## Inandon B09D3MPBBY

# InAndOn 15.6-inch Capacitive KTV System User Manual

Model: B09D3MPBBY

## INTRODUCTION

Welcome to the InAndOn 15.6-inch Capacitive KTV System. This manual provides essential information for setting up, operating, and maintaining your karaoke system. Please read these instructions carefully to ensure proper use and to maximize your entertainment experience.

## PRODUCT OVERVIEW

The InAndOn KTV System is a versatile entertainment device featuring a 15.6-inch capacitive touchscreen, wireless microphones, and access to a vast cloud music library. It is designed for home and business use, offering a comprehensive karaoke experience.

## Package Contents

- InAndOn 15.6-inch KTV System Unit
- Wireless Microphones (Quantity: 2)
- Power Adapter
- User Manual (this document)

## Device Components

Image description: The InAndOn 15.6-inch capacitive KTV system with two wireless microphones.

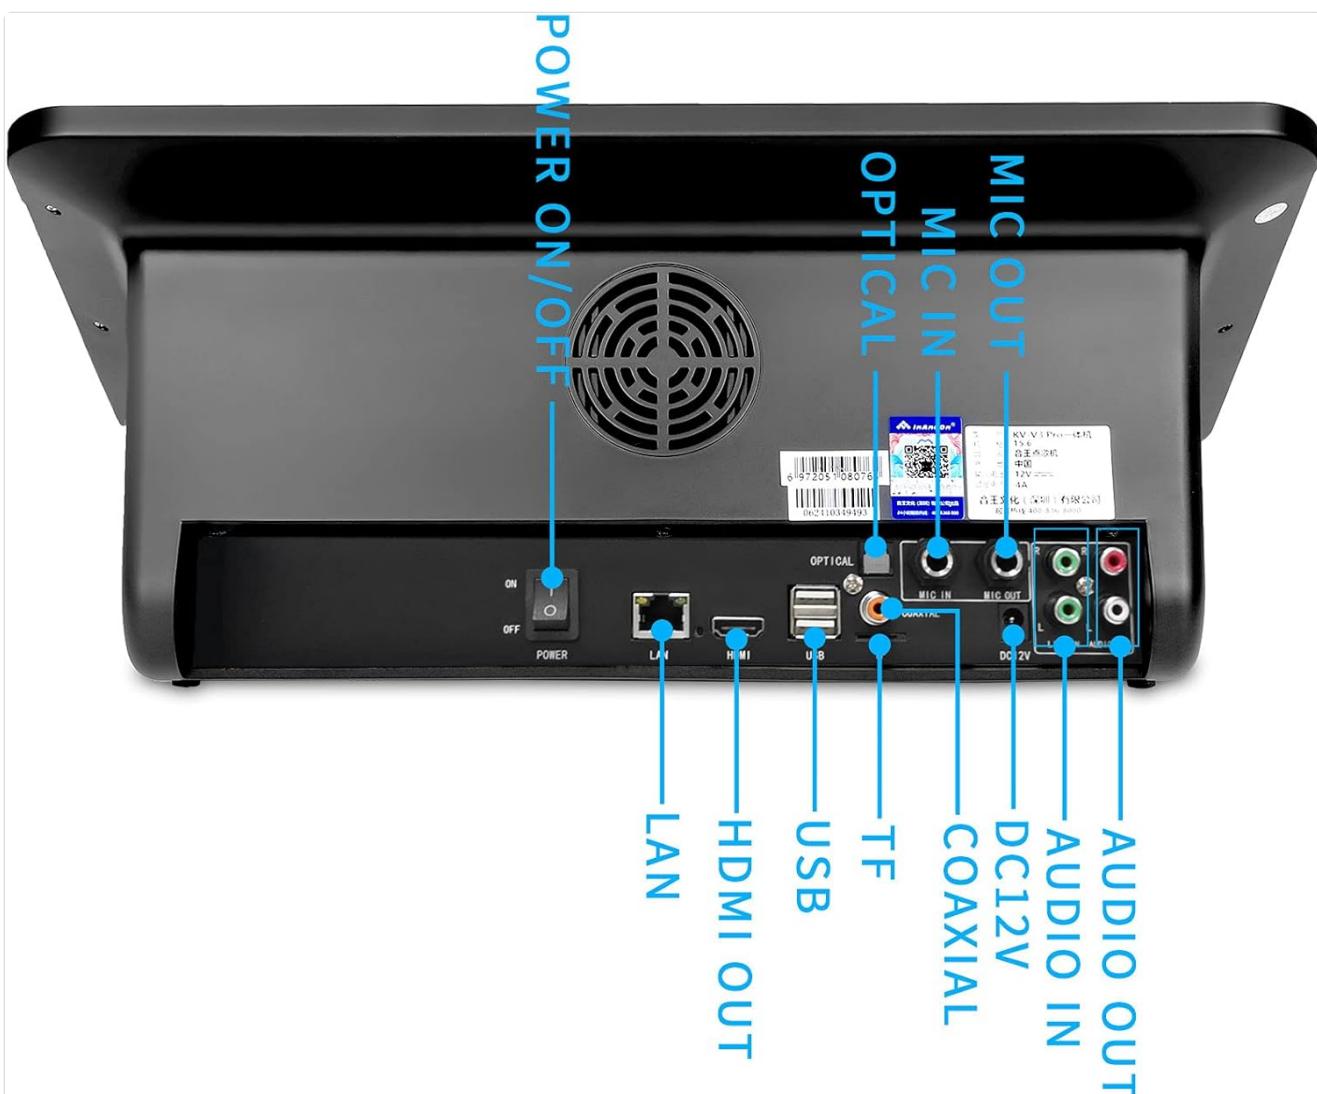

Image description: Rear view of the karaoke system showing various input/output ports including Power, Optical, Mic In, Audio In, Audio Out, DC 12V, Coaxial, TF, USB, HDMI Out, and LAN.

## SETUP INSTRUCTIONS

---

### Step 1: Power Connection

Connect the provided power adapter to the **DC 12V** port on the rear of the karaoke system. Plug the adapter into a standard electrical outlet.

### Step 2: Audio Output Connection

The karaoke system requires an external amplifier and speakers for sound output. Connect the system to your amplifier using one of the following methods:

- **RCA Audio Out:** Use RCA cables (red and white) to connect the **AUDIO OUT** ports on the karaoke system to the corresponding audio input ports on your amplifier.
- **Optical Audio Out:** If your amplifier supports it, connect an optical cable from the **OPTICAL** port on the karaoke system to your amplifier's optical input.
- **Coaxial Audio Out:** If your amplifier supports it, connect a coaxial cable from the **COAXIAL** port on the karaoke system to your amplifier's coaxial input.

**Note: This package does not include a speaker or amplifier. An external amplifier and speakers are required for sound output.**

### Step 3: Video Output Connection

Connect an HDMI cable from the **HDMI OUT** port on the karaoke system to an available HDMI input port on your television or display. Ensure your TV's input source is set to the correct HDMI channel.

