AONBOY F1-SS4

AONBOY F1-SS4 Stainless Steel Cat Water Fountain with Food Bowl and Mat User Manual

Model: F1-SS4 | Brand: AONBOY

INTRODUCTION

Thank you for choosing the AONBOY F1-SS4 Stainless Steel Cat Water Fountain. This automatic pet water dispenser is designed to provide fresh, filtered water for your pets, promoting hydration and health. It features a durable stainless steel construction, an integrated food bowl, a silicone mat for cleanliness, and a quiet operation with a night light. Please read this manual carefully before use to ensure proper setup, operation, and maintenance.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not immerse the power adapter or plug in water or other liquids.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Always unplug the appliance when not in use, before putting on or taking off parts, and before cleaning.
- Do not allow children to play with or around the water fountain.
- Use only attachments recommended or sold by the manufacturer.
- Do not use the appliance for anything other than its intended use.
- Ensure the power cord is placed where it cannot be tripped over or pulled by pets.
- For indoor use only.

PACKAGE CONTENTS

Please check the package to ensure all components are present:

- Stainless Steel Water Fountain Body
- Water Pump with USB Cable

- Filter Tray
- Activated Carbon Filter (pre-installed or separate)
- Silicone Mat with Food Bowl Slot
- Stainless Steel Food Bowl
- Flower Spout (optional attachment)
- User Manual

PRODUCT OVERVIEW

The AONBOY F1-SS4 combines a water fountain and a food bowl on a convenient silicone mat. Its stainless steel construction ensures durability and hygiene, while the multi-layer filtration system provides clean drinking water. The quiet pump and integrated night light enhance the user experience for both pets and owners.

