4. SETUP AND ASSEMBLY

The Allewie Platform Bed Frame is designed for straightforward assembly. All parts and tools are typically included in one package. It is recommended to assemble the bed with two people for ease and safety.

Assembly Steps:

- 1. Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the included instruction manual for a complete list of parts and hardware. Ensure all screws are labeled and packaged separately for easy identification.
- 2. Assemble the Headboard:** Attach the side wings to the main headboard section using the provided hardware.
- 3. Construct the Side Rails:** Connect the side rails to the assembled headboard and footboard. Ensure all connections are secure.
- 4. Install Center Support:** Attach the center support beam(s) to the frame for added stability.

- 5. Place Wooden Slats:** Lay the wooden slats across the frame. The slats are designed for quick installation, often featuring a Velcro design to keep them in place and EVA foam to reduce noise.
- 6. Tighten All Connections:** Once all parts are in place, go back and ensure all screws and bolts are securely tightened. Do not overtighten.

Assembly is typically completed within 1 hour. An extra hand may be needed when piecing the headboard to the body of the frame.

5. OPERATING INSTRUCTIONS

The Allewie Platform Bed Frame is designed to support your mattress directly, eliminating the need for a box spring. Simply place your mattress (recommended thickness 8-12 inches) directly onto the wooden slats. The sturdy construction ensures optimal mattress support and comfort.

The 8-inch under-bed clearance allows for convenient storage of items or easy access for cleaning devices like robot vacuums.

6. MAINTENANCE

To maintain the appearance and longevity of your Allewie bed frame, follow these care instructions:

- **Fabric Care:** The upholstered linen fabric should be cleaned by hand wash only. Use a soft, damp cloth with mild soap for spot cleaning. Avoid harsh chemicals or abrasive cleaners.
- **General Cleaning:** Regularly dust the headboard and frame with a soft, dry cloth.
- **Check Connections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent damage to the wood and fabric.

7. TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common solutions:

- **Squeaking Noises:**
 - Ensure all bolts and screws are securely tightened. Loose connections are a common cause of squeaking.
 - Check if the wooden slats are properly seated and not rubbing against the frame. The integrated EVA foam and Velcro design are intended to minimize noise.

- **Instability/Wobbling:**

- Verify that all assembly steps were followed correctly and all hardware is fully tightened.
- Ensure the bed frame is placed on a flat, level surface.

- **Mattress Sliding:**

- The wooden slats are designed to provide adequate grip. If sliding occurs, consider using a non-slip mattress pad between the mattress and the slats.

8. IMPORTANT SAFETY INFORMATION

Please read and adhere to the following safety guidelines:

- Do not exceed the maximum weight limit of 800 lbs.
- Be cautious of sharp edges on the geometric wingback headboard during assembly and use.
- Keep small parts and packaging materials away from children during assembly to prevent choking hazards.
- Ensure the bed frame is fully and correctly assembled before use.

9. WARRANTY AND SUPPORT

Allewie is committed to providing high-quality products. While specific warranty details are not provided in this manual, the product is typically covered by a standard return policy (e.g., 30-day easy returns).
