## EASINE H55

# EASINE H55 Cordless Stick Vacuum Cleaner Instruction Manual

Model: H55 | Brand: EASINE

## 1. INTRODUCTION

Thank you for choosing the EASINE H55 Cordless Stick Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new vacuum cleaner. Please read it thoroughly before first use and keep it for future reference.

## 2. PRODUCT OVERVIEW

The EASINE H55 is a versatile 4-in-1 cordless stick vacuum cleaner designed for various cleaning tasks. It features a powerful suction, a large dustcup, a detachable battery, and an adjustable extension tube for enhanced usability.

### Key Features:

- **Powerful Suction:** Up to 10.5Kpa for efficient debris pickup.
- **Large Dustcup:** 1.3L capacity reduces the frequency of emptying.
- **Detachable Battery:** Allows for easy replacement and extended runtime with spare batteries.
- **Adjustable Extension Wand:** Customizable length for various heights and hard-to-reach areas.
- **Lightweight Design:** Enhances maneuverability and reduces user fatigue.
- **Built-in LED Light:** Illuminates dark areas for thorough cleaning.
- **Multi-level Filter System:** Maintains steady suction and expels fresh air.

### Components:

- Main Motor Unit (Handheld)
- Extension Tube
- Motorized Floor Head with LED Lights
- Soft Bristle Brush Roll (for hard floors)
- Stiffer Brush Roll (for carpets)
- 2-in-1 Brush and Crevice Tool
- Detachable Battery Pack
- Charging Adapter

- Wall Mount Bracket

by ILIFE

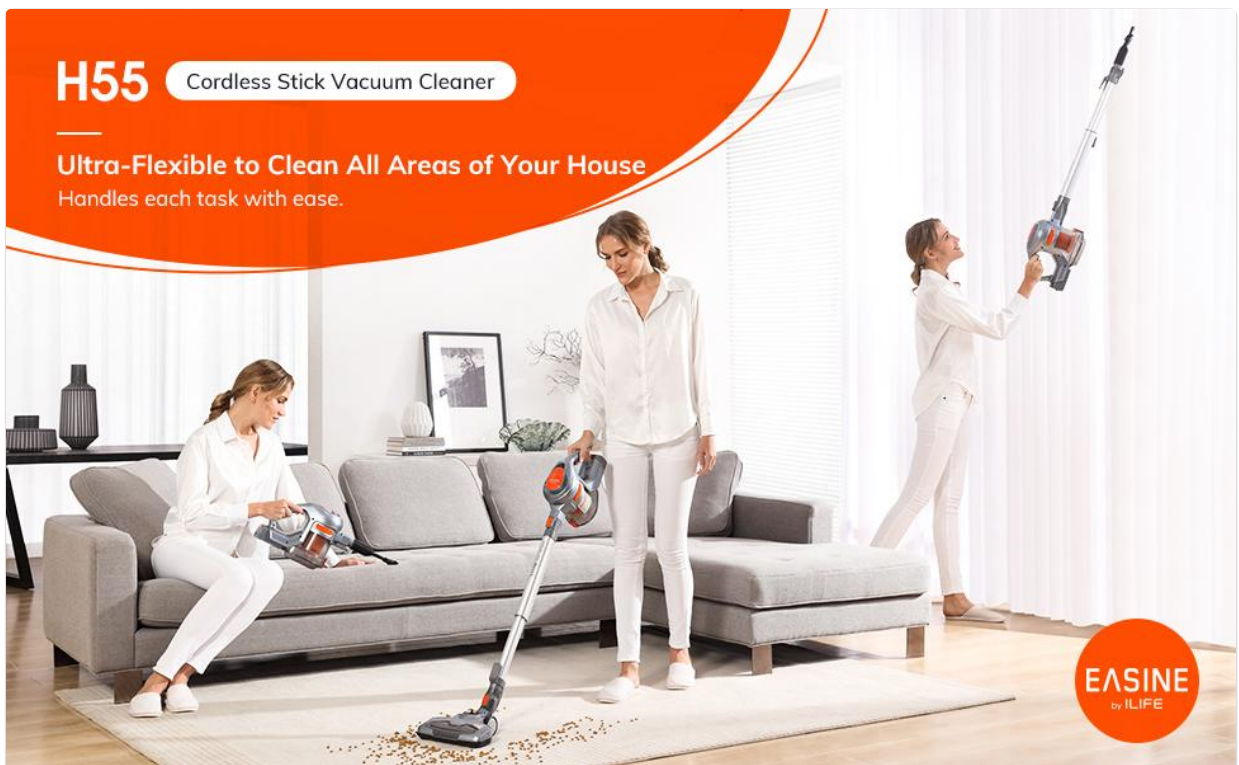

Make Life Easier

**How we got started?**  
EASINE (pronounced ēz-in, from the word EASINESS, as you ease in to a cleaner home and happier life), the sub-brand of ILIFE, focuses on handheld, cordless vacuums. In the past decades, our group have expanded the business to over 30 countries, helping millions of families around the world to create a clean living environment.

