructed from high-grade steel, it features anti-slip wide pedals and comfortable handrails for a secure climbing experience. This folding step stool is portable and has a robust 500 lbs capacity.

## 2. SAFETY INFORMATION

---

Your safety is paramount. Please read and understand all safety instructions before using the HBTower 3 Step Ladder.

- **Placement:** Always ensure the ladder is placed on a flat, stable, and non-slippery surface. Uneven surfaces can cause instability.
- **Weight Capacity:** Do not exceed the maximum load capacity of 500 pounds.
- **Handrails:** Always use the handrails for support when climbing up or down, and while standing on the steps.
- **Locking Mechanism:** Verify that the metal safe buckle automatically locks in place before use. This ensures the ladder is fully open and stable.
- **Anti-Slip Pedals:** The pedals are designed with an anti-slip texture. Ensure your footwear is clean and dry to maximize grip.
- **Children:** Keep children away from the ladder, especially when it is in use or unattended.
- **Reach:** Do not overreach. Maintain your center of gravity between the side rails.

## Large Rubber Padded Feet

Rubber feet fully touch the ground to stay firmly and prevent floors from scratches.

Improper use of rubber feet will cause the step ladder to shake left and right.

**NOTE:** Please make sure that the rubber feet are in full contact with the ground.

### 3. SETUP AND ASSEMBLY

The HBTower 3 Step Ladder is designed for quick and easy assembly, typically within 15 minutes, with no extra tools required beyond what is provided.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Unfold:** Gently pull the front and back sections of the ladder apart until it is fully extended.
3. **Secure:** Ensure the metal safe buckle engages and locks the ladder into its open position. You should hear a click or feel it firmly secure.
4. **Handrail Attachment:** Attach the handrails to the designated slots on the ladder frame, securing them with the provided hardware.
5. **Tool Bag:** If desired, attach the multi-pocket tool bag to the top handrail for convenient access to tools.

## ATTACHABLE TOOL BAG

Comes with a multi-pocket attachable bag to keep your tools at hand.

## 4. OPERATING INSTRUCTIONS

Follow these steps for safe and effective use of your HBTower 3 Step Ladder.

1. **Opening the Ladder:** Place the ladder on a firm, level surface. Hold the top handrail and pull the front and back legs apart until the ladder is fully extended and the safety buckle locks into place.
2. **Climbing:** Face the ladder and use the handrails for support. Climb one step at a time, ensuring your feet are centered on the anti-slip pedals. Maintain three points of contact (two hands and one foot, or two feet and one hand) at all times.
3. **Working from the Ladder:** Keep your body centered between the side rails. Avoid leaning too far to either side. For tasks requiring reaching, it is safer to descend and reposition the ladder.
4. **Descending:** Face the ladder and use the handrails for support. Descend one step at a time, maintaining three points of contact.
5. **Folding the Ladder:** To fold, disengage the safety buckle (if applicable, some models automatically release when lifted). Bring the front and back legs together until the ladder is flat.

## 5. MAINTENANCE

---

Regular maintenance ensures the longevity and safe operation of your HBTower 3 Step Ladder.

- **Cleaning:** Wipe down the ladder with a damp cloth and mild detergent. Avoid abrasive cleaners that could damage the finish or anti-slip surfaces. Dry thoroughly before storage.
- **Inspection:** Before each use, inspect the ladder for any signs of damage, loose fasteners, or wear on the anti-slip pedals and rubber feet. Ensure the safety buckle operates correctly.
- **Storage:** Store the folded ladder in a dry place, away from extreme temperatures and direct sunlight, to prevent material degradation.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your HBTower 3 Step Ladder, consider the following common solutions:

- **Ladder feels unstable:** Ensure all four rubber feet are in full contact with a flat, level surface. Check that the safety buckle is fully engaged.

- **Difficulty folding/unfolding:** Verify that no obstructions are preventing the mechanism from moving freely. Ensure the safety buckle is disengaged before folding.
- **Loose components:** Periodically check all screws and bolts. Tighten any that appear loose, but do not overtighten.

If problems persist, please contact customer service for assistance.

## 7. SPECIFICATIONS

Feature	Detail
Model	3 Step Ladder
Material	Alloy Steel, Metal, Rubber
Open Dimensions (L x W x H)	21" x 26.4" x 55.1"
Folded Dimensions (L x W x H)	58.7" x 21" x 9.4"
