LifeProof SEE SERIES Case with MagSafe for iPhone 13

Model: 77-85690

Introduction

The LifeProof SEE SERIES Case with MagSafe is designed to provide robust protection for your iPhone 13 while maintaining full compatibility with Apple's MagSafe charging and accessory ecosystem. This case combines durability with a commitment to sustainability, featuring a one-piece design for easy installation and construction from recycled materials.

This manual provides essential information regarding the installation, operation, maintenance, and specifications of your LifeProof SEE SERIES Case.

Compatibility

This LifeProof SEE SERIES Case is specifically designed for the**iPhone 13 (ONLY)**. It is crucial to confirm your phone model before attempting installation to ensure proper fit and function.

Image: Compatibility chart indicating the LifeProof SEE SERIES case is compatible only with the iPhone 13 (6.1" display), and not with the iPhone 13 mini, iPhone 13 Pro, or iPhone 13 Pro Max.

Using the case with an incompatible iPhone model may result in an improper fit, reduced protection, or damage to your device or the case itself.

Setup and Installation

The LifeProof SEE SERIES Case features a simple, one-piece design for straightforward installation. For optimal protection, proper installation is essential.

Installation Steps:

1. **Clean Your Device:** Before installing the case, ensure your iPhone 13 is clean and free of dust, dirt, or debris. Use a soft, lint-free cloth.
2. **Align and Insert:** Gently align your iPhone 13 with the case, ensuring the camera cutout and ports are correctly positioned.
3. **Press into Place:** Carefully press your iPhone into the case, starting from one corner and working your way around until the phone is fully seated and all edges are securely covered by the case.
4. **Verify Fit:** Once installed, check that all buttons are accessible and functional, and that the case fits snugly around your device without any gaps.

For visual guidance, it is recommended to review any official installation videos provided by LifeProof on their website or support channels.

Operating with MagSafe

The LifeProof SEE SERIES Case is designed to seamlessly integrate with Apple's MagSafe technology, allowing for convenient wireless charging and compatibility with MagSafe accessories.

MagSafe Functionality:

- **Wireless Charging:** Place your iPhone 13 (with the case installed) onto a MagSafe charger. The case's integrated magnets will align your device for optimal charging efficiency.
- **Accessory Compatibility:** Attach MagSafe-compatible accessories, such as wallets, car mounts, or stands, directly to the back of the case. The magnets will securely hold them in place.

Ensure that MagSafe accessories are properly aligned for the strongest magnetic connection.

Design and Materials

The LifeProof SEE SERIES Case is engineered for both protection and environmental responsibility.

- **Ultra-Thin Design:** The case features an ultra-thin profile that adds minimal bulk to your iPhone 13, preserving its sleek aesthetic while offering protection.
- **Sustainable Materials:** Constructed with at least 45% recycled plastic, the case reflects a commitment to reducing environmental impact.
- **Drop Protection:** Designed to withstand drops from up to 2 meters (6.6 feet), providing reliable protection against everyday impacts.

Maintenance

To ensure the longevity and effectiveness of your LifeProof SEE SERIES Case, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust, dirt, and fingerprints. Avoid abrasive cleaners or solvents, as these can damage the case material.
- **Inspect for Damage:** Periodically inspect the case for any signs of wear, cracks, or damage. If the case is significantly damaged, its protective capabilities may be compromised, and replacement is recommended.
- **Avoid Extreme Conditions:** While durable, avoid exposing the case to extreme temperatures, harsh chemicals, or prolonged direct sunlight, which can degrade the material over time.

Troubleshooting

If you encounter any issues with your LifeProof SEE SERIES Case, consider the following common troubleshooting steps:

Case Fit Issues:

- **Incorrect Model:** Double-check that your iPhone is indeed an iPhone 13. This case is designed exclusively for the iPhone 13.
- **Obstructions:** Ensure there are no foreign objects, screen protectors (that interfere with the case edges), or other accessories preventing the case from seating properly.
- **Reinstallation:** Remove the case and carefully reinstall it, ensuring all edges snap into place securely.

MagSafe Not Working:

- **Charger/Accessory Compatibility:** Verify that your charger or accessory is MagSafe compatible.
- **Proper Alignment:** Ensure the MagSafe charger or accessory is correctly aligned with the magnetic ring on the back of the case. A slight adjustment can often resolve connection issues.
- **Foreign Objects:** Check for any debris or foreign objects between the case and the MagSafe accessory that might impede the magnetic connection.

If issues persist after attempting these steps, please refer to the Warranty and Support section for further assistance.
