PRUNUS J-985

PRUNUS J-985 AM FM Pocket Radio Instruction Manual

Model: J-985

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your PRUNUS J-985 AM FM Pocket Radio. Please read this manual thoroughly before using the device and retain it for future reference.

PRODUCT OVERVIEW

The PRUNUS J-985 is a compact AM/FM pocket radio designed for portability and ease of use. It features a high-quality DSP chip for stable signal reception and operates on AAA batteries.

Image: Front and side view of the PRUNUS J-985 radio, highlighting its key components such as the earphone jack, power switch, tuning dial, volume control, band switch, and power indicator light.

Key Components:

- **ON/OFF Switch:** Powers the radio on or off.
- **Tuning Wheel:** Adjusts the radio frequency to find stations.
- **Volume Wheel:** Controls the audio output level.
- **Band Switch (AM/FM/FM-ST):** Selects between AM, FM, and FM Stereo modes.
- **3.5mm Earphone Jack:** For connecting earphones. The earphone wire also functions as the FM antenna.
- **Power Indicator:** Lights up when the radio is on.
- **Back Clip:** For attaching the radio to clothing or a pocket.

SETUP

1. Battery Installation

1. Locate the battery compartment cover on the back of the radio.
2. Slide or open the cover.
3. Insert two (2) AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

Note: Low battery levels can affect radio signal reception. Replace batteries when performance degrades or when the radio makes excessive hiss.

BATTERY OPERATED

Perfect for Travel and Emergency Use

Two AAA batteries supported, last for 37 hours.

Test: 1/3 Volume  + FM Mode  + 2 AAA Batteries 

Image: The PRUNUS J-985 radio next to two AAA batteries, demonstrating its battery-operated nature and indicating a battery life of approximately 37 hours.

2. Connecting Earphones

Insert your 3.5mm earphones into the earphone jack. The earphone wire serves as the antenna for FM reception, so ensure it is extended for optimal signal quality.

OPERATING INSTRUCTIONS

1. Power On/Off

Slide the **ON/OFF** switch to the "ON" position to power on the radio. The power indicator light will illuminate. Slide the switch to "OFF" to power off the radio.

2. Selecting a Band (AM/FM/FM-ST)

Use the **Band Switch** to select your desired frequency band:

- **AM:** For Amplitude Modulation broadcasts.
- **FM:** For Frequency Modulation broadcasts.
- **FM-ST:** For FM Stereo broadcasts, providing rich stereo sound through earphones.

3. Tuning to a Station

Gently rotate the **Tuning Wheel** to scan for radio stations. The frequency dial will indicate the current frequency. Stop rotating when you find a clear signal.

The image shows a person holding a black PRUNUS J-985 portable radio. The radio has a digital display showing 'FM 108' and 'AM 171'. A text overlay in the top left corner reads 'DSP Powerful DSP Chip'. A text box on the right says 'Earphone Wire Working as an Antenna'. The background is a blurred indoor setting. Below the image, a dark banner contains the text 'EXCELLENT RECEPTION' and 'AM: 530 - 1710KHz; FM: 87 - 108MHz'.

Earphone Wire Working as an Antenna

EXCELLENT RECEPTION

AM: 530 - 1710KHz; FM: 87 - 108MHz

Image: A user holding the PRUNUS J-985 radio, demonstrating how the earphone wire acts as an antenna for enhanced reception across AM (530-1710KHz) and FM (87-108MHz) frequencies.

4. Adjusting Volume

Rotate the **Volume Wheel** up or down to increase or decrease the audio output level.

5. FM Stereo Mode

When the band switch is set to **FM-ST** and earphones are connected, the radio will deliver stereo sound. This mode is ideal for personal listening experiences.

MAINTENANCE

1. Battery Replacement

Replace batteries promptly when the radio's performance declines or when the sound becomes distorted with excessive hiss. Always use two new AAA batteries.

2. Cleaning

Wipe the radio's exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the surface.

3. Storage

If the radio will not be used for an extended period, remove the batteries to prevent leakage and potential damage to the device. Store in a cool, dry place.

TROUBLESHOOTING

- **No Power:**
 - Check if the ON/OFF switch is in the "ON" position.
 - Ensure batteries are inserted correctly with proper polarity.
 - Replace old or depleted batteries with new ones.
- **Poor Reception/Static:**
 - Extend the earphone wire fully, as it acts as the FM antenna.
 - Try repositioning the radio or moving to an open area.
 - Ensure batteries are not low, as low battery can affect signal quality.
 - For AM reception, rotate the radio for best signal.
- **No Sound:**
 - Check if earphones are properly plugged into the jack.
 - Adjust the volume wheel.
 - Ensure the radio is tuned to an active station.

SPECIFICATIONS

Model	J-985
Frequency Range	AM: 530-1710KHz, FM: 87-108MHz
Power Source	2 x AAA Batteries
Dimensions (L x W x H)	Approximately 86.8mm x 41.9mm x 18.1mm (3.42 x 1.65 x 0.71 inches)
Weight	Approximately 40g (without batteries)
Included Components	PRUNUS J-985 Radio, Earphones, Back Clip
Connectivity Technology	Wired (Earphone)

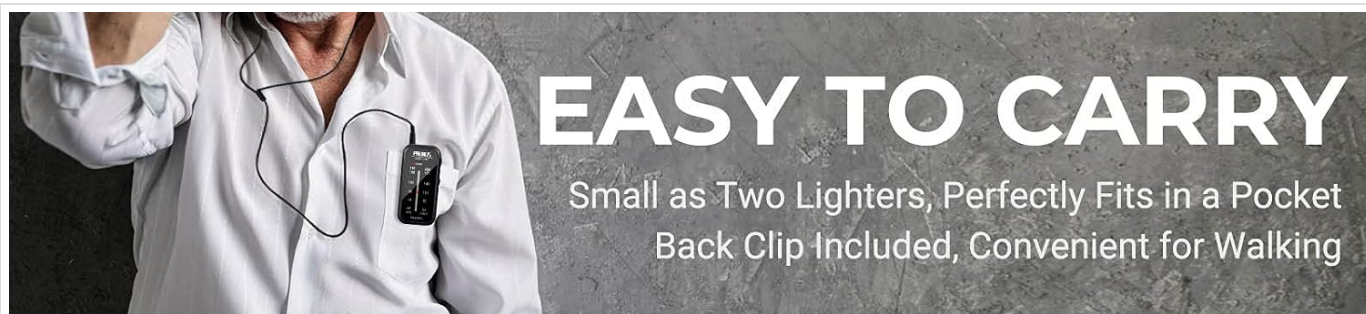

Image: The PRUNUS J-985 radio displayed with its compact dimensions (86.8mm height, 41.9mm width, 18.1mm depth) and light weight (39.2g), illustrating its pocket-sized design.
