SPIDERCASE SP-BOX iP12 6.1

SPIDERCASE Protective Case for iPhone 12 and iPhone 12 Pro

Model: SP-BOX iP12 6.1

INTRODUCTION

This manual provides instructions for the installation and care of your SPIDERCASE protective case, designed specifically for the iPhone 12 and iPhone 12 Pro (6.1-inch models). This product offers robust protection against drops and includes two tempered glass screen protectors for comprehensive device safeguarding.

PACKAGE CONTENTS

- 1 x SPIDERCASE Protective Case for iPhone 12/12 Pro
- 2 x Tempered Glass Screen Protectors

Includes 2 Screen Protectors

Image: A visual representation of the two tempered glass screen protectors included with the case, highlighting features such as triple strength, scratch resistance, smudge resistance, easy installation, bubble-free application, and shatter resistance.

SETUP INSTRUCTIONS

1. Installing the Tempered Glass Screen Protector

1. Ensure your iPhone screen is clean and free of dust or smudges. Use a microfiber cloth for best results.
2. Carefully align the tempered glass screen protector with your iPhone screen, ensuring the cutouts for the speaker and sensors match.
3. Gently place the screen protector onto the screen. It will adhere automatically.
4. If any small bubbles remain, gently push them towards the edges of the screen using a soft cloth.

2. Installing the Protective Case

The SPIDERCASE features a 2-layer structure for enhanced protection:

- **Inner Layer:** Flexible rubber for shock absorption.
- **Outer Layer:** Hard polycarbonate for impact resistance.

360° All-ROUND PROTECTION

Image: An exploded diagram illustrating the dual-layer design of the SPIDERCASE, consisting of a soft rubber interior and a hard outer cover, alongside the tempered glass screen protector.

1. Separate the flexible rubber inner cover from the hard polycarbonate outer cover.
2. Place your iPhone into the flexible rubber inner cover, ensuring all edges and corners are securely fitted.
3. Align the rubber-covered iPhone with the hard polycarbonate outer cover and snap them together firmly until the case is fully assembled around your device.

OPERATING INSTRUCTIONS

Daily Use

- The case provides precise cutouts for all ports, buttons, sensors, and cameras, allowing full functionality without removal.
- The unique ergonomic design ensures buttons remain sensitive and easy to press.
- The skin-friendly frosted material offers a comfortable grip and helps prevent fingerprint marks from sweat.