**Why our product is unique?**  
Every EASINE product is developed using cutting-edge technologies to meet various cleaning needs, offering outstanding versatility and convenience for everyday use.

**What EASINE brings to you?**  
EASINE is committed to helping you attain a clean home with the least amount of hassle so you have time to enjoy your home and life.

Image: The large 1.3L dustbin reduces the frequency of emptying, making cleaning more convenient.

Image: The multi-level filter system ensures steady suction and expels clean air during operation.

## 3. SETUP

### 3.1 Assembly

1. Attach the extension tube to the main motor unit until it clicks into place.
2. Connect the motorized floor head to the other end of the extension tube, ensuring it is securely fastened.
3. Insert the desired brush roll (soft for hard floors, stiff for carpets) into the motorized floor head.
4. For handheld use, detach the extension tube and connect the 2-in-1 brush and crevice tool directly to the main motor unit.

### 3.2 Charging the Battery

Before first use, fully charge the detachable battery. The battery can be charged while attached to the vacuum or separately.

- Connect the charging adapter to the battery pack and plug it into a power outlet.
- The 3-bar indicator lights on the main unit will show the charging status. All three lights will be solid when fully charged.
- A full charge may take approximately 5 hours or more.

Image: The 2200 mAh battery provides ample power for cleaning sessions.

Image: The charging dock provides a convenient way to store and charge the vacuum.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power Modes

The EASINE H55 offers two power modes:

- **Normal Mode:** For everyday cleaning and lighter debris.
- **Max Mode:** Provides increased suction for deep cleaning or stubborn dirt. Easily switch to Max Mode for enhanced cleaning performance.

Image: The vacuum can operate in Normal Mode for regular cleaning or Max Mode for powerful suction.

### 4.2 Adjustable Extension Wand

The extension wand can be adjusted to suit different user heights and cleaning needs, allowing you to reach high or low areas comfortably.

Image: The adjustable extension wand allows for comfortable use by individuals of varying heights.

### 4.3 Flexible Floor Head

The motorized floor head is designed for flexibility, allowing it to maneuver around corners and furniture with ease. The built-in LED lights illuminate dark spots, ensuring no dirt is missed.

Image: The flexible design of the floor head allows it to reach every area and corner with ease.

### 4.4 Handheld Mode

Easily convert the stick vacuum into a handheld unit by detaching the extension tube. Use the 2-in-1 brush and crevice tool for cleaning upholstery, car interiors, keyboards, and other above-floor surfaces.

### 4.5 Self-Standing Feature

Unlike many cordless stick vacuums, the H55 features a self-standing design. You can hang the main motor unit on the base near the floor head, allowing it to stand upright independently without needing a wall mount or dock during breaks in cleaning.

### 4.6 Runtime

The vacuum provides approximately 40 minutes of runtime on the low setting with the main nozzle attached, and 19-20 minutes on Max Mode before the battery starts to fade. The 3-bar indicator lights on top of the unit inform users about the remaining charge.

## 5. MAINTENANCE

---

## 5.1 Emptying the Dustcup

The 1.3L dustcup is designed for easy emptying. Use the quick-release latch and wide opening to dispose of collected dirt and debris directly into a trash bin.

Image: The dustbin can be easily emptied with a quick-release mechanism.

## 5.2 Cleaning Filters

Both the internal filters are washable. Regularly clean them to maintain optimal suction performance.

- Remove the filters from the dustcup.
- Rinse them under running water until clean.
- Allow the filters to air dry completely for at least 24 hours before reinserting them into the vacuum. Ensure they are completely dry to prevent damage and maintain filtration efficiency.

## 5.3 Cleaning Brush Rolls

The motorized floor head includes interchangeable brush rolls. Regularly check and clean them to remove tangled hair or debris.

- To remove a brush roll, locate the release tab on the side of the floor head and open the cover.
- Lift out the brush roll and remove any tangled hair or fibers.
- The H55 shows decent resistance to hair tangles for strands between 5 and 7 inches, but occasional detangling may still be necessary, especially with long hair.
- Reinsert the clean brush roll and close the cover securely.

Image: The vacuum comes with two brush rolls: a soft bristle brush for hard floors and a stiffer option for carpets.

## 6. TROUBLESHOOTING

---

## 6.1 Filtration Issues

The H55's filtration system may leak fine dust, even with its HEPA filter. This is a common characteristic of budget cordless stick vacuums. If you are sensitive to dust and allergens, this product may not be ideal. Regular cleaning of filters can help mitigate this to some extent.

## 6.2 Long Recharge Time

The battery recharge time is approximately 5 hours or more, which is longer compared to some premium models. To avoid interruptions during extended cleaning sessions, consider purchasing an extra detachable battery pack, which can be charged separately.

## 6.3 Noise Levels

The vacuum operates at over 70 decibels in both power settings. While this is typical for powerful vacuums, it may be a concern for users sensitive to noise.

## 6.4 Limited Attachments

The H55 comes with a single 2-in-1 brush and crevice tool. If you require more specialized tools, such as a mini-motorized tool for upholstery or pet hair, you might consider other models like the ILIFE G50 or G80, which offer more accessories.

## 7. SPECIFICATIONS
