4. SETUP

4.1 Charging the Headphones

Before first use, fully charge your Sanag A5S headphones.

1. Connect the Micro USB charging cable to the charging interface (4) on the headphones.
2. Connect the other end of the cable to a USB power source (e.g., computer, wall adapter).
3. The indicator light (7) will show charging status. A full charge takes approximately 2 hours.

A fully charged battery provides up to 8 hours of continuous use or 300 hours of standby time.

4.2 Pairing with a Bluetooth Device

Follow these steps to connect your headphones to your smartphone, tablet, or other Bluetooth-enabled device:

1. **Power On:** Press and hold the Multifunction button (6) for 3 seconds until the indicator light (7) flashes, indicating the headphones are in pairing mode.
2. **Activate Bluetooth:** On your device, go to the Bluetooth settings and ensure Bluetooth is turned on.

3. **Connect:** In the list of available devices, select "A5S". Once connected, the indicator light will stop flashing or change color (refer to specific light patterns in troubleshooting if needed).

The headphones will automatically attempt to reconnect to the last paired device when powered on.

- **Increase Volume:** Long press the Volume Up button (2).
- **Decrease Volume:** Long press the Volume Down button (3).

5.4 Call Management

- **Answer Call:** Short press the Multifunction button (6) when a call comes in.
- **End Call:** Short press the Multifunction button (6) during a call.
- **Reject Call:** Long press the Multifunction button (6) when a call comes in.
- **Voice Assistant:** Double-press the Multifunction button (6) to activate your device's voice assistant (if supported).

6. MAINTENANCE

6.1 Cleaning

Regularly clean your headphones to ensure optimal performance and hygiene.

- Wipe the headphones with a soft, dry, or slightly damp cloth.
- Do not use harsh chemicals, cleaning solvents, or strong detergents.
- Ensure the charging port is dry before charging.

6.2 Storage

When not in use, store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.

6.3 Water Resistance

The Sanag A5S headphones are IP67 rated, meaning they are resistant to dust and can withstand immersion in water up to 1 meter for 30 minutes. While they are sweat and light rain resistant, avoid prolonged exposure to water or using them during swimming.

7. TROUBLESHOOTING

If you encounter any issues with your headphones, please refer to the following common problems and solutions:

- **Headphones do not power on:**
  Ensure the headphones are fully charged. Connect them to a power source using the Micro USB cable.

- **Cannot pair with device:**

Make sure Bluetooth is enabled on your device. Ensure the headphones are in pairing mode (indicator light flashing). Move the headphones closer to your device (within 10 meters). Turn off and on both the headphones and your device's Bluetooth.

- **No sound or low volume:**
  Check the volume levels on both the headphones and your connected device. Ensure the headphones are properly paired. Try playing different audio sources.

- **Intermittent connection:**
  Ensure there are no obstructions between the headphones and your device. Move away from other wireless devices that might cause interference.

- **Microphone not working:**
  Ensure the headphones are properly connected and selected as the audio input device on your phone/computer. Check for any mute settings on your device.

If the problem persists, please contact customer support.