HOLD THE TOUGH

Light and flexible
for a smooth touch,
stay your hands cool

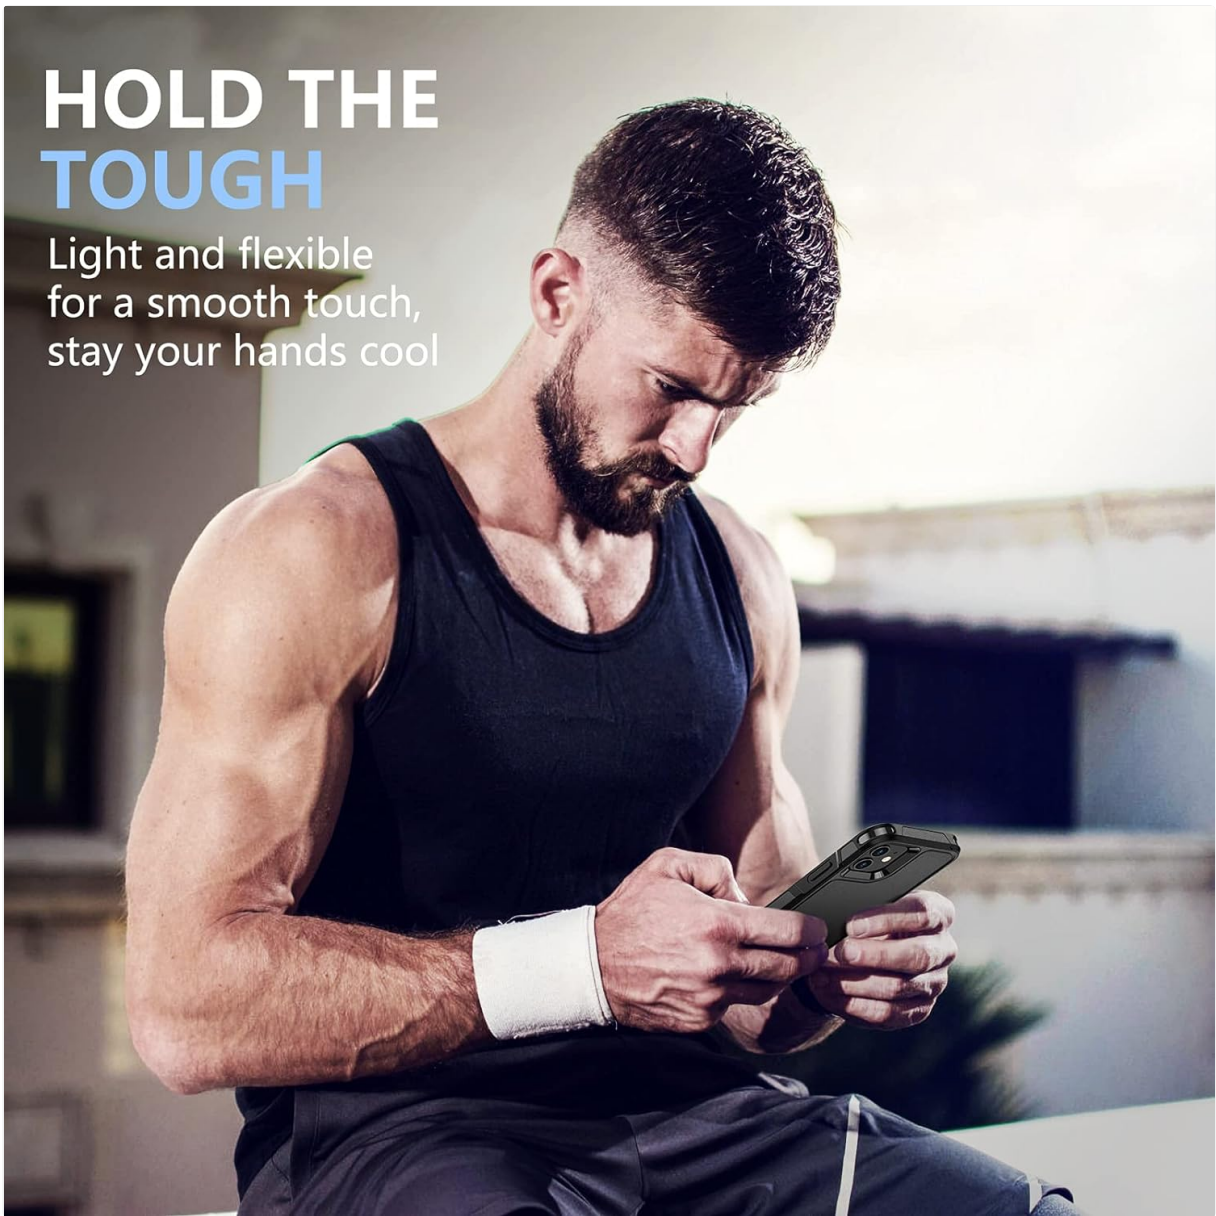

Image: A person holding an iPhone 12/12 Pro equipped with the SPIDERCASE, illustrating the comfortable and secure grip provided by the case's design.

Wireless Charging

The SPIDERCASE is designed to be compatible with wireless charging. You do not need to remove the case to charge your iPhone wirelessly.

MAINTENANCE

Cleaning the Case

- To clean the case, remove it from your iPhone.
- Wipe the case with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used.
- Ensure the case is completely dry before re-installing it on your iPhone.

Cleaning the Screen Protector

- Use a microfiber cloth to gently wipe the screen protector.
- For smudges, a screen cleaner spray designed for electronics can be applied to the cloth (not directly to the screen).

TROUBLESHOOTING

Difficulty Removing the Case

The case is designed for a snug fit to ensure maximum protection. If you find it difficult to remove, gently pry open one corner of the hard outer shell, then carefully separate the rubber inner layer from your phone.

Screen Protector Bubbles

If bubbles appear after installation, try gently lifting the nearest edge of the screen protector and reapplying it, pushing the bubble out with a soft cloth as you lay it back down. Ensure the screen is dust-free before reapplication.
