WHAT'S IN THE BOX

- 1 x Incipio Duo Series Case for 6.7-Inch iPhone 13 Pro Max, Rose Pink/Powder Blue

INSTALLATION INSTRUCTIONS

Follow these steps to correctly install your Incipio Duo Series Case on your iPhone 13 Pro Max:

1. **Separate the Case Layers:** The Duo Series Case features a two-piece design. Carefully separate the inner soft layer from the outer rigid shell.

2. **Insert Your iPhone:** Place your iPhone 13 Pro Max into the inner soft layer first, ensuring all edges and corners are properly seated.
3. **Attach the Outer Shell:** Align the outer rigid shell with the inner layer and snap it securely into place. Ensure all buttons and ports are accessible and aligned.

KEY FEATURES

- **12 ft. Drop Protection:** The dual-layer design provides superior impact absorption, protecting your device from drops up to 12 feet.
- **Raised-Edge Bezel:** A precisely engineered raised bezel around the screen and camera offers additional protection against scratches and direct impacts when the device is placed face down.
- **Recycled Materials:** Constructed with recycled materials, this case reflects a commitment to environmental responsibility without compromising on durability or protection.

- **Antimicrobial Protection:** The case is treated with an antimicrobial coating that eliminates 99.9% of surface bacteria and germs, contributing to a cleaner device.

CARE AND MAINTENANCE

To keep your Incipio Duo Series Case in optimal condition and ensure its longevity, follow these care instructions:

- **Regular Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust, dirt, and fingerprints. For deeper cleaning, use a mild soap solution and rinse thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the case's finish and antimicrobial properties.
- **Stain Prevention:** While the case is durable, prolonged contact with certain dyes or heavily pigmented materials (e.g., dark denim) may cause staining over time. Clean promptly if such contact occurs.
- **Inspection:** Periodically inspect the case for any signs of wear or damage. If the case is significantly damaged, consider replacing it to ensure continued protection for your device.

SPECIFICATIONS

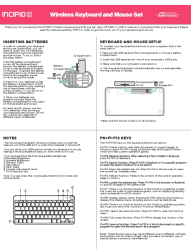

Product Dimensions	3.15 x 0.51 x 6.5 inches
--------------------	--------------------------

Item Weight	2.89 ounces
Item Model Number	IPH-1946-RPNK
Manufacturer	Vinci Brands LLC
Brand	Incipio
Compatible Phone Models	iPhone 13 Pro Max
Color	Multicolor (Rose Pink/Powder Blue)
Material	Plastic

GARMIN MARINE RADAR RADIO STATION APPLICATION AND CONSTRUCTION DESIGN DOCUMENT	
1. PROJECT INFORMATION	1.1 PROJECT NAME: GARMIN MARINE RADAR RADIO STATION APPLICATION AND CONSTRUCTION DESIGN DOCUMENT
2. PROJECT DESCRIPTION	2.1 PROJECT DESCRIPTION: This document provides the application and construction design specifications for a Garmin marine radar radio station, detailing technical parameters, operational requirements, and regulatory compliance information required for radio station licensing and operation.
3. PROJECT OBJECTIVES	3.1 PROJECT OBJECTIVES: The primary objective of this project is to design and construct a marine radar radio station that meets the requirements of the Federal Communications Commission (FCC) and the International Telecommunication Union (ITU) for marine radar radio stations. The secondary objective is to ensure that the station is designed and constructed in accordance with the latest industry standards and best practices.
4. PROJECT SCOPE	4.1 PROJECT SCOPE: The scope of this project includes the design and construction of the marine radar radio station, including the installation of the radar antenna, the radio station, and the associated cabling and equipment. The project also includes the development of the application and construction design specifications, the preparation of the project schedule, and the coordination of the project with the relevant regulatory agencies.
5. PROJECT DELIVERABLES	5.1 PROJECT DELIVERABLES: The deliverables of this project include the application and construction design specifications, the project schedule, the project budget, and the final construction report. The deliverables will be provided to the client in a timely and professional manner.
6. PROJECT RISK ASSESSMENT	6.1 PROJECT RISK ASSESSMENT: The risks associated with this project include the potential for delays in the project schedule, the potential for cost overruns, and the potential for regulatory compliance issues. These risks will be managed through a combination of proactive planning, communication, and risk mitigation strategies.
7. PROJECT CONCLUSION	7.1 PROJECT CONCLUSION: This document provides the application and construction design specifications for a Garmin marine radar radio station, detailing technical parameters, operational requirements, and regulatory compliance information required for radio station licensing and operation. The project is expected to be completed on time and within budget, and the final construction report will be provided to the client.
