Holden Hybrid Down Sweatpants

HOLDEN Hybrid Down Sweatpants User Manual

Model: Hybrid Down Sweatpants

1. Product Overview

The HOLDEN Hybrid Down Sweatpants are engineered for versatility, providing comfort and warmth in various cold environments, from urban settings to outdoor excursions. These sweatpants combine advanced materials and thoughtful design to offer optimal performance and durability.

Key features include:

- Extreme versatility for cold city streets and outdoor excursions.
- Water-repellent nylon taffeta construction.
- Zippered hand and back pockets for secure storage.
- Stretch waistband with drawcord for an adjustable fit.
- Shock cord with adjustable bottom cuffs for adaptable styling and protection.
- Italian-made TecnoStretch fleece gusset for enhanced mobility.
- Insulated with 80/20 Traceable Down, 600 Fill Power for superior warmth.

2. Initial Setup and Fit

The Hybrid Down Sweatpants are designed to fit true to size. Upon receiving your sweatpants, follow these steps for initial setup:

1. **Unpack:** Carefully remove the sweatpants from their packaging.
2. **Inspect:** Check for any visible damage or manufacturing defects.
3. **Try On:** Put on the sweatpants to assess the fit.
4. **Adjust Waistband:** Use the stretch waistband and drawcord to achieve a comfortable and secure fit around your waist.
5. **Adjust Cuffs:** Utilize the shock cord with adjustable bottom cuffs to customize the leg opening, which can help seal out cold or accommodate different footwear.

For optimal comfort, ensure the fit allows for a full range of motion without feeling restrictive.

3. Wearing and Use

These sweatpants are suitable for a variety of activities in cold conditions:

- **Casual Wear:** Ideal for everyday use in cold urban environments.
- **Outdoor Activities:** Suitable for light outdoor excursions, such as walking, hiking, or as a warm layer for snow sports.
- **Layering:** Can be worn as an outer layer or as a warm mid-layer depending on the temperature and activity level.

The water-repellent nylon taffeta provides protection against light moisture, while the down insulation ensures warmth. The zippered pockets offer secure storage for small essentials.

4. Care and Maintenance

Proper care will extend the life and maintain the performance of your HOLDEN Hybrid Down Sweatpants. Always refer to the care label inside the garment for specific instructions.

Washing Instructions:

- **Machine Wash:** The sweatpants are machine washable. Use a gentle cycle with cold water.
- **Detergent:** Use a mild, down-specific detergent if possible. Avoid harsh detergents, bleach, or fabric softeners, as these can damage the water-repellent finish and down insulation.
- **Preparation:** Close all zippers and fasteners before washing. Turn the garment inside out to protect the outer fabric.
- **Rinse:** Ensure the garment is thoroughly rinsed to remove all detergent residue. You may need to run an extra rinse cycle.

Drying Instructions:

- **Tumble Dry Low:** Tumble dry on a low heat setting.
- **Restore Loft:** To help restore the down's loft and prevent clumping, place a few clean tennis balls or dryer balls in the dryer with the sweatpants.
- **Patience:** Drying down garments can take several hours. Periodically remove the sweatpants and gently pat or fluff the down to redistribute it evenly.
- **Complete Dry:** Ensure the sweatpants are completely dry before storing to prevent mildew and preserve the down's integrity.

Storage:

Store the sweatpants in a cool, dry place. Avoid compressing them for long periods, as this can reduce the down's loft over time. Hang them or store them loosely folded.

5. Troubleshooting

While the HOLDEN Hybrid Down Sweatpants are designed for durability and performance, here are some common considerations:

- **Reduced Warmth:** If the down appears flat or clumpy, it may need to be re-lofted. Follow the drying instructions with dryer balls. Ensure the garment is clean and completely dry.
- **Water Repellency Diminished:** Over time, the water-repellent finish may wear off. This can often be restored by washing and tumble drying, or by applying a specialized DWR (Durable Water Repellent) treatment designed for technical outerwear.
- **Zipper Issues:** If a zipper snags, gently try to free the fabric. Avoid forcing it. Ensure the zipper is clean and free of debris.
- **Fit Discomfort:** Re-adjust the waistband drawcord and cuff shock cords. If the fit remains uncomfortable, ensure

you have selected the correct size.

6. Specifications

Feature	Detail
Item Model Number	Hybrid Down Sweatpants
ASIN	B09DMHP2HP
Department	Mens
Care Instructions	Machine Wash
Origin	Imported
