highlighting the vibrant RGB backlighting on the keys and the detachable keycaps.

2. PACKAGE CONTENTS

Please check the package contents carefully. If any items are missing or damaged, contact your retailer.

- XTRIKE ME GK-915 Mechanical Gaming Keyboard
- USB-C to USB-A Cable
- User Manual (this document)

3. PRODUCT FEATURES

The XTRIKE ME GK-915 keyboard offers a range of features designed for performance and customization:

- **Mechanical Switches:** Provides tactile feedback and durability for a superior typing and gaming experience.
- **25-Key Rollover:** Ensures that up to 25 simultaneous key presses are registered accurately, preventing ghosting during intense gaming sessions.
- **Multi-Color Backlighting:** Features individual LED backlighting for each key, offering vibrant illumination.
- **12 Lighting Modes:** Choose from various preset lighting effects to personalize your keyboard's appearance.
- **USB-C Connectivity:** Provides a reliable and fast wired connection to your computer.
- **Durable Construction:** Built with a plastic body for longevity.

4. SETUP INSTRUCTIONS

Follow these steps to connect and begin using your XTRIKE ME GK-915 keyboard:

1. **Unpack the Keyboard:** Carefully remove the keyboard and USB-C cable from its packaging.
2. **Connect the Cable:** Insert the USB-C end of the cable into the port on the keyboard.
3. **Connect to Computer:** Plug the USB-A end of the cable into an available USB port on your computer.
4. **Driver Installation:** The keyboard is plug-and-play. Your operating system (e.g., Windows 10) will automatically detect and install the necessary drivers. No additional software installation is typically required for basic functionality.
5. **Verify Functionality:** Once connected, the keyboard's backlight should illuminate. Test by typing in a text editor to ensure all keys are responsive.

5. OPERATING INSTRUCTIONS

This section details how to use the various functions of your keyboard, particularly the backlighting.

5.1 Backlight Control

The GK-915 features multiple backlight modes and brightness levels.

- **Changing Lighting Modes:** Press the **Fn + Ins** key combination to cycle through the 12 available lighting modes.

- **Adjusting Brightness:** Use **Fn + Up Arrow** to increase backlight brightness and **Fn + Down Arrow** to decrease brightness.
- **Adjusting Speed/Direction (for dynamic modes):** For certain dynamic lighting modes, you can adjust the speed or direction using **Fn + Left Arrow** and **Fn + Right Arrow**.

5.2 Multimedia and Function Keys

The keyboard includes function keys that can be combined with the **Fn** key for multimedia control and other shortcuts. Refer to the keycaps for specific icons indicating their secondary functions (e.g., volume control, media playback).

- **Fn + F1-F12:** These combinations typically control multimedia functions (e.g., play/pause, stop, previous/next track, volume up/down, mute) or system functions (e.g., open browser, email).
- **Fn + Win:** Locks the Windows key to prevent accidental presses during gaming.

6. MAINTENANCE

Proper care and maintenance will extend the lifespan of your keyboard.

- **Cleaning:**

  - Disconnect the keyboard from your computer before cleaning.
  - Use a soft, dry cloth to wipe the surface of the keyboard.
  - For dust and debris between keys, use compressed air.
  - Avoid using harsh chemicals or abrasive materials, as these can damage the finish or keycaps.

- **Spills:** In case of liquid spills, immediately disconnect the keyboard and allow it to dry completely before reconnecting. Do not attempt to use it while wet.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your keyboard, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Keyboard is not responding.	Loose connection, faulty USB port, driver issue.	- Ensure the USB-C cable is securely connected to both the keyboard and the computer. - Try plugging the keyboard into a different USB port on your computer. - Restart your computer. - Test the keyboard on another computer if possible to rule out a computer-specific issue.
Backlight is not working or stuck.	Backlight settings, software conflict.	- Press **Fn + Ins** to cycle through lighting modes. - Adjust brightness using **Fn + Up/Down Arrow**. - Ensure no software is overriding keyboard lighting settings.

Problem	Possible Cause	Solution
Certain keys are not working.	Debris under keycap, faulty switch.	○ Carefully remove the keycap and check for any obstructions. Clean with compressed air. ○ If the issue persists, contact customer support.
