Aipsun GW-1136

Aipsun Black Vanity Light Instruction Manual

Model: GW-1136

Brand: Aipsun

1. Introduction

Thank you for choosing the Aipsun Black Vanity Light. This 3-light farmhouse style fixture with clear glass shades is designed to enhance your bathroom space with both functionality and aesthetic appeal. This manual provides essential information for safe installation, proper operation, and effective maintenance of your new lighting fixture. Please read all instructions carefully before beginning installation.

2. Important Safety Instructions

- **WARNING:** To avoid electric shock, ensure power is turned off at the circuit breaker or fuse box before installation, servicing, or changing bulbs.
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Use only with E26 base bulbs. Do not exceed the maximum wattage of 60W per socket (total 180W for 3-light fixture).
- Always handle glass components with care to prevent breakage.
- This fixture is designed for indoor use only. Do not install in wet or damp locations.
- If you are unsure about any part of the installation process, consult a qualified electrician.

3. Package Contents

Please verify that all parts are included before beginning assembly:

- Light Fixture Body (1)
- Clear Glass Shades (3)
- Mounting Hardware Kit (includes mounting bracket, screws, wire nuts) (1 set)
- Instruction Manual (1)

Note: Bulbs and dimmer switch are not included.

5. Setup and Installation

Follow these steps for proper installation. It is recommended to have two people for installation.

1. **Turn Off Power:** Before starting, ensure the power supply to the installation area is completely turned off at the circuit breaker or fuse box.
2. **Attach Mounting Bracket:** Secure the mounting bracket to the electrical junction box in your wall using the provided screws. Ensure it is firmly attached.
3. **Wire Connections:** Connect the fixture's wires to your household electrical wires. Typically, connect the black wire from the fixture to the black (live) wire from the wall, the white wire from the fixture to the white (neutral) wire from the wall, and the ground wire from the fixture to the ground wire from the

wall. Use wire nuts to secure connections.

4. **Mount Fixture Body:** Carefully align the fixture body with the mounting bracket and secure it with the provided screws. The fixture can be installed with the lights facing upwards or downwards.
5. **Install Glass Shades:** Gently slide each clear glass shade over its respective socket and secure it according to the fixture design (e.g., with a retaining ring or screws).
6. **Insert Bulbs:** Screw E26 base bulbs (not included) into each socket. Ensure bulbs do not exceed 60W per socket.
7. **Restore Power:** Once installation is complete and all components are secure, restore power at the circuit breaker.

The fixture is designed for easy installation, as shown in the image below, and features a high-quality aluminum cover for durability.

6. Operating Instructions

The Aipsun Black Vanity Light is operated via a standard wall switch (not included). Once installed and power is restored, simply toggle your wall switch to turn the light on or off.

This fixture is dimmable when used with dimmable E26 bulbs and a compatible dimmer switch (both sold separately). To utilize the dimming feature, ensure you have both a dimmable bulb and a dimmer switch installed in your electrical system.

7. Maintenance

Regular maintenance will help preserve the appearance and functionality of your Aipsun vanity light.

- **Cleaning:** To clean the fixture, first ensure the power is off. Wipe the metal parts with a soft, dry cloth. For the glass shades, use a mild glass cleaner and a soft cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- **Bulb Replacement:** Always turn off the power before replacing bulbs. Allow old bulbs to cool before removing. Screw in new E26 base bulbs, ensuring they do not exceed the maximum wattage.
- **Inspection:** Periodically check all connections and mounting hardware to ensure they remain secure.

8. Troubleshooting

If you encounter issues with your vanity light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Light does not turn on	No power to fixture Loose wiring connection Faulty bulb	Check circuit breaker/fuse. Ensure all wire connections are secure (power off first). Replace bulb.
Light flickers	Loose bulb Incompatible dimmer/bulb Loose wiring	Tighten bulb. Ensure dimmable bulbs are used with a compatible dimmer. Check wire connections (power off first).
Glass shade is broken or damaged	Accidental damage Shipping damage	Contact Aipsun customer service for replacement.
