SETUP

1. Prepare the Dice

The game comes with three black dice and a sticker sheet. Carefully apply the stickers to each face of the dice. It is recommended to put one color symbol on each die, ensuring that the 'wild color' and 'slide' symbols are specifically placed on the first die for balanced gameplay.

2. Set Up Player Bases and Pawns

Each player selects a circular game board, which serves as their base. Players then choose a color for their pawns. Ensure no two players choose the same color. Place all four pawns of your chosen color onto the 'START' section of your circular base.

OPERATING (HOW TO PLAY)

The goal of Sorry! DICE Game is to be the first player to get all four of your pawns into your 'HOME' section.

1. Taking a Turn

On your turn, you will roll all three dice. The symbols on the dice dictate your actions. You must perform the actions indicated by the dice. The game is incredibly fast-paced as you perform three actions per turn.

2. Dice Actions

- **Color Symbol:** If you roll a color symbol (blue, green, yellow, or red), you can take one pawn of that color from the 'START' area and place it into your 'WAITING AREA'. If the rolled color matches your own pawn color, you can place it directly into your 'HOME' area.
- **Sorry! Symbol:** If you roll a 'Sorry!' symbol, you can take any opponent's pawn from their 'HOME' area and place it into your 'WAITING AREA'. This is the only way to remove an opponent's pawn from their 'HOME'.
- **Slide Symbol:** If you roll a 'Slide' symbol, you have two options:
 - Force an opponent to slide their pawn: Choose an opponent's pawn in their 'WAITING AREA' and slide it to an adjacent section (clockwise or counter-clockwise) on their circular base.
 - Slide your own pawn: Move one of your own pawns in your 'WAITING AREA' to an adjacent section on your circular base.

3. Winning the Game

The game ends as soon as one player successfully moves all four of their pawns into their 'HOME' section. This player is the winner!

MAINTENANCE

To ensure the longevity of your Sorry! DICE Game, follow these simple maintenance tips:

- **Cleaning:** Wipe down game pieces and boards with a dry, soft cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store all components in the provided travel case when not in use. Keep the game in a cool, dry place away from direct sunlight and extreme temperatures to prevent warping or damage.
- **Handling:** Handle game pieces and boards gently to prevent bending or tearing.

TROUBLESHOOTING

Warped Cardboard Pieces

Some users have reported that the cardboard game boards may arrive slightly bent or warp over time. While this is generally a minor cosmetic issue, you can try to gently flatten them by placing them under heavy books for a period. Proper storage in the case can help prevent further warping.
