GIANTEX 3 x 3 m Waterproof Garden Gazebo Instruction Manual

MODEL: RS6230EHES

Introduction

Thank you for choosing the GIANTEX 3 x 3 m Waterproof Garden Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new gazebo. Please read these instructions carefully before use and retain them for future reference.

Safety Information

- Store the gazebo away from bad weather conditions, such as strong winds or heavy rain, when not in use.
- Ensure adequate stability during use by properly securing the gazebo to the ground.
- Exercise caution when handling and adjusting the side curtains to prevent damage or injury.
- Do not use open flames or heating appliances inside the gazebo.
- Regularly inspect all components for wear and tear, and replace damaged parts immediately.

Components List

Before assembly, please verify that all parts listed below are present in your package. If any parts are missing or damaged, please contact customer support.

Spécifications :

Assembly Instructions

The GIANTEX gazebo is designed for easy assembly. We recommend two people for setup. Follow these general steps, referring to the detailed diagrams in your included PDF manual for specific connections.

1. Unpack all components and lay them out on a clean, flat surface.
2. Assemble the main steel frame structure according to the provided diagrams, ensuring all connections are secure.
3. Attach the canopy fabric to the frame, making sure it is properly aligned and taut.
4. Install the four side curtains, utilizing the smooth zippers and curtain hooks for easy attachment and adjustment.
5. Secure the gazebo to the ground using the provided stakes and ropes to ensure stability, especially in windy conditions.

Operating Your Gazebo

Your GIANTEX gazebo is designed to provide a comfortable outdoor space with various features for your convenience.

- **Large Shade Area:** The 3 x 3 meter roof surface provides ample shade, allowing you to enjoy outdoor activities protected from direct sunlight.
- **Ventilation:** The double-roof design enhances air circulation, providing better ventilation within the canopy and improving wind resistance.
- **Side Curtains:** The translucent side curtains offer privacy and protection from mosquitoes. They can be easily lowered or tied back using the integrated hooks when more fresh air is desired.
- **Drainage Holes:** The design includes drainage holes to prevent water accumulation on the roof, keeping the gazebo dry.

- ✓ Auvent avec 2 hauteurs réglables
- ✓ Régler la circulation d'air interne sûre
- ✓ Structure robuste et résistante au vent

Care and Maintenance

- **Cleaning:** Clean the canopy fabric and frame with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the material. Rinse thoroughly and allow to air dry completely before storage.
- **Storage:** We recommend disassembling the gazebo in winter or during periods of prolonged non-use to prevent damage from harsh weather conditions. Store all components in a dry, protected area.
- **Inspection:** Periodically check all nuts, bolts, and connections to ensure they are tight and secure. Inspect the fabric for any tears or damage.

Troubleshooting

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

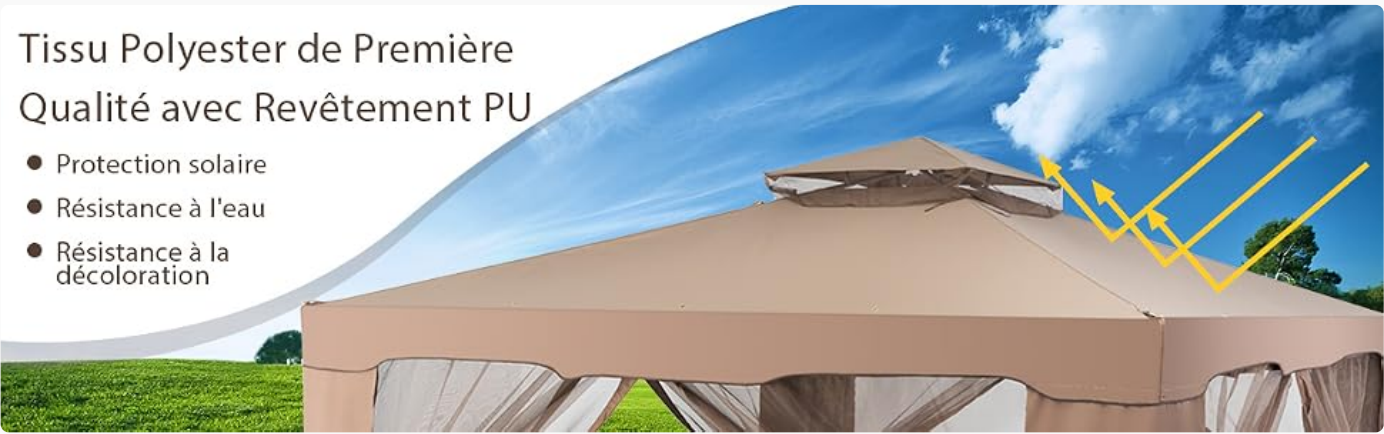

Problem	Possible Cause	Solution
Gazebo feels unstable or wobbly.	Improper assembly or insufficient anchoring.	Ensure all frame connections are fully engaged and secure. Use all provided stakes and ropes to anchor the gazebo firmly to the ground. Avoid use in strong winds.
Water pooling on the canopy.	Canopy not taut enough or drainage holes blocked.	Adjust the canopy to ensure it is stretched tightly over the frame. Check and clear any debris from the drainage holes.
Side curtains do not close properly.	Zipper obstruction or curtain misalignment.	Check for any fabric caught in the zipper. Ensure curtains are properly aligned with their attachment points.

Product Specifications
