Material	Plastic
Width	111 mm (4.37 inches)
Height	84 mm (3.31 inches)
Depth	107 mm (4.21 inches)
Item Weight	80 g (2.82 ounces)

4. SETUP INSTRUCTIONS

4.1. Unpacking

Carefully remove the coffee grounds container from its packaging. Inspect the container for any signs of damage during transit. If any damage is observed, do not proceed with installation and contact customer support.

4.2. Installation

1. Ensure your Melitta automatic coffee machine is turned off and unplugged from the power outlet.
2. Locate the designated slot for the coffee grounds container within your coffee machine. Refer to your coffee machine's original user manual for the exact location if unsure.
3. Slide the DL-pro Melitta 6593032 coffee grounds container into the slot until it is securely seated. It should fit snugly without excessive force.
4. Once installed, you may plug in and turn on your coffee machine.

5. OPERATING INSTRUCTIONS

5.1. Normal Operation

Once installed, the coffee grounds container operates automatically. During the brewing cycle, the coffee machine will eject the spent coffee grounds directly into this container. No manual intervention is required during brewing.

5.2. Emptying the Container

Your coffee machine will typically indicate when the coffee grounds container is full and needs to be emptied. Follow these steps:

1. Turn off your coffee machine.
2. Carefully pull out the coffee grounds container from its slot.
3. Dispose of the coffee grounds in an appropriate waste receptacle or compost.
4. Clean the container as described in the Maintenance section before reinserting it.
5. Slide the clean, empty container back into its slot until it clicks into place.
6. Turn on your coffee machine. The 'empty container' indicator should reset.

6. MAINTENANCE

6.1. Cleaning

Regular cleaning of the coffee grounds container is essential for hygiene and to prevent mold growth. Clean the container each time it is emptied.

- Remove the container from the coffee machine.
- Rinse the container thoroughly under warm running water.
- Use a mild dish soap and a soft sponge or brush to remove any stubborn residue.
- Rinse again to ensure all soap residue is removed.
- Allow the container to air dry completely before reinserting it into the coffee machine. Alternatively, dry with a clean cloth.

Do not use abrasive cleaners or harsh chemicals, as these can damage the plastic.

6.2. Storage

When not in use for extended periods, ensure the container is clean and dry. Store it in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Container does not fit into the machine.	Incorrect model or improper alignment.	Verify your coffee machine model against the compatibility list. Ensure the container is oriented correctly and inserted straight. Do not force it.
Coffee grounds are not collecting in the container.	Container not properly seated or internal mechanism issue.	Ensure the container is fully inserted. If the problem persists, consult your coffee machine's original manual or contact Melitta service.
'Empty Grounds' indicator remains on after emptying.	Container not fully reinserted or sensor issue.	Ensure the container is pushed all the way in. Some machines require the machine to be turned off and on again after emptying. If the issue persists, consult your coffee machine's original manual.

8. WARRANTY AND SUPPORT

For specific warranty information regarding your DL-pro Melitta 6593032 coffee grounds container, please

refer to the documentation provided at the time of purchase or contact DL-pro customer service. DL-pro is committed to providing high-quality replacement parts to extend the life of your household appliances.

For technical support or inquiries, please visit the official DL-pro website or contact their customer service department. When contacting support, please have your product model number (6593032) and details of your coffee machine model readily available.
