VEMER VE788700

VEMER VE788700 TUO WIFI BATTERIA Smart Wi-Fi Battery Thermostat

USER MANUAL

1. Introduction

Thank you for choosing the VEMER VE788700 TUO WIFI BATTERIA Smart Wi-Fi Battery Thermostat. This device is designed to provide intelligent and convenient control over your home's heating and cooling systems. With its battery-powered operation, elegant design, and smart connectivity features, it offers a flexible and efficient solution for managing your indoor climate.

This manual provides detailed instructions for the installation, operation, and maintenance of your new thermostat. Please read it thoroughly before using the device to ensure proper functionality and safety.

TUO WI-FI BATTERIA

**IL CONTROLLO SMART
DELLA TUA ABITAZIONE**

2. Safety Information

- Always disconnect power to the heating/cooling system before performing any installation or maintenance.
- Installation should be performed by qualified personnel if you are unsure about electrical connections.
- Use only 4 x 1.5V AA alkaline batteries. Do not use rechargeable or zinc-carbon batteries, as they may affect performance and battery life.
- Keep the device away from water and excessive humidity.
- Do not attempt to disassemble or repair the thermostat yourself. Contact VEMER technical support for assistance.

This product is designed and manufactured in Italy, reflecting high standards of quality and attention to detail.

Proudly Made in Italy.

3. Product Overview

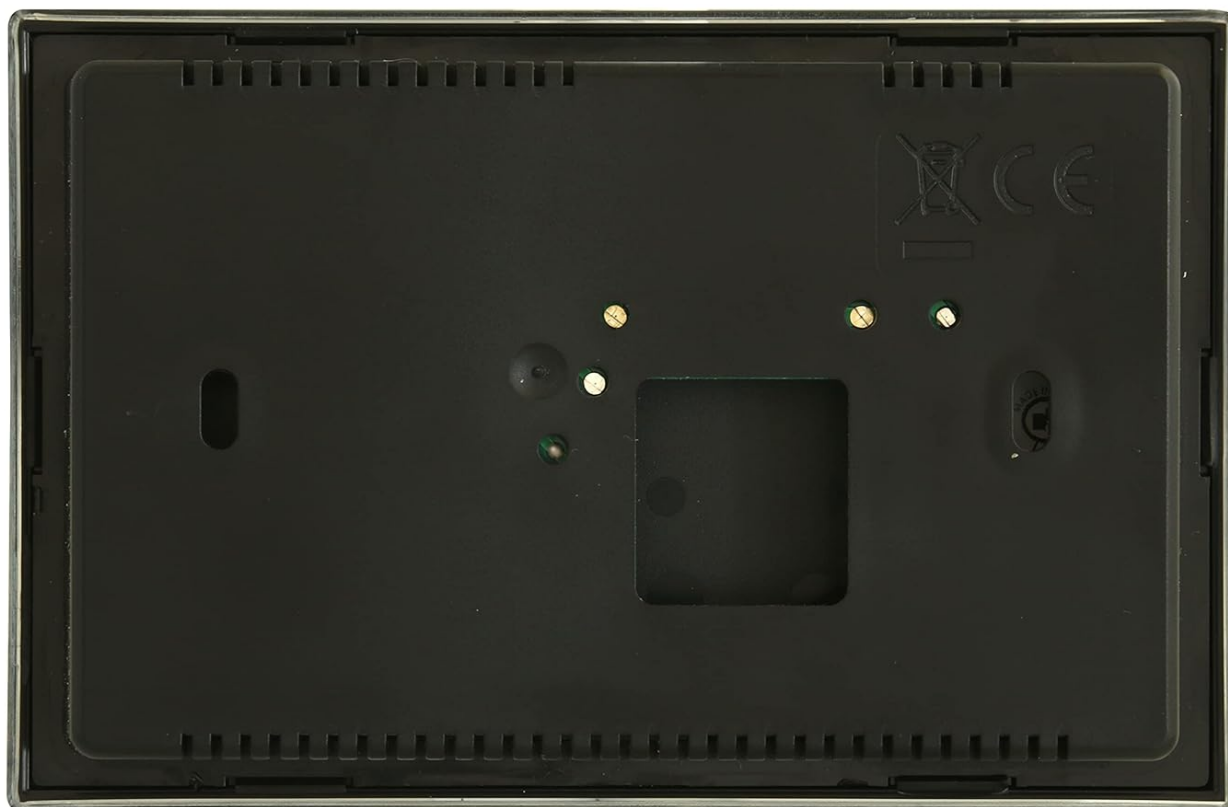

The VEMER VE788700 thermostat features a sleek design with a large, backlit touch screen display for clear visibility and easy interaction. It includes intuitive controls for setting temperatures and programming schedules.

Front view of the VEMER VE788700 thermostat, showing its display, accompanying batteries, and a smartphone with the Clima Vemer app.

Components:

- **Touch Screen Display:** Large, blue backlit display (can be deactivated) for temperature, time, and program information.
- **SET Button:** For accessing settings and programming.
- **Up/Down Arrows:** For adjusting values and navigating menus.
- **Battery Compartment:** Located at the rear for 4 x AA batteries.

