SHZSR 12.8" Radio For Lx 2008

SHZSR Android Car Radio Multimedia System User Manual

Model: 12.8" Radio For Lx 2008 | **Brand:** SHZSR
For Lexus LX 570 (2008-2015)

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your SHZSR Android Car Radio Multimedia System. This system is designed to upgrade your Lexus LX 570 (2008-2015) with an intelligent in-car entertainment experience, featuring a 12.8-inch touch screen, built-in CarPlay, HiFi music, GPS navigation, and 4G support. Please read this manual thoroughly before use to ensure proper functionality and safety.

PACKAGE CONTENTS

Before beginning installation, please verify that all components are present in the package:

- Android Car Radio Multimedia System (Main Unit)
- Mounting Base
- Necessary Accessories (cables, adapters, etc.)

SETUP AND INSTALLATION

The SHZSR Android Car Radio Multimedia System is designed for non-destructive, plug-and-play installation. Detailed manual instructions are included with the product. Professional installation is recommended.

Audio Output Configuration for CarPlay/Android Auto

To ensure proper audio output when using CarPlay or Android Auto, follow these steps:

1. **Enable Car's BT Channel:** On the multimedia system, navigate to Settings > System and enable 'Use Car's BT Channel'. Confirm the setting and allow the system to reboot if prompted.
2. **Connect Phone to Multimedia System via Bluetooth:** Pair your smartphone with the multimedia system via Bluetooth. Enter the displayed passkey on your phone to complete the pairing.
3. **Connect CarPlay/Android Auto:** Once Bluetooth is connected, initiate CarPlay or Android Auto connection. After a successful CarPlay/Android Auto connection, the Bluetooth connection to the multimedia system will automatically disconnect.
4. **Connect Phone to Original Car System via Bluetooth:** Enter the original car system's settings (not the Android

system) and connect your phone to the original car's Bluetooth. This is crucial for audio output.

5. **Select Car's Audio Source:** On your car's steering wheel controls or original car system interface, select 'Bluetooth' as the audio source. This will route CarPlay/Android Auto audio through your car's speakers.

OPERATING INSTRUCTIONS

Your SHZSR Multimedia System runs on a mature Android 13 OS, powered by an 8-core CPU with 64GB of RAM, allowing for a wide range of applications and smooth performance.

Key Features and Functions

- **12.8-inch Touch Screen:** Navigate the system with intuitive touch gestures.
- **Built-in Wireless/Wired CarPlay & Android Auto:** Access smartphone apps like navigation, music, and calls directly from the unit.
- **GPS Navigation:** Utilize built-in GPS for accurate navigation, supporting both offline and online maps.
- **4G Network, Wi-Fi, Bluetooth:** Stay connected on the road with various connectivity options.
- **Original System Retention:** The unit retains the original car system's functions, including CD player, 360-degree reversing camera, and original speakers.
- **Steering Wheel Control Support:** Control key functions without taking your hands off the wheel.

Interface Overview

Image: The main interface of the multimedia system, displaying icons for radio, navigation, music, Bluetooth, apps, and settings, along with a digital clock and compass.

Climate Control

The system integrates with your vehicle's climate control. You can adjust temperature, fan speed, and air direction directly from the touch screen.

MAINTENANCE

To ensure the longevity and optimal performance of your SHZSR Android Car Radio Multimedia System, consider the following maintenance tips:

- **Screen Cleaning:** Use a soft, lint-free cloth specifically designed for electronics to clean the touch screen. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check for system software updates to ensure you have the latest features,

performance enhancements, and security patches. Updates can typically be found in the system settings.

- **Avoid Extreme Temperatures:** Protect the unit from prolonged exposure to extreme heat or cold, which can affect electronic components.
- **Gentle Handling:** While durable, avoid excessive force on the touch screen or physical buttons.

TROUBLESHOOTING

If you encounter issues with your multimedia system, refer to the following common troubleshooting steps:

- **No Sound from CarPlay/Android Auto:** Refer to the "Audio Output Configuration" section under Setup and Installation. Ensure your phone is connected to the **original car's Bluetooth** and the car's audio source is set to Bluetooth.
- **System Unresponsive:** Try restarting the system. If the issue persists, a factory reset may be necessary (Settings > System > Factory Reset). Note that a factory reset will erase all user data and settings.
- **GPS Signal Issues:** Ensure the GPS antenna is properly installed and has a clear line of sight to the sky. Check your navigation app settings.
- **Connectivity Problems (Wi-Fi/4G):** Verify network settings and ensure proper signal strength. For 4G, ensure a valid SIM card is inserted (if applicable) and data plan is active.

For persistent issues not resolved by these steps, please contact SHZSR customer support.

SPECIFICATIONS

Detailed technical specifications for the SHZSR Android Car Radio Multimedia System:

Feature	Specification
Item Weight	11.88 pounds
Package Dimensions	23 x 12.5 x 12 inches
Item Model Number	12.8" Radio For Lx 2008
Display Size	12.8 Inches