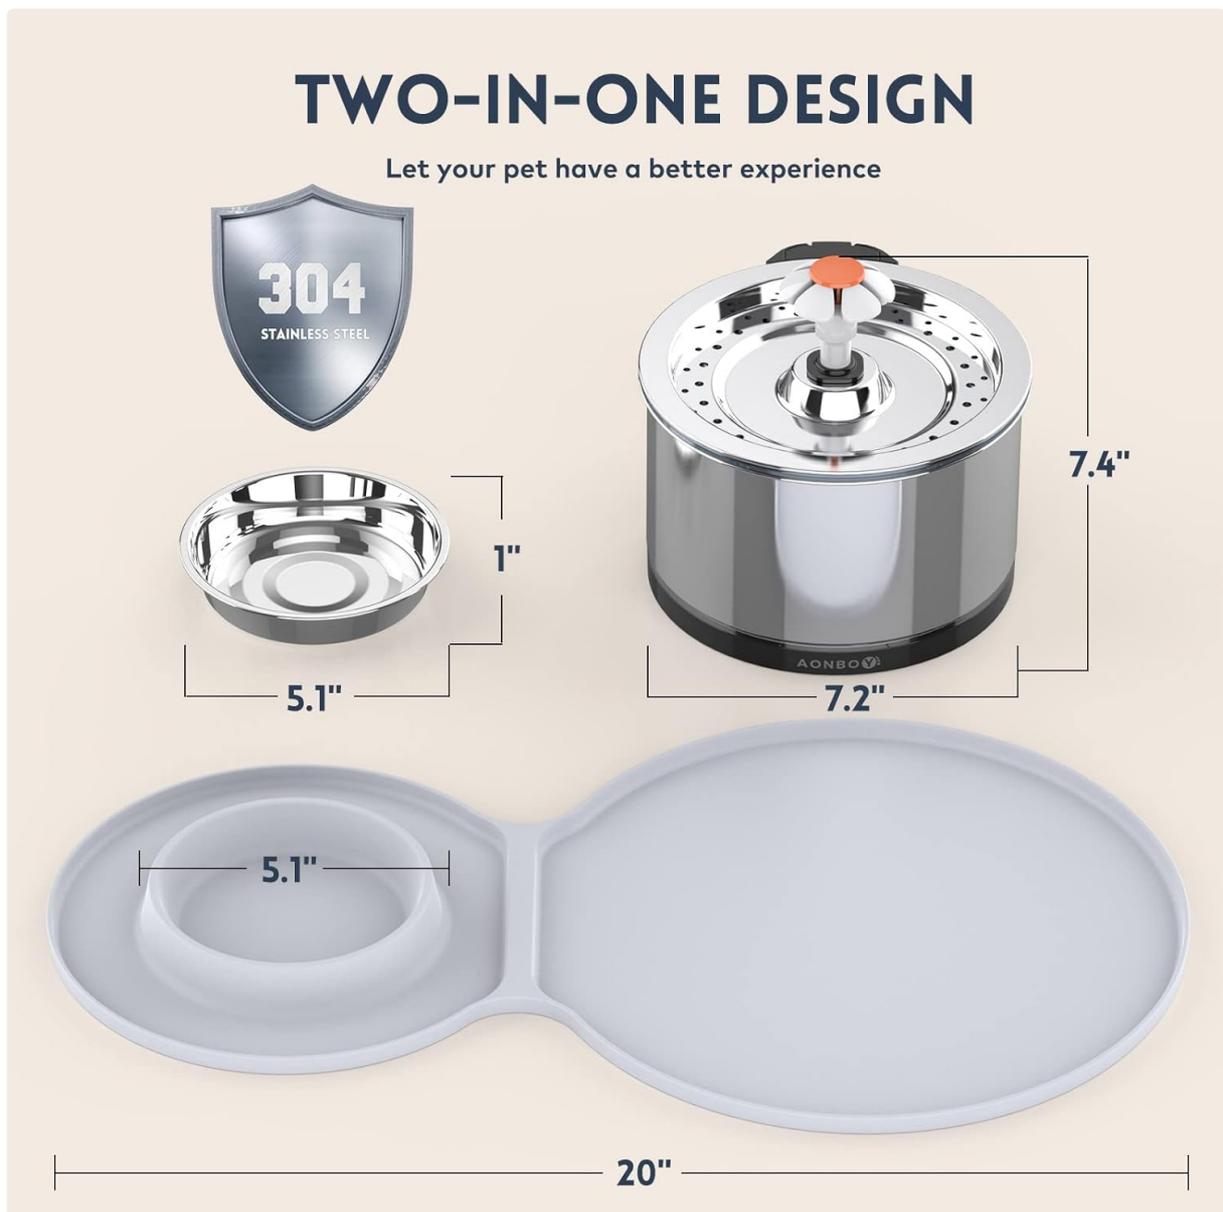

Image: Product dimensions for the AONBOY F1-SS4 water fountain, food bowl, and silicone mat. The fountain is 7.2 inches wide and 7.4 inches high. The food bowl is 5.1 inches wide and 1 inch deep. The entire mat is 20 inches long.

DESIGN OF ANTI-OVERFLOW & WATERPROOF

Image: A white cat drinking from the AONBOY F1-SS4 water fountain, which is integrated with a food bowl and a silicone mat. The image emphasizes the anti-overflow and waterproof design of the product, showing water droplets contained on the mat.

SAFE, QUIET AND COMFORTABLE SLEEP

Night Light

Low Consumption

Image: A small dog sleeping comfortably in a pet bed next to the AONBOY F1-SS4 water fountain, which emits a soft blue night light. The image highlights the fountain's ultra-quiet operation (less than 30dB) and low power consumption, ensuring a comfortable environment for pets.

SETUP INSTRUCTIONS

- Clean Components:** Before first use, wash all parts of the fountain (stainless steel bowl, filter tray, silicone mat, food bowl) with mild soap and water. Rinse thoroughly.
- Prepare Filter:** Remove the activated carbon filter from its packaging. Rinse the filter under running water for several minutes to remove any loose carbon dust. This is crucial for optimal filtration.

Your browser does not support the video tag.

Video: This video demonstrates the composition of the filter, showing its layers of cotton, activated carbon, and ion exchange resin. It also shows how to prepare the filter by rinsing it before use.

Your browser does not support the video tag.

Video: This video illustrates the size and shape of the filter, providing a visual reference for proper fit within the fountain.

- Assemble Pump:** Ensure the pump is clean. If not already assembled, attach the pump to the bottom of the filter tray.

4. **Place Filter:** Insert the rinsed filter into the designated slot in the filter tray. Ensure it sits securely.

Image: A cat drinking from the AONBOY F1-SS4 water fountain. An inset diagram illustrates the 4-stage circulating filtration system, showing layers that filter metal ions, sediment, saliva, and hair, and remove odor, bacteria, chlorine, and heavy metals to improve water taste.

5. **Fill Water:** Place the stainless steel fountain body onto the silicone mat. Fill the fountain with water up to the MAX fill line (approximately 2.5 liters). Do not overfill.
6. **Position Filter Tray:** Carefully place the filter tray with the pump and filter into the stainless steel fountain body. Ensure the pump's power cord exits through the designated groove to prevent pinching.
7. **Add Spout (Optional):** If desired, attach the flower spout to the pump's water outlet for a different water flow style.
8. **Place Food Bowl:** Insert the stainless steel food bowl into the designated slot on the silicone mat.
9. **Connect Power:** Plug the USB cable into a compatible USB power adapter (not included) and then into a wall outlet. The fountain will start operating, and the night light will illuminate.

OPERATING INSTRUCTIONS

- **Power On/Off:** The fountain operates continuously when plugged in. To turn it off, simply unplug the power adapter from the wall outlet.

- **Water Flow Adjustment:** The water flow can be adjusted by changing the configuration of the flower spout.
 - Use the flower spout with the yellow cap for a gentle bubbling flow.
 - Use the flower spout without the yellow cap for multiple streams.
 - Remove the flower spout entirely for a wider, bubbling surface flow.
- **Night Light:** The integrated blue LED night light automatically turns on when the fountain is powered, providing visibility in low-light conditions.
- **Water Level:** Always ensure the water level is above the minimum mark to prevent the pump from running dry, which can damage it. Refill as needed.

MAINTENANCE

Regular cleaning and filter replacement are essential to maintain the fountain's performance and your pet's health.

1. **Daily Checks:** Check the water level daily and refill as necessary.
2. **Weekly Cleaning:**
 - Unplug the fountain.
 - Disassemble all components (stainless steel bowl, filter tray, pump, flower spout, food bowl, silicone mat).
 - Wash all parts with mild soap and water. The stainless steel parts are dishwasher safe.
 - Rinse thoroughly to remove all soap residue.
 - Clean the pump: Open the pump cover and remove the impeller. Clean the impeller and the pump cavity with a small brush to remove any hair or debris. Reassemble the pump.

EASY TO CLEAN

Stainless Steel can used with dishwasher

Image: The stainless steel components of the AONBOY F1-SS4 water fountain, including the main bowl and the top plate, are shown being rinsed with water, illustrating the ease of cleaning and their dishwasher-safe property.

3. **Filter Replacement:** Replace the activated carbon filter every 2-4 weeks, or more frequently if you have multiple pets or notice reduced water flow/quality. Always rinse new filters before use.
