ELS PET MSP01

ELS PET Replaced Waste Bags User Manual

Model: MSP01

INTRODUCTION

This manual provides instructions for the proper use and maintenance of ELS PET Replaced Waste Bags. These polyethylene bags are designed for use with compatible automatic cat litter boxes, offering reliable strength and minimizing odors for efficient waste disposal.

SETUP

Follow these steps to prepare your ELS PET waste bags for use:

1. **Unpack the Bags:** Carefully remove the rolls of waste bags from their packaging. Each pack contains two rolls, with 60 bags per roll.
2. **Locate the Dispenser:** Identify the waste receptacle or dispenser within your compatible automatic cat litter box.
3. **Insert a Roll:** Place one roll of ELS PET waste bags into the designated compartment of your litter box's waste dispenser. Ensure the bags can unroll smoothly.
4. **Pull First Bag:** Pull the first bag from the roll and align it within the waste receptacle according to your litter box's specific instructions. Ensure the bag fully lines the receptacle to prevent waste leakage.

CAT LITTER BOX

Dedicated garbage bags

OPERATING INSTRUCTIONS

These waste bags are designed to work seamlessly with your ELS PET automatic cat litter box. The litter box will automatically deposit waste into the bag.

- **Automatic Operation:** Once installed, the automatic litter box will cycle and deposit soiled litter into the waste bag as designed.
- **Monitoring Bag Fullness:** Regularly check the waste receptacle of your litter box. The frequency of bag changes will depend on the number of cats and their usage.
- **Removing a Full Bag:** When the bag is full, follow your litter box's instructions to access the waste compartment. Carefully pull the full bag out. The polyethylene material offers reliable strength to prevent tearing.
- **Sealing and Disposal:** Gather the top edges of the bag and tie a knot to seal the contents securely. Dispose of the sealed bag according to local waste disposal regulations.
- **Replacing the Bag:** After removing a full bag, pull a new bag from the roll and position it correctly in the waste receptacle, ready for the next cycle.

MAINTENANCE

Maintaining your ELS PET waste bags primarily involves proper handling and timely replacement:

- **Storage:** Store unused rolls of waste bags in a cool, dry place away from direct sunlight and extreme temperatures to preserve their integrity.
- **Regular Replacement:** Do not overfill the bags. Replace them as soon as they are full to prevent odors and potential tearing.
- **Cleanliness:** Ensure the waste receptacle of your litter box is clean before inserting a new bag to maintain hygiene.

TROUBLESHOOTING

Here are some common issues and their solutions:

Problem	Possible Cause	Solution
Bag does not fit the receptacle.	Incorrect bag size or model.	Ensure you are using ELS PET waste bags specifically designed for your automatic cat litter box model. Refer to your litter box manual for compatible bag specifications.
Bag tears during removal.	Bag is overfilled or snagged.	Do not overfill the bag. Replace it before it becomes too heavy. Ensure there are no sharp edges or obstructions in the waste compartment that could snag the bag.
Odor leakage.	Bag not sealed properly or overfilled.	Ensure the bag is securely tied and sealed before disposal. Replace bags more frequently if odor is an issue.

SPECIFICATIONS

Brand: ELS PET

Model Number: MSP01

Material: Polyethylene

Color: Black

Item Form: Bag

Scent: Unscented

Unit Count: 120.0 Count (60 Count per pack, 2 packs)

Item Weight: 5.6 ounces

Product Dimensions (L x W x H): 23.62 x 23.62 x 19.69 inches

Recommended Uses: Animal Waste

Material Feature: Disposable

UPC: 793565727092
