LG WW184EPB

LG WW184EPB Water Purifier User Manual

Model: WW184EPB

1. INTRODUCTION

The LG WW184EPB Water Purifier is designed to provide pure and healthy drinking water through advanced filtration technologies. This appliance features an 8-liter Dual Protection Stainless Steel Tank, which helps maintain water freshness and inhibits bacterial and algal growth. It incorporates a multi-stage filtration process, including Reverse Osmosis (RO), Ultraviolet (UV), and Ultrafiltration (UF) to effectively remove contaminants. A Mineral Booster adds essential minerals to the purified water. The EverFresh UV Plus system ensures continuous water purity by performing a UV sterilization cycle every six hours. Additionally, the purifier offers a 2-in-1 Water Solution with a secondary valve for hygienic rinsing of fruits and vegetables. A Smart Display provides real-time indicators for filter changes, UV sterilization status, and water levels.

2. SAFETY INFORMATION

Please read all safety instructions before operating the appliance to prevent injury or damage. Keep this manual for future reference.

- Ensure the appliance is installed by a qualified service technician.
- Do not attempt to repair or modify the appliance yourself. Contact authorized service personnel.
- Use only genuine LG replacement parts and filters.
- Do not expose the appliance to direct sunlight, excessive heat, or freezing temperatures.
- Keep children away from the appliance during operation and maintenance.
- Ensure the power cord is not damaged and is properly grounded.

3. SETUP AND INSTALLATION

The LG WW184EPB Water Purifier offers flexible installation options, suitable for both wall mounting and countertop placement. Professional installation is recommended and is often included with the purchase.

3.1 Unpacking and Included Components

Carefully unpack the water purifier and check for all included components:

- 1 x LG WW184EPB Water Purifier Unit
- 1 x User Manual (this document)
- 1 x Tray
- Installation Kit

- Out-Sediment Filter

3.2 Installation Process

For optimal performance and safety, it is highly recommended to utilize the complimentary professional installation service provided by LG. Contact LG customer support to schedule your installation.

3.3 Dimensions

Ensure adequate space for installation, considering the following dimensions:

4. OPERATING INSTRUCTIONS

The LG WW184EPB Water Purifier is designed for user-friendly operation. Once installed and connected to a power source, it will begin the purification process.

4.1 Digital Display and Indicators

The Smart Display on the front of the purifier provides essential information:

- **Water Level Indicator:** Shows the current volume of purified water in the tank.
- **Filter Change Indicator:** Alerts you when filters require replacement.
- **UV Sterilization Status:** Indicates when the EverFresh UV Plus system is active.

Figure 4: Digital display showing operational status.

4.2 Dispensing Purified Water

To dispense drinking water, place a glass or container under the main faucet and activate the dispenser. The purifier's multi-stage filtration ensures clean water:

1. **Step 1:** Pre-filtration removes larger particles.
2. **Step 2:** Sediment and Carbon filtration removes suspended solids, chlorine, and organic chemicals.
3. **Step 3:** RO membrane removes dissolved solids, heavy metals, bacteria, and viruses.
4. **Step 4:** Mineral Booster adds essential minerals and enhances taste.

