GLOBE Electric 59941 Bleecker 3-Light Integrated LED Track Lighting User Manual

Model: 59941 Bleecker

IMPORTANT SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble, operate, or install the product. Failure to do so could lead to electric shock, fire, or other injuries that could be hazardous or even fatal. All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC).

- **WARNING:** Risk of electric shock. Disconnect power at the circuit breaker or fuse box before installation or servicing.
- **WARNING:** Risk of fire. Use only with specified wattage and voltage.
- Consult a qualified electrician if you have any electrical questions.
- Do not attempt to alter the fixture or its components.

PACKAGE CONTENTS

Verify that all parts listed below are included in your package. If any parts are missing or damaged, contact customer service for assistance.

- 3-Light Integrated LED Track Light Fixture
- Mounting Hardware Kit
- Instruction Sheet

Image: The complete GLOBE Electric 59941 Bleecker 3-Light Integrated LED Track Lighting fixture, showcasing its matte black finish and three adjustable light heads.

SETUP AND INSTALLATION

This fixture is designed for easy installation on flat or sloped ceiling surfaces. Ensure power is disconnected before beginning installation.

1. **Prepare the Mounting Surface:** Ensure the electrical box is securely mounted and capable of supporting the fixture's weight.
2. **Attach Mounting Bracket:** Secure the mounting bracket to the electrical box using the provided screws.
3. **Make Electrical Connections:** Connect the fixture's wires to the household electrical wires according to local codes. Typically, black to black (live), white to white (neutral), and bare copper or green to green or bare copper (ground). Use wire nuts to secure connections.
4. **Mount the Fixture:** Carefully align the fixture base with the mounting bracket and secure it with the provided screws.
5. **Adjust Light Heads:** The three integrated LED heads are adjustable. Pivot each head to direct light as desired.

Image: The GLOBE Electric 59941 Bleecker track light installed on a white ceiling, demonstrating its sleek profile and how the three lights illuminate the space.

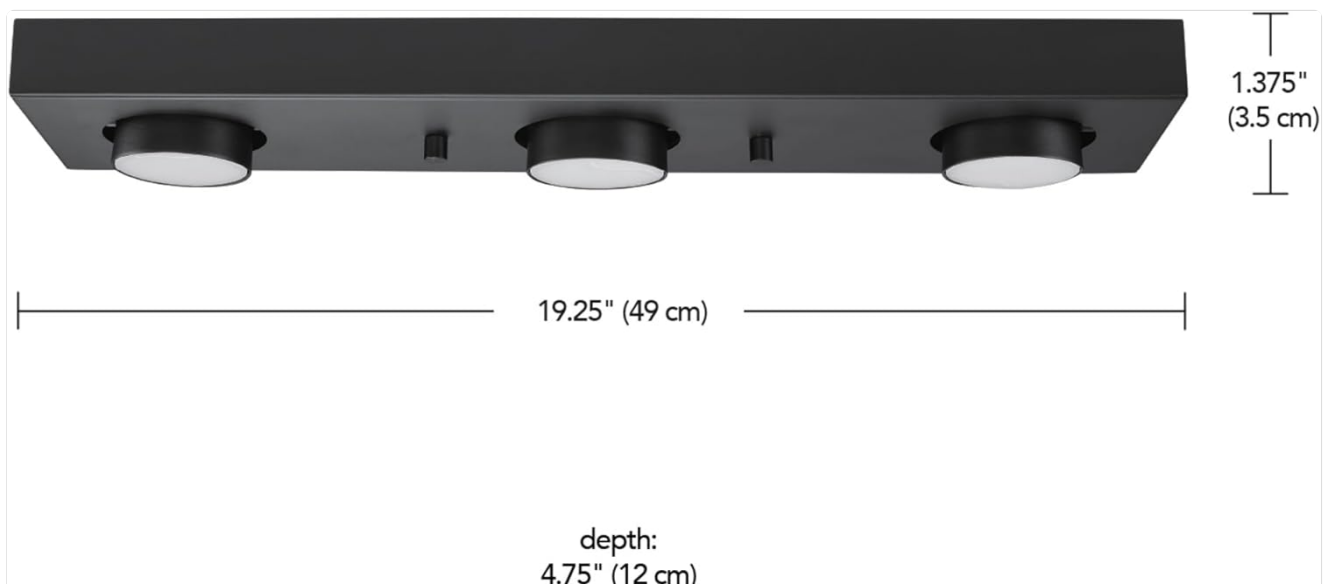

Image: A diagram showing the product dimensions: 19.25 inches (49 cm) in length, 4.75 inches (12 cm) in depth, and 1.375 inches

(3.5 cm) in height.

OPERATING INSTRUCTIONS

The GLOBE Electric 59941 Bleecker track light features integrated LEDs and adjustable heads for versatile illumination.

- **Power On/Off:** Operate the light using a standard wall light switch.
- **Dimming Functionality:** This fixture is fully dimmable. For optimal performance, use with a compatible LED dimmer switch.
- **Adjusting Light Direction:** Each of the three light heads can be manually pivoted to direct the warm white (3000K) light exactly where needed.

Image: A close-up view of the track light showing one of the directional heads with an arrow indicating its pivoting capability, allowing users to adjust the light direction.

Image: The track light installed in a modern kitchen, providing targeted illumination over a countertop and island, highlighting its functional and aesthetic integration.

MAINTENANCE

This LED track light is designed for long-lasting performance with minimal maintenance.

- **Cleaning:** To clean the fixture, ensure power is off. Wipe with a soft, dry cloth. Do not use abrasive cleaners or solvents, as these may damage the finish or electrical components.
- **No Bulb Replacement:** The fixture features integrated LEDs with a lifespan of approximately 30,000 hours, meaning no bulb replacements are necessary.

No bulbs needed

Long lasting high performance LED lasts up to 50,000 hours.

Image: A visual representation of the track light emphasizing that no traditional bulbs are required due to its integrated LED design, highlighting its long-lasting performance.

TROUBLESHOOTING

If you experience issues with your track light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture.	Check circuit breaker or fuse. Ensure wall switch is in the ON position. Verify electrical connections.
Light flickers or dims unexpectedly.	Loose wiring connection or incompatible dimmer switch.	Ensure all wire connections are secure. If using a dimmer, verify it is compatible with LED fixtures.
Buzzing sound when dimmed.	Incompatible dimmer switch.	Replace with a high-quality LED-compatible dimmer switch. Some dimmers may cause buzzing at certain levels.

If the problem persists after attempting these solutions, contact a qualified electrician or GLOBE Electric customer support.

SPECIFICATIONS

Feature	Detail
Brand	GLOBE Electric
Model Name	Bleecker
Part Number	59941
Color	Matte Black
Material	Metal
Product Dimensions	4.75"L x 19.25"W x 2"H
Light Source Type	Integrated LED
Number of Light Sources	3
Wattage	21 Watts

Feature	Detail
Brightness	1200 Lumens
Color Temperature	3000 Kelvin (Warm White)
CRI	90
Bulb Life	30,000 Hours
Dimmable	Yes
Voltage	120 Volts
Installation Type	Track Mount
Indoor/Outdoor Usage	Indoor
