4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Parblo Intangbo S Graphic Drawing Tablet.

- **Cleaning:** Use the provided cleaning cloth or a soft, dry cloth to wipe the tablet surface and stylus. Avoid abrasive cleaners or solvents.
- **Storage:** Store the tablet in a dry, dust-free environment when not in use. Avoid extreme temperatures.
- **Stylus Nibs:** Regularly check the stylus nib for wear. Replace worn-out nibs promptly using the provided nib removal tool and spare nibs.

- **Cable Care:** Handle the USB-C cable and adapters carefully. Avoid bending or twisting them excessively to prevent damage.

5. TROUBLESHOOTING

If you encounter issues with your Parblo Intangbo S Graphic Drawing Tablet, refer to the following common solutions:

Problem	Possible Solution
Tablet not responding / Pen not drawing	- Ensure the USB-C cable is securely connected to both the tablet and your computer/Android device. - Verify that the tablet driver is correctly installed. Uninstall any conflicting tablet drivers and reinstall the Parblo driver. - Restart your computer. - Test the tablet on a different USB port or computer. - Check if the stylus nib is worn out and replace it if necessary.
Pressure sensitivity not working	- Ensure the driver is installed and functioning correctly. Check the driver settings for pressure sensitivity options. - Verify that the drawing software you are using supports pressure sensitivity and that it is enabled in the software's settings. - Restart the drawing software or your computer.
Express keys or dial ring not functioning	- Open the Parblo driver software and check if the keys and dial ring are properly configured. - Ensure the driver is running in the background. - Restart your computer.
Tablet not recognized by Android device	- Ensure your Android device supports OTG (On-The-Go) functionality. - Use the correct OTG adapter (USB to Type-C or USB to Micro USB). - Try a different OTG adapter or USB cable. - Some Android devices may require enabling OTG in their settings.