### Step 4: Network Connection

To access cloud song updates and online features, connect the system to the internet:

- **Wired Connection:** Connect an Ethernet cable from your router to the **LAN** port on the rear of the system.
- **Wireless Connection:** Navigate to the system's settings menu on the touchscreen to connect to your Wi-Fi network.

### Step 5: Microphone Setup

Insert the required batteries into the wireless microphones. The microphones are designed to automatically pair with the karaoke system upon power-on. If pairing issues occur, refer to the Troubleshooting section.

## OPERATING INSTRUCTIONS

---

### Powering On/Off

Locate the **POWER ON/OFF** switch on the rear panel of the system. Flip the switch to the 'ON' position to power on the device. Flip it to 'OFF' to power down.

### Song Selection

The InAndOn KTV System offers multiple convenient methods for selecting songs:

## TROUBLESHOOTING

This section addresses common issues you might encounter with your InAndOn KTV System.

### Microphones Not Connecting

- Ensure batteries are correctly inserted and charged in both microphones.
- Verify that the microphones are within the operating range of the karaoke system.
- If issues persist, consult the system's on-screen settings for manual microphone pairing instructions or contact customer support.

### No Sound Output

- Confirm that the karaoke system is correctly connected to an external amplifier and speakers as described in the Setup Instructions.
- Check all audio cable connections (RCA, Optical, Coaxial) for secure fit.
- Ensure your amplifier and speakers are powered on and their volume levels are adequately adjusted.
- Check the system's internal volume settings on the touchscreen.

### No Video Output

- Verify that the HDMI cable is securely connected between the karaoke system's **HDMI OUT** port and your TV/display's HDMI input.
- Ensure your television or display's input source is set to the correct HDMI port.

### Network Connection Issues

- For wired connections, check the Ethernet cable for damage and ensure it is properly connected to both the system and your router.

- For Wi-Fi connections, confirm that the correct Wi-Fi password has been entered and the system is within range of your wireless router.
- Restarting your internet router and the karaoke system may resolve temporary connectivity problems.
