

HUONUL SM241D-DL

HUONUL Makeup Mirror Vanity Mirror with Lights

INSTRUCTION MANUAL

Introduction

Thank you for choosing the HUONUL Makeup Mirror. This trifold vanity mirror is designed to enhance your makeup application with its built-in LED lights, multiple magnification modes (2X, 3X, and 10X), and intuitive touch control. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new mirror to ensure optimal performance and longevity.

Safety Information

For indoor use only. Keep out of reach of children. Avoid exposure to water. Handle with care to prevent breakage. If broken, dispose of in accordance with local regulations. Sharp edges may be present; use caution when assembling or adjusting the mirror.

Product Features

- **Built-in 21 LED Bulbs:** Provides optimal brightness for makeup application.
- **10X, 3X, 2X Magnification Modes:** Offers magnified and wide-angle viewing for detailed and flawless makeup. Note: The main mirror does not have 10X magnification.
- **Dual Power Supply:** Can be powered by a USB charging cable (included) or 4xAAA batteries (not included).
- **Adjustable Degree Rotation:** Allows you to adjust the mirror to your preferred viewing angle.
- **Touch Control:** Easy and convenient touch switch to control LED lights and adjust brightness.
- **Trifold Design:** Protects the mirror from dust and scratches when closed, and is compact for storage or travel.

Setup

1. **Unpack:** Carefully remove the mirror and all components from the packaging.
2. **Assemble Base:** Attach the mirror stand to the base by aligning the grooves and securing it firmly. Ensure the mirror is stable on a flat surface.
3. **Power Supply:**
 - **USB Power:** Connect the included USB cable to the mirror's USB port (located on the back) and plug the other end

into a USB power adapter (not included) or a computer USB port.

- **Battery Power:** Open the battery compartment on the back of the mirror and insert 4xAAA batteries (not included), ensuring correct polarity (+/-).

4. **Positioning:** Unfold the trifold panels to your desired viewing angle. The mirror can be rotated to achieve the best perspective.

Operating Instructions

- Power On/Off:** Locate the touch sensor switch on the main mirror (usually indicated by a circle or light bulb icon). Touch and hold the sensor to turn the LED lights on or off.
- Adjust Brightness:** With the lights on, touch and hold the sensor switch to dim or brighten the lights. Release when the desired brightness is achieved.
- Using Magnification Panels:**
 - The left panel features 2X and 3X magnification mirrors for general and slightly closer views.
 - The detachable small round mirror provides 10X magnification for highly detailed tasks like tweezing or eyeliner application. This mirror can be attached to any part of the main mirror or side panels.
- Adjusting Viewing Angle:** The mirror's stand allows for adjustable rotation. Gently tilt the mirror forward or backward to find your optimal viewing angle.

Multiple Magnification Mode

Meet your different scene requirements

Figure 4: Illustrates the various magnification modes (1X, 2X, 3X, 10X) suitable for different makeup applications.

Maintenance

- **Cleaning:** To clean the mirror surfaces, gently wipe with a soft, lint-free cloth. For smudges, use a small amount of glass cleaner applied to the cloth, not directly to the mirror. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** When not in use, fold the trifold panels inward to protect the mirror surfaces from dust and scratches. Store in a cool, dry place away from direct sunlight and excessive humidity.
- **Battery Replacement:** If using batteries, replace all 4xAAA batteries simultaneously when the lights become dim or stop working. Ensure correct polarity.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lights do not turn on.	No power, batteries are dead/incorrectly inserted, or USB cable is not connected.	Check USB cable connection. If using batteries, replace with new ones and ensure correct polarity.
Lights are dim.	Low battery power or brightness setting is too low.	Replace batteries or connect via USB. Touch and hold the sensor switch to increase brightness.
Touch sensor is unresponsive.	Temporary electronic glitch or power issue.	Disconnect power (USB or batteries) for a few minutes, then reconnect. Ensure your finger is dry and clean when touching the sensor.

Specifications

- **Product Dimensions:** 9.4"L x 13.3"W (folded: 11.7 x 2.8 x 7.5 inches)
- **Weight:** Approximately 1 Pound
- **Model Number:** SM241D-DL
- **UPC:** 734172641272, 734172640480
- **Manufacturer:** HUONUL
- **Frame Material:** Acrylonitrile Butadiene Styrene (ABS)
- **Light Source:** 21 LED Bulbs
- **Power Source:** USB (cable included) or 4xAAA Batteries (not included)
- **Magnification:** 2X, 3X (side panels), 10X (detachable round mirror)
