## Kacoomi B09DYB6BKT

# Kacoomi Automatic Pet Feeder and Water Dispenser User Manual

Model: B09DYB6BKT

## PRODUCT OVERVIEW

The Kacoomi Automatic Dog Cat Feeder and Water Dispenser set provides a convenient and reliable solution for feeding and watering your small to medium-sized pets. This gravity-fed system ensures a continuous supply of food and water, allowing you peace of mind when you are away.

The set includes one automatic food feeder and one automatic water dispenser, both designed for ease of use and durability. Each unit features a large 3.8L capacity, capable of supplying food for approximately 7 days for small pets or 3 days for larger pets. Constructed from 100% new material, these dispensers are resistant to drops and pressure, ensuring long-lasting performance.

Key features include a leak-proof spiral and spring valve design for the water dispenser, transparent storage bottles for easy monitoring of food and water levels, and non-slip rubber feet on the base for secure placement.

## COMPONENTS

Your Kacoomi Automatic Pet Feeder and Water Dispenser set includes the following components:

- 1 x Automatic Pet Food Feeder (with transparent food storage bottle and base)
- 1 x Automatic Pet Water Dispenser (with transparent water bottle and base)
- Instruction Manual (this document)

## SETUP INSTRUCTIONS

### Setting up the Food Feeder:

1. **Open the lid:** Remove the top lid from the food storage bottle.
2. **Fill the bucket with food:** Pour dry pet kibble into the transparent food storage bottle.
3. **Secure the lid:** Place the lid back onto the food storage bottle securely.
4. **Place on base:** Position the filled food storage bottle onto its designated base. The food will automatically dispense into the bowl as needed.

### Setting up the Water Dispenser:

1. **Fill the bucket with water:** Unscrew the cap from the water bottle and fill it with clean water.
2. **Screw the cap:** Securely screw the cap back onto the water bottle. Ensure it is tight to prevent leaks.
3. **Fixed on the base:** Invert the filled water bottle and carefully place it onto its designated base. The spiral and spring valve design will ensure water flows into the bowl as the level drops, without leaking.

## *How to use the food dispenser?*

1. Open the lid

2. Fill the bucket with food

3. The food will fall automatically

## *How to use the water dispenser?*

1. Fill the bucket with water,  
Screw the cap

2. Fixed on the base

3. The water will flow out  
automatically

## **OPERATING INSTRUCTIONS**

The Kacoomi Automatic Pet Feeder and Water Dispenser operate on a simple gravity-feed mechanism, requiring no electricity or batteries. Once set up and filled, they will automatically replenish the food and water bowls as your pet consumes them.

- Ensure the food and water bottles are always adequately filled to maintain a continuous supply for your pet.
- Place the feeders on a stable, level surface to prevent tipping. The non-slip rubber feet will help secure them in place.
- Monitor your pet's consumption to understand how frequently you need to refill the dispensers.

## MAINTENANCE AND CLEANING

Regular cleaning is essential to maintain hygiene and ensure the longevity of your pet feeders. The Kacoomi dispensers are designed for easy cleaning.

- **Disassembly:** Separate the food and water bottles from their respective bases.
- **Empty Contents:** Empty any remaining food or water.
- **Hand Wash Only:** Wash all components (bottles and bases) by hand using mild soap and warm water. Do not use abrasive cleaners or put them in a dishwasher.
- **Rinse Thoroughly:** Rinse all parts thoroughly to remove any soap residue.
- **Dry Completely:** Allow all components to air dry completely before reassembling and refilling to prevent mold or bacterial growth.
- **Frequency:** It is recommended to wash the feeders once a week to ensure optimal cleanliness for your pet.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Food not dispensing	Kibble is stuck or too large; feeder is not level.	Gently shake the feeder to dislodge food. Ensure feeder is on a flat surface. Use appropriate size kibble for gravity feeders.
Water not dispensing	Water bottle not seated correctly; valve is blocked.	Remove and re-seat the water bottle firmly onto the base. Check the spring valve for any obstructions and clean if necessary.
Water dispenser is leaking	Cap not tightened properly; bottle not seated correctly on base.	Ensure the cap on the water bottle is screwed on tightly. Verify the water bottle is correctly and firmly seated on its base.
Feeder/Dispenser tips over easily	Not on a stable surface; non-slip feet are missing or damaged.	Place the unit on a firm, level surface. Check that all non-slip rubber feet are intact on the bottom of the base.

## SPECIFICATIONS

- **Brand:** Kacoomi
- **Model:** B09DYB6BKT
- **Material:** Polyethylene Terephthalate, Rubber
- **Color:** Green
- **Capacity:** 3.8 Liters (each dispenser)
- **Item Dimensions (LxWxH):** Approximately 12 x 6.7 x 12.6 inches (each unit)
