Napoleon PRO285X-MK-PHM

Napoleon PHANTOM TravelQ Portable PRO Propane Gas Grill

Model: PRO285X-PHM

Brand: Napoleon

INTRODUCTION

This manual provides essential information for the safe and efficient operation, assembly, and maintenance of your Napoleon PHANTOM TravelQ Portable PRO Propane Gas Grill. Please read this manual thoroughly before using the grill for the first time and keep it for future reference.

The Napoleon PHANTOM TravelQ PRO285X-PHM is a portable propane gas grill designed for versatile outdoor cooking. It features a matte black finish, a high-top lid, and two stainless steel burners, making it suitable for various grilling tasks from hamburgers to larger roasts. Its folding scissor cart with all-terrain wheels ensures easy transport and compact storage.

SAFETY INFORMATION

WARNING: For outdoor use only. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

DANGER: If you smell gas:

1. Shut off gas to the appliance.
2. Extinguish any open flame.
3. Open lid.
4. If odor continues, keep away from the appliance and immediately call your gas supplier or fire department.

Always ensure proper ventilation and keep the grill away from combustible materials. Never leave the grill unattended while in use. Keep children and pets away from the grill during operation.

ASSEMBLY AND SETUP

The Napoleon PHANTOM TravelQ PRO285X-PHM is designed for straightforward assembly and portability. Follow these general guidelines for setup:

- **Unpacking:** Carefully remove all components from the packaging. Verify all parts are present according to the packing list.
- **Scissor Cart Assembly:** The unique 'X' design of the cart provides stability. Assemble the cart according to the included diagrams, ensuring all locking mechanisms are engaged. The large, all-terrain wheels facilitate easy mobility.
- **Grill Head Placement:** Securely attach the grill head to the assembled scissor cart.
- **Propane Connection:** Connect the grill to a propane tank. This model supports both large propane tanks and small camping-size propane tanks. Ensure all connections are tight and check for leaks using a soapy water solution before lighting.
- **Side Shelves:** Extend the side shelves for additional workspace. These are part of the stylish matte black finish.

OPERATING INSTRUCTIONS

Your Napoleon PHANTOM TravelQ grill is equipped with features for optimal cooking performance.

- **Ignition (JETFIRE IGNITION):** To light the grill, ensure the propane tank is connected and open. Turn the burner control knob to the HIGH position and press the JETFIRE ignition button. If the burner does not light within 5 seconds, turn the knob to OFF, wait 5 minutes, and repeat the process.
- **Temperature Control (Two Burners):** The grill features two separate burners, allowing for precise temperature control. You can use both burners for direct high-heat searing or one burner for indirect cooking, ideal for roasting or smoking. Adjust the control knobs to achieve desired heat levels.
- **Cooking Grates (Cast Iron):** The iconic cast iron cooking grids provide even heat distribution and create distinctive sear marks. Preheat the grill for 10-15 minutes before placing food on the grates.
- **High-Top Lid:** The high-top lid provides ample space for gourmet grilling, accommodating larger items like roasts, whole chickens, or turkeys.
- **Hinged Warming Rack:** Utilize the included warming rack for keeping cooked food warm or for additional cooking space. Its hinged design allows it to flip back for full access to the main cooking

grids when not in use.

- **Wind-Proof Design:** The grill's design ensures optimal airflow and consistent flame, even in windy conditions, preventing interruptions during cooking.

MAINTENANCE AND CARE

Regular maintenance ensures the longevity and performance of your grill.

- **Cleaning Grates:** After each use, while the grates are still warm, use a grill brush to remove food residue. For deeper cleaning, remove grates and wash with warm soapy water.
- **Exterior Cleaning:** Wipe down the matte black exterior with a damp cloth and mild detergent. Avoid abrasive cleaners that could damage the finish.

- **Grease Tray:** Regularly check and clean the grease tray to prevent flare-ups and maintain hygiene.
- **Storage:** When not in use, especially for extended periods, store the grill in a dry, protected area. The compact design allows it to be tucked away, stand upright, or even hang for easy storage. Disconnect the propane tank before storing.

TROUBLESHOOTING

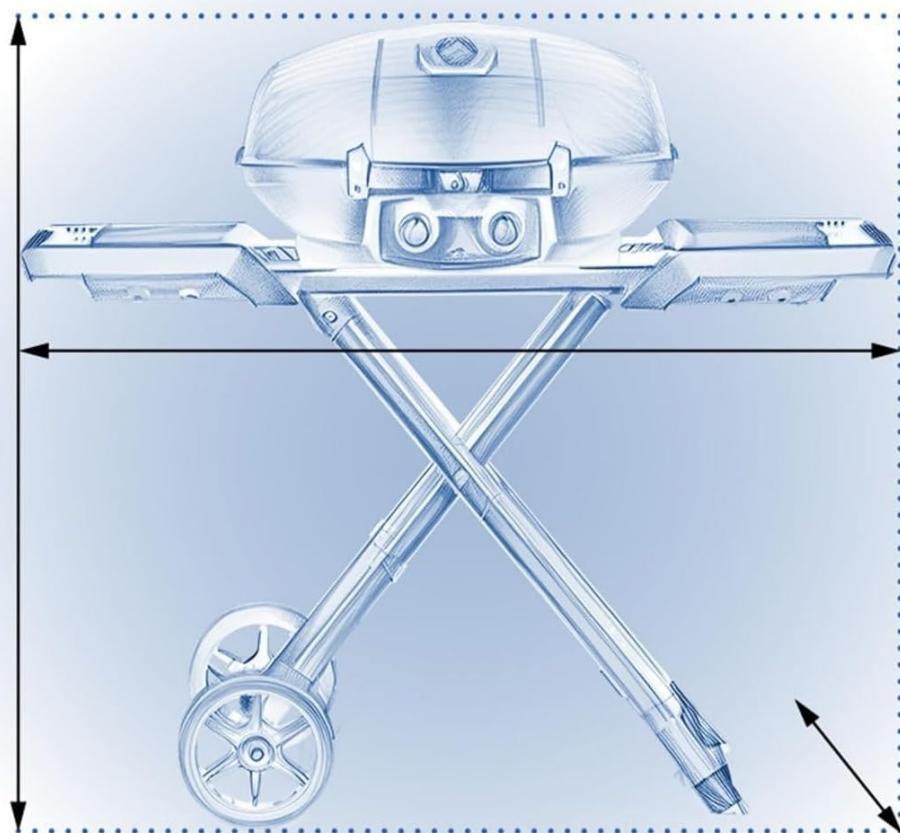

If you encounter issues with your grill, refer to the following common troubleshooting tips:

- **Burner Not Lighting:**
 - Check propane tank level.
 - Ensure propane tank valve is fully open.
 - Verify gas hose connections are secure and not kinked.
 - Inspect igniter electrode for damage or blockage.
- **Uneven Heating:**
 - Clean cooking grates and burner ports to remove debris.
 - Ensure burners are properly seated.
- **Low Flame:**
 - Check for propane tank "bypass" mode (occurs if valve opened too quickly). Close tank valve, disconnect, wait 30 seconds, reconnect, and open slowly.
 - Verify sufficient gas in the tank.

For persistent issues or complex repairs, contact Napoleon customer support or a qualified service technician.

PRODUCT SPECIFICATIONS

**HEIGHT
39.75"**

**WIDTH
44.25"**

**DEPTH
20.25"**