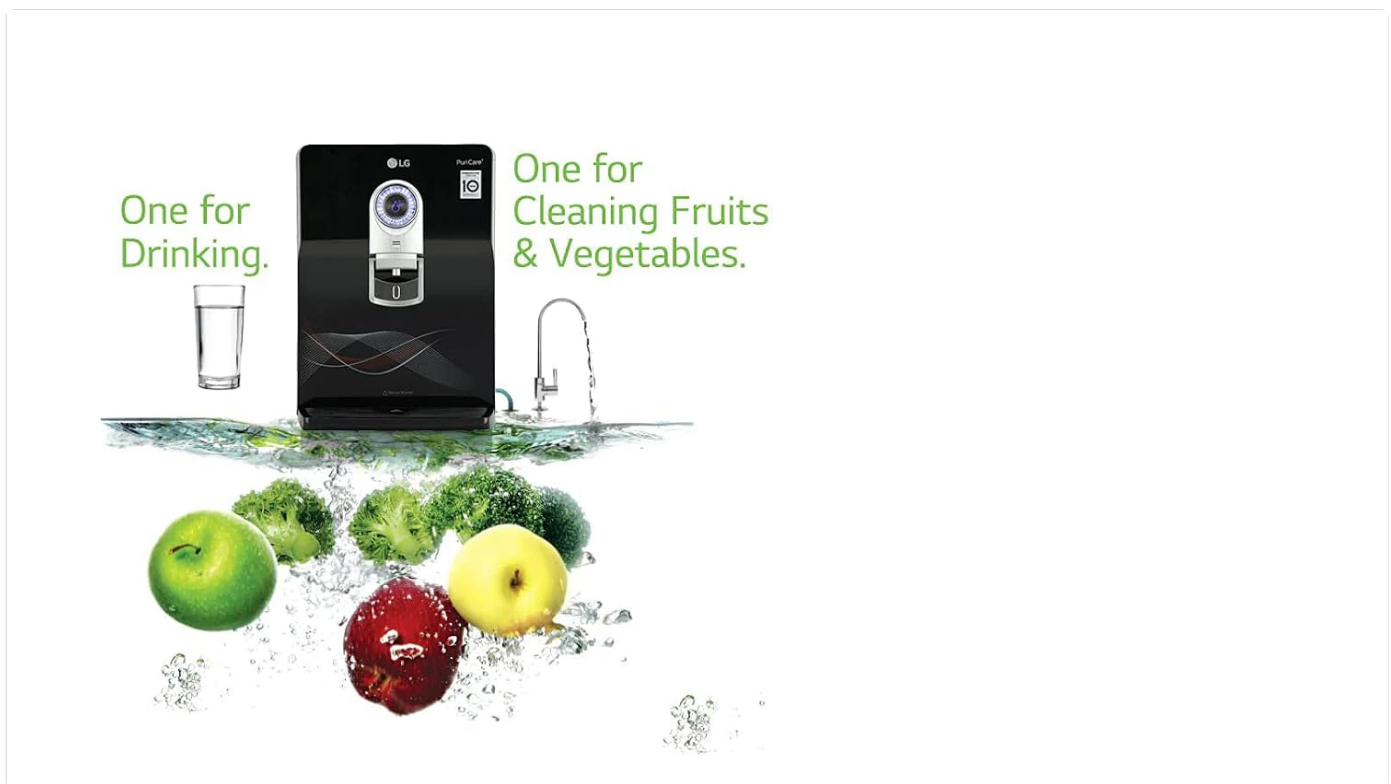

Figure 5: Multi-stage filtration process.

4.3 2-in-1 Water Solution

The purifier includes a secondary valve for a 2-in-1 water solution, providing water suitable for rinsing fruits and vegetables. This feature allows for hygienic cleaning without consuming purified drinking water from the main tank.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your LG WW184EPB Water Purifier.

5.1 Filter Replacement

The Smart Display will indicate when filters need to be replaced. It is crucial to replace filters according to the recommended schedule to maintain water quality. Contact LG customer service for filter replacement or to schedule a

service visit.

5.2 Digital Sterilizing Care

The Digital Sterilizing Care feature automatically cleans and sanitizes the internal water path, including hoses, faucets, and pipes, without the use of harmful chemicals. This process helps maintain hygiene within the system.

5.3 Stainless Steel Tank Care

The 8-liter Dual Protection Stainless Steel Tank is designed to maintain water freshness and inhibit bacterial and algal growth. Periodically, the tank should be inspected and cleaned by a qualified technician as part of routine maintenance.

5.4 True Maintenance Package

Your LG WW184EPB Water Purifier may include a complimentary True Maintenance Package. Refer to your purchase documentation or contact LG customer service for details on scheduled maintenance and service benefits.

6. TROUBLESHOOTING

If you encounter any issues with your water purifier, refer to the following common troubleshooting steps. For problems not listed here or if issues persist, contact LG customer support.

Problem	Possible Cause	Solution
No water dispensing	Power outage, water supply cut off, tank empty, clogged filter.	Check power connection and water supply. Wait for tank to refill. Check filter indicator on display.

Problem	Possible Cause	Solution
Slow water flow	Clogged filters, low water pressure.	Check filter indicator. Ensure adequate water supply pressure.
Unusual taste/odor	Expired filters, new filter installation.	Replace filters if indicated. Flush the system after new filter installation.
Leakage	Loose connections, damaged components.	Turn off water supply and power. Contact service technician immediately.

7. SPECIFICATIONS

Feature	Specification
Model Number	WW184EPB
Capacity	8 Liters
Color	Black
Material	Plastic, Stainless Steel
Filtration Type	RO+UV+UF+Mineral Booster
Installation Type	Wall Mounted
Power Source	Corded Electric
Wattage	40 Watts
Item Weight	10500 Grams
Included Components	1 Water Purifier, User Manual, 1 Tray, Installation Kit & Out-Sediment Filter

8. WARRANTY AND SUPPORT