Rear view of the VEMER VE788700 thermostat, showing the mounting points and battery compartment.

The VEMER VE788700 thermostat with its battery compartment open, showing the placement for the AA batteries.

Dimensions:

The thermostat measures approximately 13 cm (length) x 9 cm (width) x 3 cm (depth).

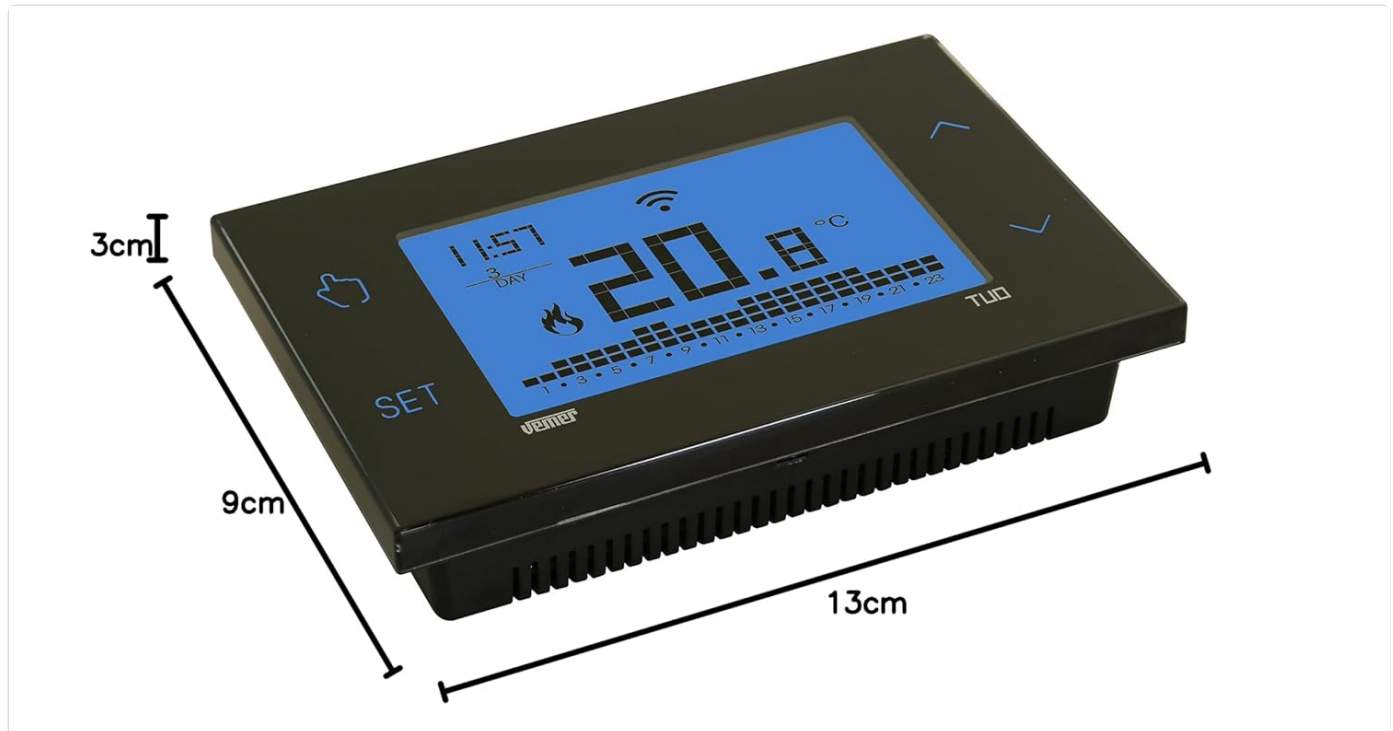

Diagram illustrating the dimensions of the VEMER VE788700 thermostat: 13cm length, 9cm width, and 3cm depth.

4. Setup

4.1. Installation

The thermostat is designed for easy wall mounting. It is compatible with various boiler types, including gas, condensing, and pellet models, as well as heat pumps and underfloor heating systems. Detailed installation instructions are provided in the manual included in the product packaging. For additional guidance, video tutorials are available on the Vemer website.

4.2. Battery Installation

The thermostat operates on 4 x 1.5V AA batteries. To install, open the battery compartment on the rear of the device and insert the batteries, ensuring correct polarity. For optimal performance and battery life, use only alkaline batteries.

4.3. Wi-Fi Network Requirements

For proper operation, ensure your Wi-Fi network meets the following requirements:

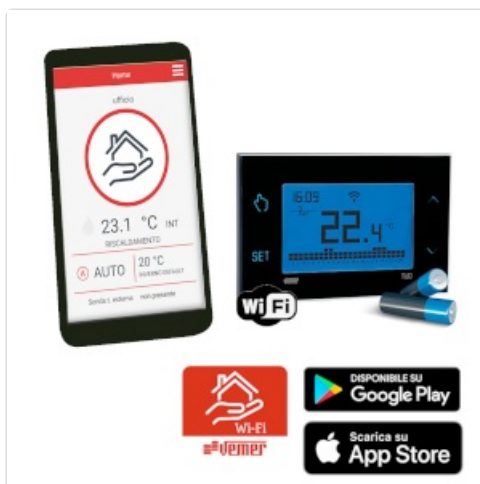

- The thermostat operates exclusively on the **2.4 GHz frequency band**. Ensure this band is enabled on your router.
- Network security settings must be configured to **WPA/WPA2 or WPA2** for a stable and secure connection.
- The router or Access Point must have correct access and sufficient range to guarantee stable communication.
- The router must allow internet access and not have navigation limitations (e.g., parental control).

