- Bed Frame (Side Rails, Footboard)
- Headboard (Tufted)
- Two Storage Drawers
- Birch MDF Slats
- Hardware Pack (bolts, screws, washers, Allen wrench)

4. ASSEMBLY INSTRUCTIONS

Please read all instructions thoroughly before assembly. It is recommended to assemble the bed with two people.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Compare all parts with the included components list and hardware diagram.
2. **Assemble the Bed Frame:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are finger-tight at this stage.

3. **Attach Headboard:** Securely fasten the tufted headboard to the assembled bed frame using the designated bolts and washers.
4. **Install Slats:** Place the birch MDF slats across the bed frame. Ensure they are evenly spaced and secured according to the instructions. The slat support system is designed to support your mattress directly, eliminating the need for a box spring.
5. **Assemble Storage Drawers:** Follow the specific instructions for assembling the two storage drawers. This typically involves attaching the drawer sides, bottom, and front panel, then installing the drawer glides and wheels.
6. **Insert Drawers:** Once assembled, slide the storage drawers into the designated compartments at the foot of the bed. Ensure they glide smoothly.
7. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and fasteners using the Allen wrench. Do not overtighten.

- To open a drawer, gently pull the handle or front panel outwards. The drawers are equipped with smooth-gliding metal runners for easy access.
- To close a drawer, push it inwards until it is fully seated within the bed frame.
- Avoid placing excessive weight in the drawers to ensure smooth operation and prevent damage to the glides.

6. CARE AND MAINTENANCE

- **Cleaning Faux Leather:** For general cleaning, wipe the faux leather upholstery with a soft, damp cloth. For tougher stains, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Frame Care:** Dust the bed frame regularly with a soft, dry cloth.
- **Hardware Check:** Periodically check all bolts and fasteners to ensure they remain tight. Retighten as necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the faux leather to fade or crack.

7. TROUBLESHOOTING

- **Squeaking Noises:** If the bed makes squeaking noises, check all frame connections and ensure they are securely tightened. Verify that the slats are properly seated and not rubbing against the frame.
- **Drawers Not Gliding Smoothly:** Ensure the drawer glides are clean and free of obstructions. Check that the drawers are assembled correctly and that the wheels are properly aligned on their tracks. Avoid overloading the drawers.
- **Instability:** If the bed feels unstable, re-check all assembly steps, paying close attention to the tightening of

all bolts and connections. Ensure the bed is placed on a level surface.
