OPERATING INSTRUCTIONS

This L-shaped bed system offers versatile functionality.

- **Trundle Bed:** The trundle bed is designed to slide smoothly from underneath one of the main twin beds. Gently pull the trundle out when needed and push it back in for storage. Ensure the area is clear before moving the trundle.
- **Storage Drawers:** The two drawers are located under the main bed frames. Pull them out to access storage space for clothing, toys, or other items. Push them back in fully to keep them neatly tucked away. The drawers can be positioned on either side of the bed during assembly.
- **Built-in Desk/Table:** The central square unit functions as a built-in desk or nightstand. It provides a stable surface for

lamps, books, or personal items.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your bed.

- **Cleaning:** Wipe the wood surfaces with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** Protect the bed from prolonged exposure to moisture or direct sunlight to prevent warping or fading.

TROUBLESHOOTING

If you encounter any issues, refer to the following common solutions.

- **Parts Not Aligning During Assembly:**
Ensure all screws are only finger-tight until all components are loosely assembled. This allows for minor adjustments. Once everything is in place, gradually tighten all hardware.
- **Bed Squeaks:**
Check all bolts and screws for tightness. Loose connections are a common cause of squeaking. Re-tighten any loose hardware.
- **Trundle or Drawers Not Sliding Smoothly:**
Inspect the wheels for any obstructions or debris. Ensure the tracks are clean. Verify that the trundle/drawers were assembled correctly and that the wheels are securely attached.
- **Missing or Damaged Parts:**
If you find any missing or damaged parts upon opening the package, please contact SOFTSEA customer service immediately for assistance.