4.4. App Configuration

The thermostat is controlled via the free **Clima Vemer app**, available for Android and iOS devices. Follow these steps for configuration:

1. Download the Clima Vemer app from the App Store (iOS) or Google Play Store (Android).
2. Open the app and select the correct product model for configuration.

3. Follow the detailed instructions within the app to connect your thermostat to your Wi-Fi network.

Technical requirements for Wi-Fi network and useful tips for configuration, including app download links.

5. Operating

5.1. Manual Control

You can directly adjust the thermostat settings using the integrated touch screen display and buttons. The display activates upon touch, providing clear visibility of current temperature and settings.

5.2. App Control

The Clima Vemep app allows comprehensive control of your thermostat from your smartphone. You can:

- Adjust temperature settings.
- Set weekly programming schedules.
- Monitor current temperature and system status.
- Access advanced features like keyboard lock.

5.3. Voice Control

The thermostat is compatible with Amazon Alexa and Google Home, allowing you to control your heating and cooling with voice commands.

5.4. Weekly Programming

The thermostat offers flexible weekly programming with the ability to set 3 different temperature levels (T1, T2, T3) and a resolution of 1 hour. This allows for precise climate control tailored to your schedule.

5.5. Heating and Cooling Modes

The thermostat is versatile and can be used for both heating and air conditioning systems, adapting to various domestic climate control setups.

Display showing heating mode activated.

Display showing cooling mode activated.

5.6. Battery Life Optimization

To extend battery life, the thermostat does not maintain a continuous connection to the Vemer cloud. Connection frequency varies by season:

- **Winter Period (October 1 - April 30):** The device accesses the cloud every 15 minutes from 6 AM to midnight, and every hour from midnight to 6 AM.
- **Summer Period (May 1 - September 30):** Connection occurs every 8 hours.

This configuration balances battery longevity with temperature update frequency. Users can modify these parameters via the Clima Vemer app. Changes made directly on the thermostat's keyboard are applied immediately.

5.7. Keyboard Lock and Administrator Function

The thermostat includes a password-protected "keyboard lock" function, ideal for public installations to prevent unauthorized setting changes. Additionally, the "local lock" (administrator function) allows device control exclusively through the app, disabling direct modifications from the thermostat's keyboard.

6. Maintenance

6.1. Battery Replacement

When the battery indicator on the display shows low power, replace all four AA batteries with new alkaline batteries. Refer to section 4.2 for battery installation instructions.

6.2. Cleaning

Clean the thermostat's display and casing with a soft, dry cloth. Do not use abrasive cleaners or solvents, as they may damage the surface.

7. Troubleshooting

If you encounter issues during the device configuration or operation, refer to the following common error codes and solutions:

Error Code	Description	Solution
Err1 / Err4	Generic error during configuration.	Force close and reopen the app. Repeat the configuration process, ensuring the Wi-Fi network name and password are entered correctly. Verify router settings.
Err2	Incorrect Wi-Fi network password.	Force close and reopen the app. Re-enter the Wi-Fi password carefully, checking for any special characters.

Error Code	Description	Solution
Err3	Incorrect Wi-Fi network name.	Force close and reopen the app. Re-enter the Wi-Fi network name carefully, checking for any special characters or extra spaces.

If you continue to experience difficulties, please contact Vemer technical support.

8. Specifications

Feature	Detail
Model Name	TUO WIFI BATTERY
Model Number	VE788700
Power Source	4 x AA Batteries (1.5V)
Product Dimensions	13 x 9 x 3 cm
Weight	190 grams
Controller Type	Manual control, Amazon Alexa, Google Assistant, iOS, Android
Special Feature	Battery powered
Country of Origin	Italy

9. Warranty and Support

9.1. Warranty Information

Specific warranty details are typically provided with the product packaging or on the manufacturer's official website. Please refer to these sources for comprehensive warranty terms and conditions.

9.2. Technical Support

For further assistance, troubleshooting, or technical inquiries, you can contact Vemer technical support:

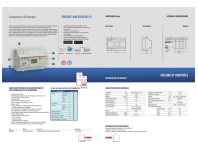

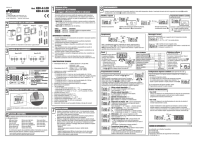

- **Email:** assistenza.technica@vemer.it

When contacting support, please provide the following information:

- The exact model of the device (VE788700).
- The MAC address of the device.
- Your Vemer account username (email used during app registration).
- A brief description of the issue.
- Your contact details (name, surname, phone number, email address).

Additionally, you can consult the tutorials available on the official Vemer website for more guidance.
