## LUDOS CLAMOR 2 Pro

# LUDOS Clamor 2 PRO Wired Earbuds User Manual

Model: CLAMOR 2 Pro

## INTRODUCTION

The LUDOS Clamor 2 PRO Wired Earbuds are designed to provide a high-quality audio experience with enhanced bass and clear sound. Featuring memory foam ear tips for superior noise isolation and comfort, a durable tangle-free cable, and an integrated microphone, these earbuds are suitable for various uses including music, calls, and gaming. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your earbuds.

## WHAT'S IN THE BOX

The package for your LUDOS Clamor 2 PRO Wired Earbuds includes the following components:

- CLAMOR Earphones (1 pair)
- Protective Case (1)
- Memory Foam Earbud Tips (3 pairs: S, M, L)
- In-Ear Headphones Silicone Tips (3 pairs: S, M, L)
- Cable (integrated with earphones)

## SETUP

---

### 1. Connecting the Earbuds

The LUDOS Clamor 2 PRO Earbuds feature a standard 3.5mm audio jack for universal compatibility. Simply insert the 3.5mm jack into the audio port of your device (smartphone, tablet, laptop, PC, PS4, Xbox One, Switch, etc.).

*Note: For devices without a 3.5mm jack (e.g., newer iPhones), a compatible adapter (not included) will be required.*

### 2. Choosing and Installing Ear Tips

The earbuds come with pre-installed memory foam ear tips and additional silicone tips in various sizes (Small, Medium, Large). Selecting the correct ear tip size is crucial for optimal sound quality, comfort, and noise isolation.

- **Memory Foam Tips:** These tips conform to the shape of your ear canal, providing excellent noise isolation and a secure fit. Gently compress the foam tip before inserting it into your ear, then hold it in place for a few seconds as it expands to create a seal.
- **Silicone Tips:** These offer a more traditional fit and may be preferred for users who desire less noise isolation or a different feel.

To change ear tips, gently pull off the existing tip from the earbud nozzle. Align the new tip with the nozzle and push it firmly until it is securely attached.

## OPERATING INSTRUCTIONS

---

### Audio Playback and Call Control

The LUDOS Clamor 2 PRO features an in-line control box for managing audio playback and phone calls. This control box includes a single multi-function button and a volume slider.

| Function         | Action  |
|------------------|---|
| Play/Pause Music | Press the multi-function button once.   |
| Next Track       | Press the multi-function button twice quickly.  |
| Previous Track   | Press the multi-function button three times quickly.  |
| Answer/End Call  | Press the multi-function button once during an incoming call or active call.                  |
| Reject Call      | Press and hold the multi-function button for approximately 2 seconds during an incoming call. |
| Adjust Volume    | Slide the volume control up or down.  |

## Microphone Usage

The integrated HD microphone allows for clear communication during phone calls, video conferences, and online gaming. Ensure the microphone is positioned appropriately for optimal voice pickup.

## Passive Noise Isolation

The design of the LUDOS Clamor 2 PRO, especially when using the memory foam ear tips, provides passive noise isolation. This feature helps to reduce ambient noise, allowing for a more focused listening experience without the need for active noise cancellation.

## MAINTENANCE

---

### Cleaning the Earbuds and Tips

Regular cleaning helps maintain hygiene and prolong the lifespan of your earbuds. Use a soft, dry cloth to wipe the earbuds and

cable. For ear tips, gently remove them and clean with a damp cloth, ensuring they are completely dry before reattaching.

## Cable Care and Storage

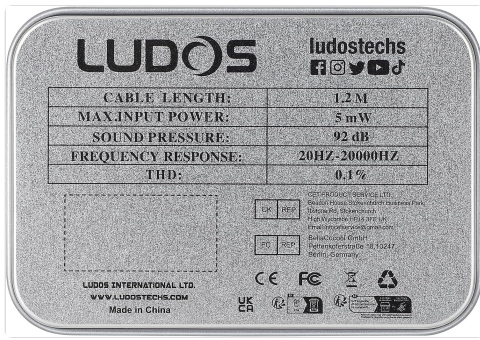

The LUDOS Clamor 2 PRO features a tangle-free cable for enhanced durability and ease of use. The earbuds also have magnetic backs, allowing them to click together when not in use. This helps prevent tangling and makes storage more convenient.

Always store your earbuds in the provided protective case when not in use to prevent damage and tangling.

## TROUBLESHOOTING

| Problem                              | Possible Cause  | Solution  |
|--------------------------------------|---|---|
| No sound or low volume               | Incorrect connection, device volume too low, ear tips not sealed.               | Ensure the 3.5mm jack is fully inserted. Increase device volume. Adjust ear tips for a proper seal. Test with another device.   |
| Microphone not working               | Microphone muted on device, incorrect audio input settings, damaged microphone. | Check device's microphone settings. Ensure the microphone is not covered. Test with another application or device.              |
| Earbuds uncomfortable or falling out | Incorrect ear tip size or improper insertion.                                   | Try different sizes of ear tips (silicone or memory foam). Ensure tips are correctly installed and inserted into the ear canal. |
| Sound distortion or crackling        | Damaged cable, dirty audio jack, interference.                                  | Inspect the cable for damage. Clean the 3.5mm audio jack on both the earbuds and your device. Test with another audio source.   |
