

ZVOX SB500

ZVOX SB500 Soundbar User Manual

Model: SB500 | Brand: ZVOX

INTRODUCTION

Welcome to the user manual for your ZVOX SB500 Soundbar. This high-performance soundbar is designed to deliver an immersive audio experience for your television, featuring advanced AccuVoice dialogue boost technology and powerful built-in subwoofers. The SB500 is engineered to enhance clarity and provide rich, room-filling sound, making every movie, show, and sporting event come to life. Please read this manual thoroughly to ensure proper setup, operation, and maintenance of your device.

Figure 1: Front view of the ZVOX SB500 Soundbar. This sleek black soundbar features a minimalist design with a subtle ZVOX logo at the bottom center.

SETUP

Placement Options

The ZVOX SB500 Soundbar offers versatile placement options to suit your home entertainment setup. It can be wall-mounted, placed upright, or laid flat on furniture. This flexibility ensures optimal sound delivery and seamless integration with your room's aesthetics.

Extraordinary Sound Bar

It combines three "insanely great" speakers, two internal powered subwoofers, a 140-watt digital amplifier, an aluminum cabinet, and a digital processor.

ZVOX[®]

Figure 2: The ZVOX SB500 Soundbar positioned on a TV stand beneath a television, demonstrating a common horizontal placement.

IMMERSIVE SOUND

EASY-TO-INSTALL

Can be wall-mounted, furniture-mounted, or laid flat.

Figure 3: A visual representation of sound waves emanating from the ZVOX SB500 Soundbar, illustrating its immersive audio capabilities when placed under a TV.

Dual Built-in Subwoofers

Produce great bass without an external subwoofer.

6-Modes of AccuVoice

uses hearing aid technology to reduce background noise and boost voices for ultra clear dialogue.

THEATER-LIKE AUDIO QUALITY

The ZVOX SB500 is a sleek, elegant sound bar that fits under your TV to deliver room-filling 3D sound with great bass response from a single speaker cabinet.

Figure 4: The ZVOX SB500 Soundbar with its dimensions (49.9"W x 3.3"D x 5.7"H) and key features highlighted, including dual built-in subwoofers and 6 modes of AccuVoice.

Connecting Your Soundbar

The SB500 Soundbar offers two primary ways to connect to your television or other audio sources:

- **Optical Digital Input (TOSLINK):** For high-quality digital audio connection.
- **Analog Input (3.5mm Headphone Jack):** For connecting devices with an analog audio output.

Note: This product does not include an HDMI connection. Please check your TV for compatibility with optical or analog audio outputs.

TWO EASY WAYS TO CONNECT

This product features optical and analog inputs. It does not include a HDMI connection. It cannot be used as a center speaker. **Check your TV for compatibility.**

No HDMI

Figure 5: Diagram illustrating the optical digital input (TOSLINK) and analog input (3.5mm) options on the ZVOX SB500 Soundbar, with a clear indication that HDMI is not supported.

Initial Power On

Once connected, plug the soundbar into a power outlet. The soundbar will typically power on automatically or can be turned on using the included remote control. Follow the on-screen prompts on your TV (if any) to select the correct audio output.

OPERATING INSTRUCTIONS

Basic Controls

The ZVOX SB500 Soundbar can be controlled using the included remote control. Key functions include:

- **Power:** Turns the soundbar on or off.
- **Volume Up/Down:** Adjusts the overall sound level.
- **Mute:** Silences the audio output.
- **Input Selection:** Switches between Optical and Analog inputs.

Figure 6: Side view of the ZVOX SB500 Soundbar, showing the integrated control buttons for power, volume, and input selection.

AccuVoice Dialogue Boost

Experience every word with perfect clarity using ZVOX's patented AccuVoice hearing aid technology. This feature lifts voices out of background noise, making dialogue clear and easy to understand, even at low volumes. The SB500 offers six levels of voice boost, allowing you to customize your listening experience.

Figure 7: The ZVOX SB500 Soundbar display showing "AC S" (AccuVoice Setting), emphasizing the ability to turn off subtitles and turn on AccuVoice for enhanced dialogue clarity.

Figure 8: The AccuVoice logo, representing the patented technology for clear dialogue.

PhaseCue Virtual Surround Sound

The SB500 features PhaseCue virtual surround sound technology, which creates a rich and immersive 3D sound experience from a single soundbar. This technology broadens the soundstage, making it feel like sound is coming from all around you.

Figure 9: A graphic illustrating how the ZVOX SB500 Soundbar creates room-filling 3D sound, with arrows indicating sound dispersion throughout a living space.

Figure 10: The ZVOX SB500 Soundbar integrated into a home entertainment setup, demonstrating its ability to deliver immersive audio for dynamic content like action scenes.

Output Leveling

The SB500's output leveling feature automatically tames sudden volume spikes, such as those from loud commercials. This provides a consistent audio experience, eliminating the need to constantly adjust the volume.

Figure 11: An image depicting a woman covering her ears, symbolizing the discomfort caused by sudden loud noises, which the soundbar's

MAINTENANCE

Cleaning

To maintain the appearance and performance of your ZVOX SB500 Soundbar, regularly wipe the exterior with a soft, dry cloth. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish. Ensure the soundbar is unplugged before cleaning.

Storage

If storing the soundbar for an extended period, disconnect it from power and audio sources. Store it in a cool, dry place, ideally in its original packaging to protect it from dust and physical damage.

TROUBLESHOOTING

If you encounter issues with your ZVOX SB500 Soundbar, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from soundbar.	<ul style="list-style-type: none">Soundbar not powered on.Incorrect input selected.Volume too low or muted.Loose audio cables.TV audio output settings incorrect.	<ul style="list-style-type: none">Ensure soundbar is plugged in and powered on.Press the Input button on the remote to cycle through inputs.Increase volume and check mute status.Securely connect all audio cables.Check your TV's audio settings to ensure output is set to external speakers (e.g., Optical Out).
Distorted or poor sound quality.	<ul style="list-style-type: none">Audio source quality.Cables not fully inserted.Soundbar placement.	<ul style="list-style-type: none">Test with a different audio source.Ensure all cables are firmly connected.Adjust soundbar placement to avoid obstructions.
Remote control not working.	<ul style="list-style-type: none">Dead batteries.Obstruction between remote and soundbar.	<ul style="list-style-type: none">Replace batteries (1 12V battery required).Ensure clear line of sight to the soundbar's sensor.

If the problem persists after trying these solutions, please contact ZVOX customer support.

SPECIFICATIONS
