### Mueller NM-530

# Mueller Countertop Nugget Ice Maker User Manual

Model: NM-530

## INTRODUCTION

Thank you for choosing the Mueller Countertop Nugget Ice Maker. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new ice machine. Please read it thoroughly before first use and retain it for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances.

- Read all instructions before operating the appliance.
- Do not touch cold surfaces or ice directly with hands when the appliance is operating.
- Do not immerse the power cord, plug, or any part of the appliance in water or other liquids.

- Supervise children closely when the appliance is in use.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Use only potable water for ice production.
- Ensure the appliance is placed on a stable, level surface away from direct sunlight or heat sources.
- Unplug the appliance before cleaning or when not in use.

## PRODUCT COMPONENTS AND FEATURES

---

Familiarize yourself with the main parts of your Mueller Nugget Ice Maker:

- **Control Panel:** Features intuitive buttons for On/Off, Clean, and indicator lights for Ice Full and Water Shortage.
- **Ice Basket:** Removable basket with a 4.4 lb capacity for collecting nugget ice.
- **Water Reservoir:** 3-quart capacity for water storage, supporting continuous ice production.
- **Transparent Lid:** Allows monitoring of ice production without opening the unit.
- **Drainage Valve:** Located at the bottom for easy water drainage during cleaning.

Image: An infographic highlighting key features of the ice maker, including its ability to produce hospitality-style nugget ice, a 3-quart water reservoir, a 4.4 lbs ice basket, and a daily production capacity of 30 lbs.

## SETUP GUIDE

---

1. **Unpacking:** Carefully remove the ice maker from its packaging. Remove all packing materials, tapes, and labels.
2. **Placement:** Place the ice maker on a flat, stable, and level surface. Ensure there is adequate ventilation around the unit. The compact design (17.6"D x 9.7"W x 16.9"H) allows it to fit perfectly under most cabinets. Avoid placing near heat sources or in direct sunlight.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker. Refer to the "Maintenance and Cleaning" section for detailed instructions.
4. **Add Water:** Open the lid and fill the water reservoir with potable water up to the MAX fill line. The unit can also accommodate an optional direct water hookup (not included).

Image: A visual guide demonstrating the three simple steps to operate the ice maker: 1. Adding water to the reservoir, 2. Pressing the On/Off button on the control panel, and 3. Scooping fresh ice from the basket.

## OPERATING INSTRUCTIONS

1. **Power On:** After adding water, plug the appliance into a grounded electrical outlet. Press the "On/Off" button on the control panel to start the ice production cycle.
2. **Ice Production:** The ice maker will begin producing nugget ice. The first batch of ice is typically ready within 10 minutes. The unit can produce up to 30 lbs of ice daily.
3. **Smart Operation:**
  - **Ice-Full Indicator:** Infrared sensors detect when the ice basket is full, and the unit will automatically halt production.
  - **Water Shortage Indicator:** If the water level in the reservoir is low, the "Water Shortage" indicator will illuminate, and ice production will pause. Refill the reservoir to resume.
  - **Eco-Friendly Design:** Melted ice from the basket automatically returns to the water reservoir, ensuring no

water is wasted and maintaining a continuous supply.

- **Auto Restart:** The unit will automatically resume ice production once ice is removed from the basket or the water reservoir is refilled.

4. **Accessing Ice:** Open the transparent lid and remove the ice basket to access the fresh nugget ice. Use the provided scoop for hygienic serving.
5. **Power Off:** To turn off the ice maker, press the "On/Off" button again. Unplug the unit if it will not be used for an extended period.

Image: A close-up view of the ice maker's interior, illustrating the "Ice-Full" and "Water Shortage" indicators. It also highlights the eco-friendly feature where melted ice returns to the reservoir and the auto-restart function.

## MAINTENANCE AND CLEANING

---

Regular cleaning ensures optimal performance and hygiene of your ice maker.

### 1. Self-Cleaning Function:

- Ensure the water reservoir is filled.
- Press and hold the "Clean" button on the control panel for a few seconds to activate the self-cleaning cycle.
- The unit will circulate water to clean internal components. This cycle typically takes several minutes.
- Once the cycle is complete, drain the water using the drainage valve.

### 2. Manual Cleaning:

- Unplug the ice maker before cleaning.
- Remove the ice basket and wash it with mild soap and warm water. Rinse thoroughly.
- Clean the interior of the water reservoir and ice-making components with a soft cloth dampened with a mild detergent solution. Rinse with clean water.
- Use the drainage valve to empty any remaining water.
- Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.

3. **Descaling:** Over time, mineral deposits may accumulate. Use a descaling solution suitable for ice makers or a mixture of water and vinegar to clean the internal components. Follow the product instructions for the descaling solution.

4. **Storage:** If storing the ice maker for an extended period, ensure it is thoroughly cleaned and dried. Drain all water

and store in a cool, dry place.

## TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; unit not plugged in; ambient temperature too high.	Fill water reservoir; ensure unit is plugged in and power is on; move unit to a cooler location.
"Water Shortage" indicator is on.	Water level is too low.	Add potable water to the reservoir up to the MAX fill line.
"Ice Full" indicator is on.	Ice basket is full.	Remove ice from the basket. The unit will resume production automatically.
Ice tastes strange or has an odor.	Unit needs cleaning; water quality issue.	Perform a self-cleaning cycle and manual cleaning; use fresh, filtered water.
Ice production is slow.	High ambient temperature; poor ventilation; mineral buildup.	Ensure proper ventilation; clean the unit to remove mineral buildup.

## SPECIFICATIONS

Feature	Detail
Brand	Mueller
Model Name	NM-530
Product Dimensions (D x W x H)	17.6"D x 9.7"W x 16.9"H
Ice Basket Capacity	4.4 Pounds
Daily Ice Production	Up to 30 lbs
Water Reservoir Capacity	3 Quarts
Wattage	9.7 watts

## WARRANTY AND SUPPORT

Mueller stands behind its products with a commitment to premium quality and customer satisfaction. For support, inquiries, or warranty information, please refer to the contact details provided with your product packaging or visit the official Mueller website.
